Note 1 – Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

Medical Malpractice Joint Underwriting Association of Rhode Island ("the MMJUA") is a joint underwriting association created by the state of Rhode Island. The MMJUA was originally created in accordance with RI Gen. Law 42-35-3 by the adoption of Regulation 230-RICR-20-10-1 (formerly Insurance Regulation 21) by the Department of Business Regulation (the "Department") effective June 16, 1975. Subsequently, legislation was enacted which authorized the Department to promulgate regulations relating to medical malpractice insurance and validated Regulation 230-RICR-20-10-1. It was the intent of the Department that the MMJUA provides a continuing stable facility for medical malpractice insurance. Under the original plan of operation (approved June 25, 1975) and as amended and approved by the department on November 10, 2003, the MMJUA was created to provide medical malpractice insurance for physicians, hospitals and other health care providers, on a self-supporting basis.

The MMJUA is authorized to issue medical malpractice policies on a “claims made” or “occurrence” basis with limits not to exceed $1,000,000 for each medical incident under one policy and in the aggregate of $3,000,000 under one policy in any one year. The MMJUA is also authorized to underwrite incidental coverages for any health care provider that is also covered by the MMJUA’s medical malpractice, with limits of $1,000,000 per incident and $1,000,000 aggregate under a one-year policy. Additionally, the MMJUA is authorized to provide Commercial General Liability coverage to the health care providers with limits of $1,000,000 per incident and $2,000,000 aggregate under a one year policy. All policies are on an annual basis and shall be subject to the Group Retrospective Rating Plan and Stabilization Reserve Fund as authorized by Regulation 230-RICR-20-10-1.

The Group Retrospective Rating Plan and Stabilization Reserve Fund are described under Note 24 in the Annual Notes to the Financial Statements.

B. Use of Estimates in the Preparation of the Financial Statement

The preparation of financial statements in accordance with statutory accounting practices requires management to make estimates and assumptions that affect the reported amounts of admitted assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 20 – Fair Value Measurements

A. Fair Value Measurements

(1) Fair Value Measurements at Reporting Date

The Company has categorized its assets and liabilities that are measured at fair value into the three-level fair value hierarchy. The three-level fair value hierarchy is based on the degree of subjectivity inherent in the valuation method by which fair value was determined. The three levels are defined as follows.

Level 1- Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the MMJUA has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted process for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; or
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred between Levels 1 and 2. This policy also applies to transfers into or out of Level 3 as stated in paragraph 3 below.

(2) Fair Value Measurements in (Level 3) of the Fair Value Hierarchy

The Company has no assets or liabilities measured at fair value in the Level 3 category.

(3) Policies when Transfers Between Levels are Recognized

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred into or out of Level 3. During the current year, no transfers into or out of Level 3 were required.

(4) Description of Valuation Techniques and Inputs Used in Fair Value Measurement

The Company measures items at Level 2 on a recurring basis. The estimated fair values of some of these items were determined by independent pricing services using observable inputs. Others were based on quotes from markets which were not considered actively traded.

(5) Fair Value Disclosures

Not applicable.

B. Fair Value Reporting under SSAP 100 and Other Accounting Pronouncements
