## NOTES TO FINANCIAL STATEMENTS

### NOTE 1 Summary of Significant Accounting Policies and Going Concern

#### A. Accounting Practices

The accompanying financial statements of Affiliated FM Insurance Company ("Company") have been prepared on the basis of accounting practices prescribed or permitted by the Rhode Island Division of Insurance.

The state of Rhode Island requires insurance companies domiciled in the state of Rhode Island to prepare their statutory financial statements in accordance with the National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures Manual subject to any deviations prescribed or permitted by the Rhode Island Division of Insurance.

The Company applies paragraph 5(a) of SSAP 23, rather than paragraph 5(b) of SSAP 23, with respect to the methodology applied in translating the Company's Canadian branch to USD. This is consistent with the methodology used in prior years, and a permitted practice has been approved by the State of Rhode Island. The total adjustment to convert the balance sheet to USD is \$72,827,423 which appears on line 17 – "Net adjustment in assets and liabilities due to foreign exchange rates", on page 3 - "Liabilities" of the 2021 annual statement. There is no net impact on surplus, and the effect on 2021 net income would be a decrease to net income in the amount of \$10,824,633 (which would be offset by a corresponding increase to surplus).

#### B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Actual results could differ from these estimates.

#### C. Accounting Policy

Premium is earned over the terms of the related policies and reinsurance contracts. Unearned Premium is established to cover the unexpired portion of premium written. Such reserves are computed by pro rata methods for direct, assumed and ceded business.

Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

Net investment income earned consists primarily of interest and dividends less investment related expenses. Interest is recognized on an accrual basis and dividends are recognized on an ex-dividend basis. Net realized capital gains (losses) are recognized on a specific identification basis when securities are sold, redeemed or otherwise disposed. Realized capital losses include writedowns for impairments considered to be other than temporary.

In addition, the Company utilizes the following accounting policies:

(1) Basis for Short-Term Investments

Short-term debt securities are stated at amortized cost using the interest method.

(2) Basis for Bonds and Amortization Schedule

Non loan-backed bonds with NAIC designations 1 or 2 are stated at amortized cost using the interest method. Non loan-backed bonds with NAIC designations of 3 through 6 are stated at the lower of amortized value or fair value. See paragraph 6 for loan-backed and structured securities.

(3) Basis for Common Stocks

Common Stocks are stated at fair value.

(4) Basis for Preferred Stocks

The Company has no preferred stocks.

(5) Basis for Mortgage Loans

The Company has no mortgage loans.

(6) Basis for Loan-Backed Securities and Adjustment Methodology

U.S. government agency loan-backed and structured securities are valued at amortized value. Other loan-backed and structured securities are valued at either amortized value or fair value, depending on many factors including: the type of underlying collateral, whether modeled by NAIC vendor, whether rated (by either NAIC approved rating organization or NAIC Securities Valuation Office), and relationship of amortized value to par value and amortized value to fair value.

## NOTES TO FINANCIAL STATEMENTS

**NOTE 1 Summary of Significant Accounting Policies and Going Concern (continued from preceding page)**

- (7) Accounting Policies for Investments in Subsidiaries, Controlled and Affiliated Entities  
The Company has no interest in subsidiaries, controlled and affiliated entities.
- (8) Accounting Policies for Investments in Joint Ventures, Partnerships and Limited Liability Entities  
Investments in joint ventures, partnerships and limited liability corporations are stated at the underlying audited GAAP equity value.
- (9) Accounting Policies for Derivatives  
The Company has no derivatives.
- (10) Anticipated Investment Income Used in Premium Deficiency Calculation  
The Company anticipates investment income when evaluating the need for premium deficiency reserves.
- (11) Management's Policies and Methodologies for Estimating Liabilities for Losses and Loss/Claim Adjustment Expenses  
Liabilities for unpaid losses and loss adjustment expenses (including Asbestos and Environmental reserves) are based on case estimates or reports from ceding companies. Estimates of incurred-but-not-reported (IBNR) reserves are based on historical experience and management analysis. Although the above-described amounts are based on estimates, management believes recorded liabilities for unpaid losses and loss adjustment expenses are reasonable to cover the ultimate settlement cost of losses incurred. These estimates are continually reviewed and adjustments to such estimates are reflected in current operations.
- (12) Changes in the Capitalization Policy and Predefined Thresholds from Prior Period  
The Company has not changed its capitalization policy from the prior period.
- (13) Method Used to Estimate Pharmaceutical Rebate Receivables  
The Company has no "pharmaceutical rebate receivables."

**D. Going Concern**

Based upon its evaluation of relevant conditions and events, management has concluded that the Company will continue as a going concern.

**D. Loan-Backed Securities**

- (1) Description of Sources Used to Determine Prepayment Assumptions  
Loan-backed bonds and structured securities are valued at amortized cost using the constant interest rate method, and using an effective yield based on current prepayment assumptions obtained from Bloomberg, rather than anticipated prepayments at the date of purchase. Prepayment assumptions are reviewed periodically and updated in response to changes in market interest rates.
- (2) Other-Than-Temporary Impairments  
Not Applicable
- (3) Recognized OTTI Securities  
Not Applicable
- (4) All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

a) The aggregate amount of unrealized losses:	1. Less than 12 Months	\$ 476,803
	2. 12 Months or Longer	\$ -
b) The aggregate related fair value of securities with unrealized losses:	1. Less than 12 Months	\$ 33,843,714
	2. 12 Months or Longer	\$ -

- (5) Information Investor Considered in Reaching Conclusion that Impairments are Not Other-Than-Temporary  
All loan-backed and structured securities in an unrealized loss position were reviewed to determine whether other-than-temporary impairments should be recognized. The Company asserts that it has the intent and ability to hold these securities long enough to allow the cost basis of these securities to be recovered. These conclusions are supported by a detailed analysis of the underlying credit and cash flows of each security. Unrealized losses are primarily attributable to credit spread widening and increased liquidity discounts. It is possible that the Company could recognize other-than-temporary impairments in the future on some of the securities, if future events, information and the passage of time causes it to conclude that declines in value are other-than-temporary.

B. Assessments

(1) Nature of Any Assets That Could Have a Material Financial Effect

The Company is subject to guaranty fund and other assessments by the states in which it writes business. Insurance company insolvencies in states where the Company writes business may result in guaranty fund assessments on future premiums.

The Company has accrued a liability for guaranty fund and other assessments of \$156,568 and a related premium tax benefit asset of \$45,900.

The amount recorded represents management's best estimates based on information received from the states in which the company writes business. The liability is included in the taxes, licenses and fees liability and will be paid in the next year. The asset is included in the guaranty funds receivable asset and is expected to be realized over the five to ten years following payment.

At times, the Company has the ability to recover a portion of the accrued liability through policyholder surcharges. As of December 31, 2021, the asset related to policyholder surcharges, which appears within Page 2 line 25, is \$98,000.

The Company routinely assesses the collectability of these receivables. Based upon Company experience, any uncollectible premium receivables as of December 31, 2021 are not expected to exceed the nonadmitted amount totaling \$5,593,731, and therefore, no additional provision for uncollectible amounts has been recorded. The potential for any additional loss is not believed to be material to the Company's financial condition.

Lawsuits arise against the Company in the normal course of business. Contingent liabilities arising from litigation, income taxes and other matters are not considered material in relation to the financial position of the Company. The Company has no asset that is considered impaired.

**(2) Fair Value Measurements in (Level 3) of the Fair Value hierarchy**

The Company has no assets measured at fair value in the Level 3 category.

**(3) Policies when Transfers Between Levels are Recognized**

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred into or out of Level 3. The Company has no assets measured at fair value in the Level 3 category.

**(4) Description of Valuation Techniques and Inputs Used in Fair Value Measurement**

The valuation techniques required by the Fair Value Measurements guidance (SSAP 100R) are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect market assumptions.

These two types of inputs create the following fair value hierarchy:

Level 1 Quoted prices for identical instruments in active markets

Level 2 Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable

Level 3 Significant inputs to the valuation model are unobservable

The Company retains independent pricing vendors to assist in valuing invested assets when the prices are not available from the SVO.

When available, the Company uses quoted market prices to determine the fair value of investment securities, and they are included in Level 1.

When quoted market prices are unavailable, the Company uses quotes from independent pricing vendors based on recent trading activity and other relevant information, including market interest rate curves, referenced credit spreads and estimated prepayment rates, where applicable. These investments are included in Level 2 and are primarily comprised of fixed income securities which are NAIC rated 3 or below.

In infrequent circumstances, the pricing is not available from the pricing vendor and is based on significant unobservable inputs. In those circumstances, the investment security is classified in Level 3. There are no Level 3 investments at the reporting date.

E. NAV Practical Expedient Investments

The Company has no money market mutual funds at December 31, 2021.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 33 Asbestos/Environmental Reserves

A. Does the company have on the books, or has it ever written an insured for which you have identified a potential for the existence of a liability due to asbestos losses?

The Company has potential exposure involving asbestos, environmental impairment liability, and other types of tort-related claims, which applies only to the casualty and assumed reinsurance business now in runoff. Management has indicated that liabilities are recognized for known claims (including the cost of related litigation) when sufficient information has been developed to indicate the involvement of a specific insurance policy, and the Company's liabilities can be reasonably estimated. Additional reserves for such claims are established to cover further exposures on both known and unasserted claims based on facts currently known and the present state of the law and coverage litigation. The reserves for these types of claims are included in the foregoing loss and loss adjustment expense reserves and are subject to considerable uncertainty, due to the potential severity of the claims and the uncertain legal climate.
