1. Prepayments assumptions for Mortgage-Backed Securities, Collateralized Mortgage Obligations and Other Structured Securities were generated using a purchased prepayment model. The prepayment model uses a number of factors to estimate prepayment activity including the time of year (seasonality), current levels or interest rates (refinancing incentive), economic activity (including housing turnover) and term and age of the underlying collateral (burnout, seasoning).

2. 12 Months or Longer	\$	78,965

b. The aggregate related fair value of securities with unrealized losses:

1. Less than 12 Months	\$	7,936,300
2. 12 Months or Longer	\$	418,625

5. The Company routinely assesses whether declines in fair value of its investments represent impairments that are other than temporary. There are several factors that are considered in the assessment of a security, which include: (a) the time period during which there has been a significant decline below cost; (b) the extent of the decline below cost; (c) The Company's intent and ability to hold the security; (d) the potential for the security to recover in value; (e) an analysis of the financial condition of the issuer; and (f) an analysis of the collateral structure and credit support of the security, if applicable.

When the Company has determined that an other-than-temporary decline in the fair value of the security exists, the cost of the security is written down to its fair value and the unrealized loss at the time of the determination is charged to income through the recognition of a realized capital loss. There were no other than temporary charges recorded during the three months ended June 30, 2022.

A. COVID-19 Update

We are currently monitoring the short and long-term impacts of COVID-19. During 2022, we saw virtually no impact to our business. As a residential property insurer, we view our business as relatively insulated from a short-term economic slowdown, as property owners and renters generally view our products as a necessity. While we acknowledge uncertainties associated with the future economic conditions, we do not expect a material impact to our business going forward. We will continue to monitor economic conditions and in the case of a prolonged economic slowdown as a result of COVID-19, will take the necessary actions to mitigate any negative impacts to our business, operations or financial results.
