Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying financial statements of the Amica Property and Casualty Insurance Company (the Company) have been prepared on the basis of accounting practices prescribed or permitted by the State of Rhode Island.

The State of Rhode Island requires insurance companies domiciled in the State of Rhode Island to prepare their statutory financial statements in accordance with the National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures Manual* subject to any deviations prescribed or permitted by the state of Rhode Island Department of Business Regulation Insurance Division. The Company has no state basis statement adjustments to report.

A reconciliation of the Company's net income and capital and surplus between NAIC statutory accounting practices (NAIC SAP) and practices prescribed and permitted by the State of Rhode Island as of December 31, 2024 and December 31, 2023 is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. It also requires estimates in the disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

C. Accounting Policy

Premiums are earned over the terms of the related policies and reinsurance contracts. Unearned premiums are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business. Expenses incurred in connection with acquiring new insurance business, including acquisition costs, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments are stated at cost.
- (2) Bonds not backed by other loans are stated at amortized value using the scientific method, or fair value as specified by the SVO Manual.
- (3) The Company does not hold common stock.
- (4) The Company does not hold preferred stock.
- (5) First lien mortgage loans on real estate are reported at the unpaid principal of the loan.
- (6) Loan-backed bonds and structured securities are valued at amortized cost using the retrospective method (or a method which approximates the retrospective method).
- (7) The Company does not have an interest in any subsidiaries.
- (8) The Company has no investments in joint ventures, partnerships, and limited liability corporations.
- (9) The Company does not hold or issue derivative financial instruments.
- (10) The Company does not anticipate investment income as a factor in premium deficiency calculations.
- (11) Unpaid losses and loss adjustment expenses will include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.
- (12) All equipment expenses are allocated to the Company through its cost-sharing agreement with its parent company, Amica Mutual Insurance Company. The capitalization policy includes a prepaid expense threshold of \$500,000, capitalization of qualifying expenses associated with projects in excess of \$500,000, and capitalization of internal labor costs on strategic projects to the extent they qualify. The policy maintains the \$5,000 de minimis limitation on capitalizing individual items for projects under \$500,000.
- (13) The Company has no pharmaceutical rebate receivables.
- (14) The Company presents net realized capital gains or (losses) net of capital gains tax on the statement of income.
- (15) When the commission received under a reinsurance agreement exceeds the anticipated acquisition costs of the business ceded, the Company establishes a liability equal to the difference between the anticipated acquisition costs and the reinsurance commission received.

Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern (Continued)

D. Going Concern

Management’s review of relevant conditions and events, considered in the aggregate, indicate that it is probable that the Company will be able to meet its obligations as they become due within one year after the date that the financial statements are issued.

2. Accounting Changes and Corrections of Errors

Effective December 31, 2023, the Company changed its loss reserving methodology to record loss reserves net of anticipated salvage and subrogation recoveries, in accordance with SSAP No. 55 Unpaid Claims, Losses and Loss Adjustment Expenses. Historically, the Company had recorded loss reserves gross of anticipated salvage and subrogation recoveries, but as our systems and estimates have improved, the Company chose to revise the loss reserve process by recording these estimated recoveries on a net basis through incurred but not reported (IBNR) reserves. The Company handled this change in 2023 as a change in accounting principle in accordance with SSAP No. 3 Accounting Changes and Corrections of Errors. In accordance with the quota-share reinsurance agreement with the Company’s parent – Amica Mutual Insurance Company (“Amica Mutual”) – all direct premiums, losses and loss adjustment expenses of the Company are 100% ceded to Amica Mutual. Therefore, there was no net impact to the Company’s financial statements resulting from this change in accounting principle. On a direct basis, the impact related to the Company in 2023 was \$3,720,615 and \$236,710 for the cumulative effect on prior year reserves and the current year development of anticipated salvage and subrogation recoveries, respectively. As of December 31, 2024, the amount of anticipated salvage and subrogation netted against direct and ceded IBNR loss reserves was \$4,153,976.

D. Loan-Backed Securities

- (1) For fixed-rate agency mortgage-backed securities, Clearwater Analytics calculates prepayment speeds utilizing Mortgage Industry Advisory Corporation (MIAC) Mortgage Industry Medians (MIMs). MIMs are derived from a semi-monthly dealer-consensus survey of long-term prepayment projections. For other mortgage-backed, loan-backed, and structured securities, Clearwater utilizes prepayment assumptions from Moody's Analytics. Moody's applies a flat economic credit model and utilizes a vector of multiple monthly speeds as opposed to a single speed for more robust projections. In instances where Moody's projections are not available, Clearwater uses data from Reuters, which utilizes the median prepayment speed from contributors' models.
- (2) Loan-backed and structured securities with a recognized other-than-temporary impairment (OTTI) - None
- (3) Securities held that were other-than-temporarily impaired due to the present value of cash flows expected to be collected was less than the amortized cost of securities - None
- (4) All impaired securities for which an OTTI has not been recognized in earnings as a realized loss

All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

a. The aggregate amount of unrealized losses:	
1. Less than 12 months	\$ 214,719
2. 12 months or longer	1,693,021
b. The aggregate related fair value of securities with unrealized losses:	
1. Less than 12 months	\$ 8,353,660
2. 12 months or longer	12,345,670

- (5) All loan-backed and structured securities in an unrealized loss position were reviewed to determine whether other-than-temporary impairments should be recognized. The Company asserts that it has the intent and ability to hold these securities long enough to allow the cost basis of these securities to be recovered. These conclusions are supported by an analysis of the underlying credit of each security. Unrealized losses are primarily attributable to higher interest rates and modestly wider spread levels. It is possible that the Company could recognize other-than-temporary impairments in the future on some of the securities, if future events, information and the passage of time cause it to conclude that declines in the value are other-than-temporary.

A. Fair Value Measurement

(1) Fair value at reporting date

The Company's valuation techniques are based on observable and unobservable pricing inputs. Observable inputs reflect market data obtained from independent sources based on trades of securities, while unobservable inputs reflect the Company's market assumptions. These inputs comprise the following fair value hierarchy:

Level 1 – Observable inputs in the form of quoted prices for identical instruments in active markets.

Level 2 – Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active or other inputs that are observable or can be derived from observable market data for substantially the full term of the assets or liabilities.

Level 3 – One or more unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets and liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using internal models, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

Description for each class of asset or liability	Level 1	Level 2	Level 3	Net Asset Value (NAV)	Total
