#### 1. Summary of Significant Accounting Practices

#### A. Accounting Practices

The accompanying financial statements of Pawtucket Insurance Company (the "Company") are presented on the basis of accounting practices prescribed or permitted by the Rhode Island Insurance Department.

The Rhode Island Insurance Department recognizes only statutory accounting practices prescribed or permitted by the State of Rhode Island for determining and reporting financial condition and results of operations of an insurance company, and for determining its solvency under the Rhode Island Insurance Law. The National Association of Insurance Commissioners' ("NAIC") *Accounting Practices and Procedures Manual*, ("NAIC SAP"), has been adopted as a component of prescribed or permitted practices by the State of Rhode Island.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and the practice permitted by the Rhode Island Department is shown below:

    - 4. All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss: N/A
    - 5. The Company routinely assesses whether declines in fair value of its investments represent impairments that are other than temporary. There are several factors that are considered in the assessment of a security, which include: (a)

the time period during which there has been a significant decline below cost; (b) the extent of the decline below cost; (c) The Company's intent and ability to hold the security; (d) the potential for the security to recover in value; (e) an analysis of the financial condition of the issuer; and (f) an analysis of the collateral structure and credit support of the security, if applicable.

When the Company has determined that an other-than-temporary decline in the fair value of the security exists, the cost of the security is written down to its fair value and the unrealized loss at the time of the determination is charged to income through the recognition of a realized capital loss. There were no other than temporary charges recorded during the three months ended March 31, 2023.
