NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Accounting Practices

The accompanying financial statements of The Beacon Mutual Insurance Company (the "Company") have been prepared in conformity with insurance accounting practices prescribed or permitted by the Rhode Island Insurance Department. The State of Rhode Island requires insurance companies domiciled in the State of Rhode Island to prepare their statutory financial statements in accordance with the National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures Manual.

SSAP 97 requires investments in subsidiaries to be carried at the entity's underlying audited statutory equity. As the Castle Hill Insurance subsidiary ("Castle Hill") has been inactive since its inception, the State of Rhode Island has granted the subsidiary an exemption from filing audited financial statements. As such, the State of Rhode Island has also granted a permitted practice to allow Castle Hill to be recorded on the Company's balance sheet as an invested asset at its unaudited statutory equity value.

A summary of the impact of the permitted practice on the Company's net income and surplus as a result of recording Castle Hill as an invested asset is estimated to be as follows:

	December 31, 2015		December 31, 2014	
	<u>Surplus</u>	<u>Net Income</u>	<u>Surplus</u>	<u>Net Income</u>

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of the financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements along with the reported amounts of revenues and expenses during the reporting period. Significant items subject to such estimates and assumptions include the Company's loss and loss adjustment expense reserves which have a significant effect on Incurred Losses and Loss Adjustment Expenses and related Net Income. Actual results could differ from these estimates.

C. Accounting Policies

Premiums are earned over the terms of the related policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance assumed. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as agent commissions, are charged to operations as incurred.

Real estate investments are classified in the balance sheet as properties occupied by the Company and carried at depreciated cost less encumbrances, if any. The fair values reported in Schedule A - Part 1 were obtained from an external independent appraisal company with values as of December 1, 2014.

In addition, the Company uses the following accounting policies:

1. Short-term investments are stated at amortized value using the interest method. Non-investment grade short-term investments are stated at the lower of amortized value or fair market value.
2. Bonds not backed by other loans are stated at amortized value using the interest method. Non-investment grade bonds are stated at the lower of amortized value or fair market value.

 8. The Company has minor ownership interests in joint ventures and partnerships which are carried at fair market value.
 9. The Company does not invest in derivatives.

 11. The Company provides reserves for unpaid insurance losses and loss adjustment expenses which cover events that occurred in the current and prior years. These reserves reflect estimates of the total cost of claims reported but not yet paid, and the cost of claims not yet reported, as well as the estimated expenses necessary to settle the claims. Reserve estimates are based on past loss experience modified for current claim trends as well as prevailing social, economic and legal conditions. Final claim payments may ultimately differ from the established reserves, particularly when these payments may not occur for several years. Reserve estimates are continually reviewed and updated and any resulting adjustments are reflected in current operating results.

Reserves are reduced for amounts to be recovered through reinsurance agreements but are not discounted or reduced for estimated salvage and subrogation recoveries. Salvage and subrogation recoveries are recorded when received.
 12. 20. Fair Value Measurement

A. Inputs Used for Assets and Liabilities Measured at Fair Value

1. Fair Value Measurements by Levels 1, 2 and 3

The Company has categorized its assets and liabilities that are measured at fair value into the three-level fair value hierarchy as reflected in the table below. The three-level fair value hierarchy is based on the degree of subjectivity inherent in the valuation method by which fair value was determined. The three levels are defined as follows:

Level 1 –Values are unadjusted quoted prices for identical assets and liabilities in active markets accessible at the measurement date.

Level 2 –Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities, prepayment speeds, spreads and yield curves.

NOTES TO FINANCIAL STATEMENTS

Level 3 --Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect the Company's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.

The following tables provide information as of December 31, 2015 and 2014 about the Company's financial assets and liabilities measured at fair value.

	December 31, 2015			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets at fair value (in 000's):				
Short-term investments	\$ 11,190	\$ -	\$ -	\$ 11,190

Total assets at fair value	<u>\$ 24,068</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 24,068</u>

	December 31, 2014			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

Common stock	13,465	-	-	13,465
Total assets at fair value	<u>\$ 14,481</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 14,481</u>

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred between Levels 1 and 2. This policy also applies to transfers into or out of Level 3 as stated in paragraph 3 below.

During 2015, the Company had no transfers into or out of Level 3.

2. Rollforward of Level 3 Items

The Company has no material assets or liabilities measured at fair value in the Level 3 category.

3. Policy on Transfers Into and Out of Level 3

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred into or out of Level 3. During the current year, no transfers into or out of Level 3 were required.

4. Inputs and Techniques Used for Level 2 and Level 3 Fair Values

The Company has no assets or liabilities measured at fair value in the Level 3 category.

The Company's investments in bond and debt securities and preferred stock reported at fair value are classified in Level 2. Fair values of the investments reported in this category are provided by independent pricing services. Where independent pricing services provide fair values, the Company has obtained an understanding of the methods, models and inputs used in pricing and has controls in place to validate that the amounts provided represent current fair values.

Typical inputs to models used by independent pricing services include but are not limited to benchmark yields, reported trades, broker-dealer quotes, issuer spreads, benchmark securities, bids, offers, reference data, and industry and economic events. Because some preferred and common stocks do not trade daily, independent pricing services regularly derive fair values using recent trades of securities with similar features. When recent trades are not available, pricing models are used to estimate the fair values of securities by discounting future cash flows at estimated market interest rates.

5. The Company has no derivative assets or liabilities.

F. Subprime Mortgage Related Risk Exposure

- The Company's exposure to subprime lending is limited to investments within the fixed income investment portfolio which contains asset-backed securities that are backed by subprime loans. The Company believes its greatest exposure is to unrealized losses from declines in asset values rather than realized losses resulting from future defaults. The Company manages its subprime risk exposure by limiting its holdings in these types of securities, continuing its conservative investment guidelines, maintaining high credit quality investments, and performing ongoing analysis of its portfolio.

22. Events Subsequent

During the first quarter of 2016, one of the Company's fixed income securities experienced a ratings downgrade by two ratings agencies which results in an NAIC level 3 designation. As such, NAIC level 3 securities are recorded at the lower of fair value or amortized cost, rather than amortized cost. This will result in a decrease to surplus of approximately \$600,000 in the first quarter 2016. The Company does not believe this event will have a material impact on its financial condition.

There were no additional events occurring subsequent to the end of the current year through the date of this filing meriting disclosure.

23. Reinsurance

A. Unsecured Reinsurance Recoverables

Unsecured reinsurance recoverable for losses, paid and unpaid including IBNR, loss adjustment expenses, and unearned premium in excess of 3% of the Company's policyholder surplus is as follows:

22039	13-2673100	General Reinsurance Corp.	\$38,871

(000 omitted)

B. Reinsurance Recoverables in Dispute

The Company has no reinsurance recoverable balances in dispute at December 31, 2015.

C. Reinsurance Assumed and Ceded and Protected Cells

All reinsurance premiums are paid on earned premium; therefore return commission is zero. At December 31, 2015, the unearned premium reserves for direct and assumed premiums were \$59,534,937 and \$2,851,405, respectively. The unearned premium reserves for ceded premiums was \$111,444 at December 31, 2015.

Certain ceded reinsurance contracts provide for additional or return contingent commission based on actual loss experience of the reinsured business. The annual contingent commission adjustment was settled during 2015 and there is no payable or receivable at December 31, 2015.

Certain ceded reinsurance contracts provided for additional or return premium based upon actual loss experience of the reinsured business. The Company's experience driven reinsurance premium was final and settled during 2014. As such, there is no payable or receivable as of December 31, 2015.

D. Uncollectible Reinsurance

NOTES TO FINANCIAL STATEMENTS

E. Commutation of Ceded Reinsurance

The Company commuted one reinsurance contract during 2015 with General Reinsurance Corp. The Company recognized the amounts received from the reinsurer as a reduction to losses and direct cost containment (DCC) paid and reduced reserves to recognize the effect of releasing the reinsurer from its obligation under the contract. The net effect of the commutation was a decrease in losses incurred and DCC incurred. This amount is shown below by Statement of Income classification:

Losses Incurred	\$ (589,852)
DCC Incurred	<u>(20,048)</u>
	\$ (609,900)

The gains or losses resulting from commutations are not recognized until the dates of final settlement between the Company and the reinsurer.

25. Changes in Incurred Losses and Loss Adjustment Expenses

The estimated cost of loss and loss adjustment expenses attributable to insured events of prior years increased by \$7.7 million during 2015.
