Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of Motor Club Insurance Company (the Company) are presented on the basis of accounting practices prescribed or permitted by the State of Rhode Island Department of Business Regulation - Insurance Division. The National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures Manual has been adopted as a component of prescribed or permitted practices by the State of Rhode Island.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with NAIC Statutory Accounting Practices and Procedures (NAIC SAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Net investment income earned consists primarily of interest and dividends less related expenses. Interest is recognized on an accrual basis and dividends are recognized on an ex-dividend basis. Net realized capital gains (losses) are recognized on a specific identification basis when securities are sold, redeemed, or otherwise disposed. Realized capital losses include write-downs for impairments considered to be other than temporary

In addition, the Company uses the following accounting policies:

- (1) Short-investments are designated highest quality and high quality (NAIC designations 1 and 2, respectively) are stated at amortized cost using the modified scientific method; with all other investments not backed by other loans (NAIC designations 3 to 6) reported at the lower of amortized cost or fair value.
- (2) Bonds not backed by other loans designated highest quality and high quality (NAIC designations 1 and 2, respectively) are stated at amortized cost using the modified scientific method; with all other bonds not backed by other loans (NAIC designations 3 to 6) reported at the lower of amortized cost or fair value.
- (3) Common stocks, other than the investment in subsidiary, are reported at values published by the NAIC, which are generally based on market values. Changes in the values of these securities are reflected directly as unrealized gains or losses, net of deferred income taxes, in statutory surplus.
- (4) The Company has no investments in preferred stocks.
- (5) The Company has no investments in mortgage loans.
- (6) Loan-backed securities are carried at either amortized cost or the lower of amortized cost or fair market value and are adjusted using the retrospective method, with the exception of other than temporarily impaired securities which are adjusted using the prospective method.
- (7) The Company has no subsidiary, controlled and affiliated type investments.
- (8) The Company has no investments in joint ventures, partnerships or limited liability companies.
- (9) The Company has no investments in derivatives.
- (10) The Company does not utilize anticipated investment income as a factor in the premium deficiency calculation.
- (11) The Company's unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess or less than the amount provided. The methods for making such estimates and for establishing the resulting liability is continually reviewed and any adjustments are reflected in the period determined.
- (12) The Company has a written capitalization policy for Electronic Data Processing (EDP) equipment, software, furniture and equipment. The capitalization thresholds under this policy have not changed from those of the prior year.
- (13) The Company does not write major medical insurance with prescription drug coverage.

- (3) Securities held that were other-than-temporarily impaired due to the present value of cash flows expected to be collected was less than the amortized cost of securities Not Applicable
- (4) All impaired securities for which an OTTI has not been recognized in earnings as a realized loss
 - a. The aggregate amount of unrealized losses:

1.	Less than 12 months	\$ 5,908
2.	12 months or longer	 383
The	e aggregate related fair value of securities with unrealized losses:	

- 1. Less than 12 months
 \$ 1,277,784

 2. 12 months or longer
 99,617
- (5) All loan-backed and structured securities in an unrealized loss position were reviewed to determine whether OTTI should be recognized. The Company asserts that it has the intent and ability to hold these securities long enough to allow the cost basis of these securities to be recovered. These conclusions are supported by a detailed analysis of the underlying credit and cash flows of each security. Unrealized losses are primarily attributable to credit spread widening and increased liquidity discounts. It is possible that the Company could recognize OTTI impairments in the future on some of the securities if future events, new information or the passage of time cause it to conclude that declines in value are other-than temporary.

- G. All Other Contingencies

The Company is a defendant in various lawsuits, which are incidental to its operations. In some of these actions, plaintiffs assert claims for punitive damages. The Company intends to vigorously defend these actions. Litigation, by its very nature, is unpredictable and the outcome of these cases is uncertain. Moreover, the Company is unable to predict the precise nature or the relief that may be sought in any lawsuits that may be filed against it in the future. The Company has accrued an estimated amount for material cases, if any, as of December 31, 2020 as to which an unfavorable outcome is probable. Management does not expect the ultimate disposition of the remaining lawsuits to result in any material liability, and accordingly, no provision has been made in the accompanying financial statements for those lawsuits.

- (2) Fair value measurements in Level 3 of the fair value hierarchy Not Applicable
- (3) At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changes that changed that would cause and instrument to be transferred into or out of Level 3. The Company did not have any transfers into or out of Level 3 during 2020 and 2019.
- (4) When quoted prices in active markets for identical assets are available, these quoted market prices are used to determine the fair value of financial assets and these assets are classified as Level 1, primarily common stocks and U.S. Treasuries. In other cases where a quoted market price for identical assets in an active market is either not available or not observable, fair value is estimated using valuation methodologies based on available and observable market information or by using a matrix pricing model. These financial assets would be classified as Level 2. If quoted market prices are not available, fair value is determined by using broker quotes or an internal analysis of each investment's financial statements and cash flow projections. In these instances, financial assets will be classified based upon the lowest level of input that is significant to the valuation.

21. Other Items

A. Unusual or Infrequent Items

Due to the COVID-19 pandemic, automobile insurance claims volume and losses have decreased as a result of reduced miles driven by automobile insurance policyholders. In 2020, the Company and its Board approved COVID-19-related distributions of premium returns to automobile policyholders for premiums earned between March 16 and December 31, 2020. As a result, the Company recorded total premium returns of \$2,381,000. Reductions to earned premiums related to premium returns are included in direct premiums written, as reported in the Underwriting and Investment Exhibit.

- B. Troubled Debt Restructuring Not Applicable
- C. Other Disclosures Not Applicable
- D. Business Interruption Insurance Recoveries Not Applicable
- E. State Transferable and Non-Transferable Tax Credits Not Applicable
- F. Subprime-Mortgage-Related Risk Exposure
 - (1) The Company does not specifically address subprime exposure in its investment guidelines; however, such exposure is limited as follows: The Company's investment guidelines limit the amount of mortgage related securities in the investment portfolio and, within that limitation, the investments guidelines restrict mortgage related securities to highly rated securities. As a result, the Company's subprime exposure is relatively small as shown below. As of December 31, 2020, the Company has experienced unrealized losses due to price volatility, but has not experienced loss of income.
 - (2) Direct exposure through investments in subprime mortgage loans Not Applicable

25. Changes in Incurred Losses and Loss Adjustment Expenses

A. Reasons for Changes in the Provision for Incurred Loss and Loss Adjustment Expenses Attributable to Insured Events of Prior Years

Current year changes in estimates of the costs of prior year losses and LAE affect the current year Statement of Income. Increases in those estimates increase current year expense and are referred to as unfavorable development or prior year reserve shortages. Decreases in those estimates decrease current year expense and are referred to as favorable development or prior year reserve redundancies. There was no change during the year in estimated cost of loss and LAE attributed to insured events of prior years.
