NOTES TO FINANCIAL STATEMENTS

Note 1 – Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

Medical Malpractice Joint Underwriting Association of Rhode Island ("the MMJUA") is a joint underwriting association created by the state of Rhode Island. The MMJUA was originally created in accordance with RI Gen. Law 42-35-3 by the adoption of Regulation 230-RICR-20-10-1 (formerly Insurance Regulation 21) by the Department of Business Regulation (the "Department") effective June 16, 1975. Subsequently, legislation was enacted which authorized the Department to promulgate regulations relating to medical malpractice insurance and validated Regulation 230-RICR-20-10-1. It was the intent of the Department that the MMJUA provides a continuing stable facility for medical malpractice insurance. Under the original plan of operation (approved June 25, 1975) and as amended and approved by the department on November 10, 2003, the MMJUA was created to provide medical malpractice insurance for physicians, hospitals and other health care providers, on a self-supporting basis.

The accompanying financial statements of the MMJUA have been prepared in conformity with accounting practices prescribed or permitted by the Department. Prescribed accounting practices include state laws, regulations and general administrative rules applicable to insurance companies domiciled in the State of Rhode Island; National Association of Insurance Commissioners' ("NAIC") Annual Statement Instructions; the NAIC Accounting Practices and Procedures Manual; the Purposes and Procedures and Securities Valuation Manuals of the NAIC Securities Valuation Office; NAIC official proceedings; and the NAIC Examiner's and Market Conduct Handbooks. Permitted statutory accounting practices encompass all accounting practices not so prescribed.

The Department requires insurance companies domiciled in the State of Rhode Island to prepare their statutory financial statements in accordance with the NAIC Accounting Practices and Procedures Manual and subject to Rhode Island Department of Business Regulation Gen. Law 42-35-3.

B. Use of Estimates in the Preparation of the Financial Statement

The preparation of financial statements in accordance with statutory accounting practices requires management to make estimates and assumptions that affect the reported amounts of admitted assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

C. Accounting Policy

The Company uses the following accounting policies:

(1) Basis for Short-Term Investments

Short-term investments are stated at amortized cost.

(2) Basis for Bonds, Mandatory Convertible Securities, SVO-Identified Investments and Amortization Method

Bonds generally are stated at amortized cost, except for bonds that are rated by the NAIC as a class 3 - 6 which are reported at the lower of amortized cost or fair market value. Amortization is calculated using the scientific constant yield to worst method.

(3) Basis for Common Stocks

The MMJUA holds no investments in common stocks.

(4) Basis for Preferred Stocks

The MMJUA holds no investments in preferred stocks.

(5) Basis for Mortgage Loans

The MMJUA holds no investments in first lien mortgage loans on real estate.

(6) Basis for Loan-Backed Securities and Adjustment Methodology

(8) Accounting Policies for Investments in Joint Ventures, Partnerships and Limited Liability Entities

The reserves for unpaid losses and loss adjustment expenses are estimated using individual case basis valuations and statistical analyses. Those estimates are subject to the effects of trends in loss severity and frequency.

Note 20 – Fair Value Measurements

A. Fair Value Measurements

(1) Fair Value Measurements at Reporting Date

The Company has categorized its assets and liabilities that are measured at fair value into the three-level fair value hierarchy. The three-level fair value hierarchy is based on the degree of subjective inherent in the valuation method by which fair value was determined. The three levels are defined as follows.

Level 1- Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Association has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted process for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; or
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred between Levels 1 and 2. This policy also applies to transfers into or out of Level 3 as stated in paragraph 3 below.

(2) Fair Value Measurements in (Level 3) of the Fair Value Hierarchy

The Company has no assets or liabilities measured at fair value in the Level 3 category.

(3) Policies when Transfers Between Levels are Recognized

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred into or out of Level 3. During the current year, no transfers into or out of Level 3 were required.

(4) Description of Valuation Techniques and Inputs Used in Fair Value Measurement

The Company measures items at Level 2 on a recurring basis. The estimated fair values of some of these items were determined by independent pricing services using observable inputs. Others were based on quotes from markets which were not considered actively traded.
