## NOTES TO THE FINANCIAL STATEMENTS

### 1. Summary of Significant Accounting Policies and Going Concern

#### A. Accounting Practices

The accompanying financial statements of Metropolitan Group Property and Casualty Insurance Company (the “Company” or “MGPC”) have been prepared on the basis of accounting standards prescribed or permitted (“RI SAP”) by the State of Rhode Island (“RI”) Department of Business Regulation, Insurance Division (the “Department” or “RIDBR”).

The Department recognizes only the statutory accounting practices prescribed or permitted by Rhode Island in determining and reporting the financial condition and results of operations of an insurance company, in determining its solvency under the Rhode Island Insurance Law. In 2001, the National Association of Insurance Commissioners’ (“NAIC”) *Accounting Practices and Procedures Manual* (“NAIC SAP”) was adopted as the basis of RI SAP.

The Department has not adopted any prescribed accounting practices that differ from those found in NAIC SAP. A reconciliation of the Company’s net income and capital and surplus between RI SAP and NAIC SAP is as follows:

	SSAP Number <sup>(1)</sup>	Financial Statement Page	Financial Statement Line Number	For the Year Ended December 31, 2019	For the Year Ended December 31, 2018
Net income, RI SAP				\$ 17,901,104	\$ 18,517,605
State prescribed practices: NONE				—	—
State permitted practices: NONE				—	—
Net income, NAIC SAP				\$ 17,901,104	\$ 18,517,605
				<b>December 31, 2019</b>	<b>December 31, 2018</b>
Statutory capital and surplus, RI SAP				\$ 306,389,656	\$ 397,709,169
State prescribed practices: NONE				—	—
State permitted practices: NONE				—	—
Statutory capital and surplus, NAIC SAP				\$ 306,389,656	\$ 397,709,169

<sup>(1)</sup> Statement of Statutory Accounting Principles (“SSAP”)

The Company’s risk-based capital (“RBC”) would not have triggered a regulatory event without the use of the state prescribed practices.

#### B. Use of Estimates in the Preparation of the Financial Statements

The preparation of the statutory financial statements requires that management make estimates and assumptions that affect the reported amounts of assets and liabilities at the dates of the financial statements. It also requires disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results may differ from those estimates.

All references to realized and unrealized net capital gains (losses), including other than temporary impairments (“OTTI”) and impairments, are pre-tax unless otherwise noted.

#### C. Accounting Policy

Premiums are generally recognized as revenue on a pro rata basis over the policy term. The portion of the premiums written applicable to the unexpired terms of the policies is recorded as unearned premiums.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments are stated in the same manner as comparable longer-term investments described below.
- (2) Bonds not backed by other loans are generally stated at amortized cost unless they have a NAIC rating designation of 3, 4, 5 or 6, which are stated at the lower of amortized cost or fair value. Bonds not backed by other loans are amortized using the scientific method. The Company did not sell and reacquire any Securities Valuation Office Identified Funds.
- (3) Common stocks of nonaffiliates are stated at fair value.
- (4) Redeemable preferred stocks are generally stated at cost or amortized cost unless they have a NAIC rating designation of 3, 4, 5 or 6, in which case such stocks are stated at the lower of cost, amortized cost or fair value. Perpetual preferred stocks are generally stated at fair value unless they have a NAIC rating designation of 3, 4, 5 or 6, in which case such stocks are stated at the lower of cost or fair value.
- (5) Mortgage loans on real estate are principally stated at amortized cost, net of valuation allowances.
- (6) Mortgage-backed bonds, included in bonds, are generally stated at amortized cost using the scientific method unless they have a NAIC rating designation of 3, 4, 5, or 6, which are stated at the lower of amortized cost or fair value. Amortization of the discount or premium from the purchase of these securities considers the estimated timing and

**NOTES TO THE FINANCIAL STATEMENTS**

amount of prepayments of the underlying mortgage loans. Actual prepayment experience is periodically reviewed and effective yields are recalculated when differences arise between the prepayments originally anticipated and the actual prepayments received and currently anticipated. For credit-sensitive mortgage-backed and asset-backed bonds and certain prepayment-sensitive bonds (e.g., interest-only securities), the effective yield is recalculated on a prospective basis. For all other mortgage-backed and asset-backed bonds, the effective yield is recalculated on a retrospective basis.

For certain residential mortgage-backed securities (“RMBS”) and commercial mortgage-backed securities (“CMBS”), both an initial and final NAIC designation is determined on a security-by-security basis based on a range of values published by the NAIC. The initial designation is used to determine the carrying value of the RMBS or CMBS. RMBS and CMBS with initial designations of 1 or 2 are stated at amortized cost, while RMBS and CMBS with initial designations of 3, 4, 5 or 6 are stated at the lower of amortized cost or fair value. The final designation calculation compares this carrying value with a range of values, resulting in a final NAIC designation reported herein, which is used for all other accounting and reporting purposes.

- (7) The Company accounts for investments in subsidiary, controlled and affiliated (“SCA”) companies using the statutory equity of the investee if the entity is an insurance company. All noninsurance entities are valued at the U.S. Generally Accepted Accounting Principles (“GAAP”) equity of the investee.
- (8) Investments in joint ventures, partnerships and limited liability companies (“LLC”) are carried at the underlying audited GAAP equity (or audited International Financial Reporting Standards (“IFRS”) equity for certain partnership interests) of the respective entity’s financial statements. Undistributed earnings of these entities are recognized in unrealized gains and losses. Such investments are nonadmitted if they do not have financial statement audits.
- (9) The Company did not utilize derivative instruments.
- (10) The Company considers anticipated investment income as a factor in the premium deficiency calculation.
- (11) The liability for unpaid reported losses is based on a case by case estimate (case reserves) for all lines and coverages within line of business, except for the non-injury automobile claims. For the non-injury automobile coverages, unpaid losses are based on average “statistical” reserves. There is an additional overall estimate (supplemental reserves for several specific coverages within lines of business) based on the Company’s past experience; this is also known as an additional reserve on known claims. A provision is also made for losses incurred but not reported on the basis of estimates and past experience modified for current trends and estimates of expenses for investigating and settling claims, reduced for anticipated salvage and subrogation. The liability for unpaid losses on business assumed is based in part on reports received from ceding companies.

Management believes that the liability for unpaid losses and loss adjustment expenses is adequate to cover ultimate unpaid losses and loss adjustment expenses incurred. However, such liability is necessarily based on estimates, and the ultimate liability may vary significantly from such estimates. In accordance with industry practice, the Company regularly reviews its estimated liability, and any adjustments are reflected in the period in which they become known. In accordance with guidelines established by the NAIC, the liability for unpaid losses at December 31, 2019 is reported net of estimated salvage and subrogation recoverable.

The Company currently has asbestos and environmental impairment liability (“EIL”) loss reserves relating to the business written prior to 1990. The reserves related to these exposures are handled by a third party and the Company does not expect any adverse results from the asbestos and EIL due to a corresponding excess of loss contract.

- (12) The Company did not modify its capitalization policy from the prior period.
- (13) The Company does not have pharmaceutical rebate receivables.
- (14) The Company does not own any electronic data processing equipment, operating system software, furniture and fixtures, leasehold improvements, or non-operating system computer software.

#### D. Going Concern

Management does not have any substantial doubt about the Company’s ability to continue as a going concern.

## 2. Accounting Changes and Corrections of Errors

### Accounting Pronouncements

Changes to statutory accounting are issued by the NAIC in the form of statutory statements of accounting principles (“SSAP”s). The Company considers the applicability and impact of all SSAPs. Except as noted below, the SSAPs adopted by the Company during 2019 did not have a material impact on the Company’s financial statements.

In August 2018, the NAIC adopted changes to SSAP No. 1, *Accounting Policies, Risks & Uncertainties, and Other Disclosures* (“SSAP 1”) and Appendix A-001, *Investments of Reporting Entities*, to align the summary investment schedule more closely to the underlying investment schedules, allowing for cross-checks and less manual allocations. The Company has provided all required disclosures.

## NOTES TO THE FINANCIAL STATEMENTS

In June 2017, the NAIC adopted updates to SSAP No. 69, *Statement of Cash Flow* (“SSAP 69”), to conform with Accounting Standard Update 2016-18, *Statement of Cash Flow - Restricted Cash*. The adoption clarifies that the flow of restricted cash and cash equivalents shall not be reported as operating, investing or financing activities, but shall be reported with cash and cash equivalents when reconciling beginning and ending amounts on the cash flow statement. The action also incorporated a change to SSAP 1, to ensure information on restricted cash, cash equivalents and short-term investments is reported in the restricted asset disclosure. The adoption of these changes did not have an impact on the Company’s financial statements.

2. 12 Months or Longer	\$	—
b. The aggregate related fair value of securities with unrealized losses:

2. 12 Months or Longer	\$	—

(5) The Company performs a regular evaluation, on a security-by-security basis, of its securities holdings in accordance with its OTTI policy in order to evaluate whether such investments are other than temporarily impaired. Management considers a wide range of factors about the security issuer and uses its best judgment in evaluating the cause of the decline in the estimated fair value of the security and in assessing the prospects for near-term recovery. Factors considered include fundamentals of the industry and geographic area in which the security issuer operates, as well as overall macroeconomic conditions. Projected future cash flows are estimated using assumptions derived from management’s best estimates of likely scenario-based outcomes after giving consideration to a variety of variables that include, but are not limited to: (i) general payment terms of the security; (ii) the likelihood that the issuer can service the scheduled interest and principal payments; (iii) the quality and amount of any credit enhancements; (iv) the security’s position within the capital structure of the issuer; (v) possible corporate restructurings or asset sales

by the issuer; and (vi) changes to the rating of the security or the issuer by rating agencies. For loan-backed securities in an unrealized loss position as summarized in the immediately preceding table, the Company does not have the intent to sell the securities, believes it has the intent and ability to retain the security for a period of time sufficient to recover the carrying value of the security and based on the cash flow modeling and other considerations as described above, believes these securities are not other than temporarily impaired.

and a tax sharing agreement. Under the consolidated tax return regulations, MetLife has elected the “percentage method” (and 100% under such method) of reimbursing companies for tax attributes, e.g., net operating losses. As a result, 100% of tax attributes are reimbursed by MetLife to the extent that consolidated Federal income tax of the consolidated Federal tax return group is reduced in a year by tax attributes. On an annual basis, each of the profitable subsidiaries pays to MetLife the Federal income tax which it would have paid based upon that year’s taxable income. If MetLife or the subsidiary has current or prior deductions and credits (including but not limited to losses) which reduce the consolidated tax liability of the consolidated Federal tax return group, the deductions and credits are characterized as realized (or realizable) by MetLife and its subsidiaries when those tax attributes are realized (or realizable) by the consolidated Federal tax return group, even if MetLife or the subsidiary would not have realized the attributes on a stand-alone basis under a “wait and see” method.

G. As of December 31, 2019, the Company had no liability for unrecognized tax benefits.

**10. Information Concerning Parents, Subsidiaries, Affiliates and Other Related Parties**

A-C. The Company paid extraordinary dividends to MPC, its parent, of \$34,630,481 and \$65,369,519 in the form of cash and bonds, respectively, on November 18, 2019. The bonds were transferred at fair value, including accrued interest of \$754,954, and had a book/adjusted carrying value of \$60,690,603. The realized capital gain recognized on this transfer was \$3,923,962.

The Company paid an ordinary dividend to MPC of \$3,000,000 in the form of cash on November 1, 2018.

The Company did not receive any capital contributions in 2019 or 2018.

F. In 2018, the Company and the overall MetLife enterprise created a simpler shared facilities and services structure, to more efficiently share enterprise assets and services and manage related expense allocations. To implement this new structure, effective as of April 1, 2018, the Company entered into a new Investment Management Agreement with its affiliate, MetLife Investment Advisers, LLC (subsequently renamed MetLife Investment Management, LLC (“MIM”)), under which MIM provides investment management services on a market-based fee basis. Further, effective as of October 1, 2018, the Company entered into a new service agreement with its affiliate, MSS, which provides for personnel, facilities and equipment to be made available and for a broad range of services to be rendered. This agreement, like existing service agreements with the Company’s affiliates, MLIC and MLG, provides for a cost allocation arrangement, under which the Company pays for all expenses, direct and indirect, reasonably and equitably determined to be attributable to the services provided. In addition, the Company has other services agreements with MSS and its affiliate, MetLife International Holdings, LLC, (“MIHL”) under which these entities on-provide certain services performed by non-U.S. affiliates. Under these agreements, in addition to a cost allocation, the Company may be charged a transfer pricing mark-up. Under all of these agreements, personnel, facilities, equipment and services are requested by the Company as deemed necessary for its business operations. The new MSS and MIM agreements described above substantially replaced existing service agreements with MLG, MLIC and MIHL.

G. All outstanding shares of the Company are owned by MPC. Allocated operating expenses are not necessarily indicative of the total cost that would be incurred if the Company operated on a stand-alone basis.

**NOTES TO THE FINANCIAL STATEMENTS**

Various litigation, claims and assessments against the Company, in addition to that discussed above and those otherwise provided for in the Company's financial statements, have arisen in the course of the Company's business, including, but not limited to, in connection with its activities as an insurer, employer, investor or taxpayer. Further, state insurance regulatory and other federal and state authorities regularly make inquiries and conduct investigations concerning the Company's compliance with applicable insurance and other laws and regulations.

On a quarterly and annual basis, management reviews relevant information with respect to liabilities for litigation, regulatory investigations and litigation-related contingencies to be reflected in the Company's financial statements. Liabilities are established when it is probable that a loss has been incurred and the amount of the loss can be reasonably estimated.

It is not possible to predict the ultimate outcome of all pending investigations and legal proceedings. In some of the matters, large and/or indeterminate amounts, including punitive and treble damages, may be sought. Although, in light of these considerations, it is possible that an adverse outcome in certain cases could have a material effect upon the Company's financial position, based on information currently known by the Company's management, in its opinion, the outcomes of pending investigations and legal proceedings are not likely to have such an effect. However, given the large and/or indeterminate amounts that may be sought in certain of these matters and the inherent unpredictability of litigation, it is possible that an adverse outcome in certain matters could, from time to time, have a material effect on the Company's net income or cash flows in any particular period.

**Assets and Liabilities**

The methods and significant assumptions used to estimate the fair value of all financial instruments are presented below.

The Company defines fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. In most cases, the exit price and the transaction (or entry) price will be the same at initial recognition.

When developing estimated fair values, the Company considers two broad valuation techniques: (i) the market approach and (ii) the income approach. The Company determines the most appropriate valuation technique to use, given what is being measured and the availability of sufficient inputs, giving priority to observable inputs.

The Company categorizes its financial assets and liabilities into a three-level hierarchy, based on the significant input with the lowest level in their valuation. The input levels are as follows. Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities. The Company defines active markets based on average trading volume for common stock. The size of the bid/ask spread is used as an indicator of market activity for bonds. Level 2 - Quoted prices in markets that are not active or inputs that are observable either directly or indirectly. These inputs can include quoted prices for similar but not identical assets or liabilities other than quoted prices in Level 1, quoted prices in markets that are not active, or other significant inputs that are observable or can be derived principally from or corroborated by observable market data for substantially the full term of the assets or liabilities. Level 3 - Unobservable inputs that are supported by little or no market activity and are significant to the determination of estimated fair value of the assets and liabilities. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability.

In general, investments classified within Level 3 use many of the same valuation techniques and inputs as described in the Level 2 discussions below. However, if key inputs are unobservable, or if the investments are less liquid and there is very limited trading activity, the investments are generally classified as Level 3. The use of independent non-binding broker quotations to value investments generally indicates there is a lack of liquidity or the general lack of transparency in the process to develop the valuation estimates generally causing these investments to be classified in Level 3.

**Bonds, Cash and Cash Equivalents**

When available, the estimated fair value for bonds, including loan-backed securities, and cash equivalents, are based on quoted prices in active markets that are readily and regularly obtainable. Generally, these investments are classified in Level 1, are the most liquid of the Company's securities holdings and valuation of these securities does not involve management's judgment.

When quoted prices in active markets are not available, the determination of estimated fair value is based on market standard valuation methodologies, giving priority to observable inputs. The significant inputs to the market standard valuation methodologies for certain types of securities with reasonable levels of price transparency are inputs that are observable in the market or can be derived principally from or corroborated by observable market data. Generally, these investments are classified in Level 2.

When observable inputs are not available, the market standard valuation methodologies rely on inputs that are significant to the estimated fair value that are not observable in the market or cannot be derived principally from or corroborated by observable market data. These unobservable inputs can be based in large part on management's judgment or estimation, and cannot be supported by reference to market activity. Even though these inputs are unobservable, management believes they are consistent with what other market participants would use when pricing such securities and are considered appropriate given the circumstances. Generally, these investments are classified in Level 3.

## NOTES TO THE FINANCIAL STATEMENTS

The estimated fair value for cash approximates carrying value and is classified as Level 1 given the nature of cash.

The use of different methodologies, assumptions and inputs may have a material effect on the estimated fair values of the Company's securities holdings.

### Investment Income Due and Accrued

Due to the short-term nature of investment income due and accrued, the Company believes there is minimal risk of material changes in interest rates or the credit of the issuer such that estimated fair value approximates carrying value. These amounts are generally classified as Level 2.

- D. At December 31, 2019, the Company had no investments where it was not practicable to estimate fair value.
- E. The Company did not have any investments that were measured using NAV as a practical expedient as of December 31, 2019.

The Company continues to closely monitor the performance of the subprime RMBS portfolio and the credit quality of the underlying assets.

The remaining portion of its business is a run-off of a book of reinsurance business transacted through TIG Insurance Company (successor by merger to Clearwater Insurance Company, formerly known as Odyssey Reinsurance Corporation and Skandia America Reinsurance Corporation (“TIG”)), inception in 1990. This transaction involved both a quota share contract (loss portfolio transaction) supported by funds held, and an excess of loss contract triggered upon extinguishment of the funds held. Due to the Restated Quota Share Reinsurance Agreement, the Company has unsecured aggregate recoverable losses, paid and unpaid including IBNR, loss adjustment expenses, unearned premiums and contingent commissions in the amount of \$724,431,852.

(2) The transaction between the Company and TIG is no longer treated as a loss portfolio transfer as the funds held balance was extinguished in November 2016, thereby triggering the excess of loss agreement. The net reserves are ceded by the Company to TIG, so the amount of unsecured reinsurance recoverables as of December 31, 2019, was \$0.

### F. Retroactive Reinsurance

The Company (formerly Met Re) wrote reinsurance lines of business prior to 1991. The Company engaged in a complex transaction with TIG (successor by merger to Clearwater Insurance Company, formerly known as Odyssey Reinsurance Corporation and Skandia America Reinsurance Corporation) and former Odyssey Re affiliate Hudson Reinsurance Company Limited, whereby all 1989 and prior reinsurance business reserves were transferred to Hudson (subsequently transferred to TIG via a novation of the transaction agreement). The Company is protected from negative loss development on the reinsurance reserves by virtue of an additional excess of loss reinsurance contract with TIG. The Excess of Loss Agreement was triggered in November 2016 as a result of the extinguishment of the funds held balance on the Reinsurance Treaty resulting in the net reserves being ceded to TIG by the Company. Through a separate agreement, TIG agreed to administer the business during the runoff period.

The 1989 and prior reinsurance loss reserve transfer to the Odyssey Re affiliates was done on an undiscounted basis for consideration of an equal amount as follows:

The Company is 100% reinsured with respect to these reserves and does not expect any adverse results due to the Excess of Loss Agreement with TIG. The Excess of Loss Agreement was triggered in November 2016 as a result of the extinguishment of the funds held balance on the Reinsurance Treaty resulting in the net reserves being ceded to TIG by the Company. The Company remains contingently liable for all risks reinsured in the event the reinsurers are unable to meet their obligation under the agreements.

The Company's exposure to asbestos losses arises from the sale of general liability insurance prior to 1990.
