B) Use of Estimates in Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C) Accounting Policies

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by semi-monthly pro-rata methods for direct and ceded business.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition the Company uses the following accounting policies:

- 1. Short-term investments are stated at amortized cost.
- 2. Bonds not backed by other loans are stated at either amortized cost using the interest method or the lower of amortized cost or fair market value.
- 3. Unaffiliated common stocks are stated at fair market value.
- 4. Unaffiliated preferred stocks are stated at fair market value.
- 5. The Company does not hold mortgage loans.
- 6. Loan-backed securities, including Mortgage-Backed Securities and Asset-Backed Securities, are stated at either amortized cost or the lower of amortized cost or fair value, using the interest method. Prepayment assumptions are reviewed on a periodic basis. If changes in prepayments are deemed necessary, securities are revalued based upon the new prepayment assumptions. The retrospective adjustment method is used to revalue all securities except for interest only securities, securities where the yield had become negative or securities where an other than temporary impairment was recognized as adopted under SSAP No. 43R, that are valued using the prospective method.
- 7. Common stocks of uncombined subsidiaries and affiliates in which the Company has an interest of 20% or more are carried on the equity basis.
- 8. Real estate is stated at cost less accumulated depreciation.
- 9. The Company does not hold derivative instruments.
- 10. The Company does utilize anticipated investment income as a factor in premium deficiency calculations.
- 11. Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessary based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided.
