Note 1 - Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying financial statements have been prepared in accordance with accounting practices prescribed or permitted by the State of Rhode Island and Providence Plantations Department of Business Regulation - Insurance Division (Division). The State of Rhode Island requires insurance companies domiciled in the state to prepare their statutory financial statement in accordance with the National Association of Insurance Commissioner' (NAIC) Accounting Practices and Procedures Manual.

The Rhode Island Automobile Insurance Plan's (referred to as the Plan) primary responsibility is to provide automobile insurance to qualified applicants unable to procure such insurance through ordinary methods. The Plan is the residual market mechanism for the state, which includes both private passenger (PP) and other than private passenger (OTPP) policies. The Plan was granted a Certificate of Authority in October 2018 and started writing private passenger automobile insurance on January 1, 2019. Prior to this, the Plan used a Service Center approach to handle the residual market policies and assigned them to various insurance companies that write within the state. The Plan also receives OTPP applications and distributes them to a servicing carrier who writes the business on their voluntary book of business. The residual market is funded by the creation of a pooling mechanism and, through assessments, is funded by all member insurers in the state.

The Board of Governors has appointed AIPSO to act as Central Processor to perform accounting and statistical functions for the Plan for which it is charged a service fee. Assessments are remitted to AIPSO as Central Processor when due. Every insurer authorized to write automobile liability or physical damage insurance in the state shall be a member of the Plan and shall subscribe to and be bound by the rules and regulations adopted pursuant thereto. AIP members will record the assessments on their books as boards and bureaus expense. Each member company will report to AIPSO as Central Processor any credits or exception premium that would be netted with NAIC annual statement premium as required by the state Plan of Operation.

AIPSO maintains separate general ledger records to account for the AIP business. They have a chart of accounts, ledgers, and necessary support to clearly control the policy and claim services reported. The Plan maintains detail records for the private passenger policies written after January 1, 2019.

Differences between Rhode Island prescribed practices and NAIC statutory accounting practices (NAIC SAP) follow:

B. Use of Estimates

Management of the Plan has made a number of estimates and assumptions relating to the reporting of assets, liabilities, revenues, and expenses to prepare these financial statements in conformity with statutory accounting practices. Significant estimates are made by management with regard to Incurred But Not Reported reserves, Premium Deficiency reserves and the amounts due to AIPSO as reimbursement for its pension benefit obligations. Actual results could differ from those estimates and those differences may be material.

C. <u>Accounting Policies</u>

1. Basis of Valuation of Short-Term Investments

Cash and cash equivalents include cash on hand and short-term investments. Short-term investments are limited to securities guaranteed by the U. S. government, securities issued by government sponsored enterprises, money market accounts, commercial papers and overnight repurchase agreements and are recorded at cost, which approximates market. Short-term investments mature in less than 3 months and are therefore considered cash equivalents.

2. Basis of Valuation of Bonds

The Plan does not have any bonds.

3. Basis of Valuation of Common Stock

The Plan does not have common stock.

4. Basis of Valuation of Preferred Stocks

The Plan does not have preferred stock.

5. Basis of Valuation of Mortgage Loans

The Plan does not have mortgage loans.

6. Basis of Valuation of Loan-Backed Securities

The Plan does not have loan-backed securities

7. Basis of Valuation of Subsidiary, Controlled and Affiliated

The Plan has no interest in subsidiaries, controlled and affiliated companies.

8. Basis of Valuation of Joint Ventures, Partnerships, LLC's

The Plan has no investments in joint ventures, partnerships and LLC's.

9. Basis of Valuation of Derivatives

The Plan has no derivatives

10. Premium Deficiency Reserve

The Plan's premium deficiency reserve is calculated for the potential shortfall in premium to anticipated losses. The reserve does not include any administrative Plan expenses due to these expenses being pre-funded by a prospective assessment. The Plan anticipates investment income when evaluating the need for premium deficiency reserves.

11. Method of Establishing Loss and LAE Reserves

The Plan provides reserves for unpaid insurance losses and loss adjustment expenses, which cover events that occurred in fiscal year 2019. These reserves reflect estimates of the total cost of claims and expenses reported but not yet paid, and the cost of claims and expenses incurred, but not yet reported. Reserve estimates are based on past loss experience modified for current claim trends as well as prevailing social, economic and legal conditions. Final claim and expense payments, however, may ultimately differ from the established reserves, particularly when these payments may not occur for several years. Reserve estimates are continually reviewed and updated, and any resulting adjustments are reflected in current operating results. Reserves are reduced for estimated amounts of salvage and subrogation. In estimating the amount of salvage and subrogation, AIPSO utilizes historical paid loss experience. The estimated salvage and subrogation recoverable at December 31, 2019 was \$57,712.

12. Change in Capitalization Policy

The Plan has had no change in its Capitalization Policy.

13. Method of Estimating Pharmaceutical Rebate Receivables

The Plan has no pharmaceutical rebate receivables.

D. Going Concern

Based upon its evaluation of relevant conditions and events, management does not have substantial doubt about the Plan's ability to continue as a going concern.

Note 2 – Accounting Changes and Corrections of Errors

The Rhode Island Automobile Insurance Plan is the residual market mechanism for the state. The Plan was an assignment program where the insurance policies were written and processed using a service center model and then assigned to member companies who write voluntary automobile insurance within the state. The Plan was granted a Certificate of Authority to write this business on Plan paper. During the current year's financial statement preparation, the financials changed from GAAP to Statutory presentation.

Pension Plan

The Plan staff, which are considered AIPSO employees, participate in a noncontributory multiple-employer, defined benefit pension plan (the Pension Plan) that covers all qualified employees. The Pension Plan is included in The Pension Plan for Insurance Organizations. The Pension Plan provides for benefits to be paid to eligible employees (those employees who have attained the age of 21 and have worked at least 1,000 hours during a 12 month period beginning on January 1) at retirement based primarily upon years of service with AIPSO and "final average earnings" at retirement. "Final average earnings" is defined as the average of the five highest consecutive years' earnings out of the last ten years prior to retirement. This plan was closed to new hires as of May 31,2018.

Employees hired on or after June 1, 2018 will be included in a cash balance pension plan, which AIPSO makes a contribution on behalf of the participant, based on their salary and years of service. It provides for benefits to be paid to eligible employees (those who have worked at least three years of service and 1.000 hours of service in their third year) at retirement based upon years of service with AIPSO.

The cash balance plan is included with the traditional plan for reporting purposes. Contributions to the Pension Plan reflect benefits attributed to employees' service to date, as well as services expected to be earned in the future. The funding policy for the Pension Plan is to contribute annually in conformance with minimum funding requirements. The Pension Plan's assets consist of funds managed by several major insurance companies, including domestic equities, fixed income and international equities.

The Pension Plan's expense, incurred by AIPSO, is allocated to AIPSO and various automobile insurance plans (including the Plan) based on gross salary dollars for the year of allocation. At December 31, 2019, the Pension Plan liability recorded by AIPSO totaled \$27,613,894, of which \$1,514,973 has been allocated to the Plan and reflected as due to AIPSO-Pension, included on Page 3 – Liabilities, Line 5 – Other Expenses amount.

Employee Savings Plan

AIPSO employees, which include the Plan staff, may participate in the Insurance Company Supported Organization (ICSO) 401(k) Savings Plan for qualified employees. AIPSO makes a 75% matching contribution of the participants 401 (k) contribution up to 6% of each participant's compensation. Each participant may elect pre-tax contributions up to the Internal Revenue Service (IRS) annual pre-tax cap of \$19,000 for those under 50 and \$25,000 for over 50 for 2019. Combined after-tax and pre-tax contributions cannot exceed 75% of eligible compensation. Annual IRS earnings and benefit maximums also apply. Total employer contributions reimbursed to AIPSO by the Plan amounted to \$41,579 for the year ended December 31, 2019.

E. Guarantees or Undertakings for Related Parties

Not applicable

F. Management, Service Contracts, Cost Sharing Arrangements

The Plan uses AIPSO as a Central Processor to perform accounting, actuarial and statistical services. These services performed are paid for by the Plan and its member companies through an annual assessment. The Plan also shares office space with AIPSO based upon a square foot cost allocation plan. As of December 31, 2019, the Plan owed AIPSO \$60,122 for expenses paid by AIPSO on behalf of the Plan.

Note 20 - Fair Value Measurements

A. Inputs Used for Assets and Liabilities Measured and Reported at Fair Value

The use of different assumptions or valuation methodologies may have a material impact on the estimated fair value amounts. The valuation techniques are based on observable and unobservable pricing inputs.

Observable inputs reflect market data obtained from Plan's independent sources based on trades of securities, while unobservable inputs reflect market assumptions. These inputs comprise the following fair value hierarchy:

Level 1 – Observable inputs in the form of quoted prices for identical instruments in active markets.

Level 2 – Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active or other inputs that are observable or can be derived from observable market data for substantially the full term of the assets or liabilities.

Level 3 – One or more unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets and liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using internal models, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

The level in the fair value hierarchy within which a fair measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The carrying amount of cash and cash equivalents are level 2 prices as they approximate fair value.
