#### (B) Use of Estimates in the Preparation of the Financial Statements

The preparation of the financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Therefore there is no effect on the reported net income, statutory surplus and risk based capital from utilizing an accounting practice that differs from the NAIC statutory accounting practices and procedures.

#### (C) Accounting Policies

##### Investment Income and Declines in Fair Value

The Company periodically reviews its bonds to determine whether a decline in fair value below the amortized cost basis is other than temporary. The process for identifying declines in the fair value of investments that are other than temporary involves consideration of several factors. These factors include (1) the period in which there has been a significant decline in value; (2) an

## NOTES TO FINANCIAL STATEMENTS

analysis of the liquidity, business prospects, and overall financial condition of the issuer; (3) the significance of the decline; and (4) our intent and ability to hold the investment for a sufficient period for the value to recover. When our analysis of the above factors results in the conclusion that declines in fair values are other than temporary, the cost of the securities is written down to fair value and is reflected as a realized loss.

### **Bonds**

Bond investments are stated at amortized cost and consist of United States Treasury and government agency securities as well as "Investment Grade" corporate notes with fixed rates and maturities. Interest income is accrued as earned. The Company has both the intent and ability to hold all securities until maturity and, accordingly, has categorized all investments as "held-to-maturity" securities. As a result, unrealized gains and losses are excluded from net income.

### **Claims and Claims Adjudication Expenses**

The estimated liability for claims incurred but unpaid is actuarially determined based on an analysis of historical claims experience, modified for changes in enrollment, inflation and benefit coverage. The estimated liability for accrued claims adjudication expense represents the anticipated cost of processing claims incurred but unpaid at the balance sheet date. The estimates for claims and claims adjudication expenses may be more or less than the amount ultimately paid when claims are settled. Such changes in estimates are reflected in current period operations.

Additionally, in accordance with NAIC guidelines, the following accounting policies are either utilized or are not applicable to the company.

1. Short term investments are stated at amortized cost.
2. Bonds are stated at amortized value using the constant yield / scientific method.
3. The company does not own common stocks; however, in accordance with NAIC guidelines, money market funds are now reported as Cash on Schedule E and the Balance Sheet, per the NAIC guidance for December 31, 2017.
4. The company does not own preferred stocks; hence this accounting policy is not applicable.
5. The company does not have mortgage loans; hence this accounting policy is not applicable.
6. Loan-backed securities are stated at amortized value using the constant yield / scientific method.
7. Investments in subsidiaries, controlled and affiliated entities would be reported using the equity method.
8. The company does not have investments in joint ventures, partnerships and limited liability companies; hence this accounting policy is not applicable.
9. The company does not own derivatives; hence this accounting policy is not applicable.
10. The company does utilize anticipated investment income as a factor in the premium deficiency calculation.
11. The company methodologies for estimating the liabilities for losses and loss/claim adjustment expenses are actuarially derived as described above.
12. The capitalization policy and the predefined thresholds did not change from the prior period.
13. The company does not use pharmaceutical rebate receivables; hence this accounting policy is not applicable.

## NOTES TO FINANCIAL STATEMENTS

F. Altus Dental Insurance Company and Delta Dental of RI (DDRI) are allocated expenses from Altus Systems, Inc., a subsidiary within the Altus Group. Altus Systems (AS) is the company that employs the operations staff necessary to administer the dental business of both DDRI and Altus Dental Insurance Company. As a for-profit company, AS “sells” its dental related services to its sister and ultimate parent company at a 2% markup over its costs (to satisfy IRS requirements); therefore AS generates net income on its dental operations. The allocations from Altus Systems are based on the Company’s member enrollment levels as a percentage of total consolidated dental member enrollment.

The Parent Company’s one dental insurance subsidiary, Altus Dental Insurance Company, is allocated expenses from three affiliated Companies, the ultimate Parent, Delta Dental of RI and two sister companies (Altus Systems, Inc. and Altus Dental, Inc.) within the Altus Group. The allocations from Delta and Altus Systems are based on the Company’s member enrollment levels as a percentage of total consolidated dental member enrollment. Expenses from Altus Dental are based on the number of subscribers under contract by the Company. The main allocated expenses from each source are as follows:

- Expenses are allocated from Delta Dental (DDRI), for costs associated with a portion of consolidated expenses incurred by DDRI that should be spread between the two insurance companies. The main costs in this category would be rent, depreciation and payroll and fringes benefit costs for the various departments that service both insurance Companies, such as Underwriting and Finance.
- Altus Systems (AS) is the company that employs the operations staff necessary to administer the dental business of both DDRI and this Company, such as claims processing and customer service.
- Altus Dental incurs costs related to: (1) advertising, (2) recruiting and servicing the provider network, and (3) sales and marketing activities. These costs are then allocated to the Company based on the volume of subscriber dental contracts.

For the periods ended September 30, 2018 and December 31, 2017, after elimination of intercompany transactions, The Altus Group, Inc. generated income of \$1,912,000 and \$2,829,000, respectively.

Altus Dental Insurance Company, Inc. is allocated expenses from affiliated entities based on allocation methods, which are analyzed and updated by management on an annual basis. The resulting total expense allocations are disclosed on Schedule Y of the 2017 Annual Statement filing. Total expenses, including these allocated expenses, are disclosed in more descriptive detail in the year end Underwriting and Investment Exhibit Part 3 – Analysis of Expenses.

G. Altus Dental Insurance Company, Inc. is a wholly owned subsidiary of The Altus Group, Inc. which itself is a wholly owned subsidiary of Delta Dental of Rhode Island. This group of affiliated for-profit entities was established in 1999 for the purpose of expanding the ultimate parent company’s offering of prepaid dental care products to organizations based outside the State of Rhode Island.

H. The consolidated holding company maintains no upstream intermediate entities. This type of structured entity is not applicable to the corporate structure of Delta Dental of Rhode Island and all subsidiaries.

I. The company has no ownership of SCA entities - - not applicable.

K. Foreign Insurance Subsidiaries are not applicable to the operations of the Company.

L. Investments in a downstream noninsurance holding Company are not applicable to the operations of the Company.
