1. Summary of Significant Accounting Practices

A. Accounting Practices

The accompanying financial statements of Pawtucket Insurance Company (the "Company" or "PIC") are presented on the basis of accounting practices prescribed or permitted by the Rhode Island Insurance Department.

The Rhode Island Insurance Department recognizes only statutory accounting practices prescribed or permitted by the State of Rhode Island for determining and reporting the financial condition and results of operations of an insurance company, and for determining its solvency under the Rhode Island Insurance Law. The National Association of Insurance Commissioners' ("NAIC") Accounting Practices and Procedures Manual ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the State of Rhode Island.

A reconciliation of the Company's surplus between the practice permitted by the Rhode Island Department and the NAIC SAP is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles ("SAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports from ceding companies for reinsurance assumed and contract terms for reinsurance ceded. However, there were no written or earned premiums in 2018 or 2017.

Expenses incurred in connection with acquiring new insurance business, including such acquisitions costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable No new insurance business was acquired in 2018 or 2017.

In addition, the company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost.
- (2) Bonds not backed by other loans are stated at amortized cost using the scientific interest method.
- (3) Unaffiliated common stocks are stated at market value.
- (4) Preferred Stocks, depending on type, are stated at cost or market.
- $\begin{array}{c} \text{(5)} & \text{Mortgage loans on real estate.} \\ & \text{N/A} \end{array}$
- (6) Loan-backed securities are stated at amortized cost. The retrospective amortization adjustment method is used to value all loan-backed securities.
- (7) Investments in uncombined subsidiaries, controlled and affiliated companies. N/A

- (8) Investments in joint ventures, partnerships and limited liability companies. N/A
- (9) Derivatives.
- (10) N/A
- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported Such liabilities are necessarily based on assumptions and estimates and, while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates, and for establishing the resulting liability, are continually reviewed and any adjustments are reflected in the period determined.

12. Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Post Retirement Benefit Plans

A. Defined Benefit Plans

The Company has a qualified defined benefit retirement plan covering substantially all of its former employees. The benefits are based on years of service, age at retirement and employee's compensation during the last five years of employment. The Company also has a non-qualified executive retirement plan covering certain former senior officers. The plan provides minimum retirement benefits based on years of service, age at retirement and compensation during the last two years of employment.

Effective July 27, 2003, benefits accumulated under the qualified plan were frozen and no further benefits are accumulating for employees.

Effective September 22, 2005, the benefits due to certain participants in the executive retirement plan were re-defined by the Rhode Island Superior Court Of the remaining participants, benefits for both have been accrued on either a lump sum basis or agreed upon basis. Additionally, during 2003, a plan providing certain healthcare benefits to retirees was terminated for both current and future retirees.

As of March 31, 2018, the Company funded and terminated the Plan, providing to its beneficiaries lump-sum distributions or annuitizing participant benefits, and thus fulfilling the Company's pension obligation.

A summary of assets, obligations and assumptions of the Qualified Pension Plan are as follows at December 31, 2018 and 2017.

- (12) The Company's defined benefit plan was terminated March 31, 2018. Prior to termination, the projected benefit obligation was the actuarial present value of all benefits attributed to employee service as of the date of calculation. The expected long-term rate of return on assets was developed based on a model which utilizes modern portfolio theory to produce a statistical range of expected returns. The model was based on the historical behavior of the broad financial markets, reflects the plan's asset allocation and utilizes the plan's actuarial assumption regarding future rates of inflation.

There are neither assets nor estimated future payments due the plan termination as of March 31, 2018.
