A. Accounting Practices

The accompanying financial statements of Appalachian Insurance Company ("Company") have been prepared on the basis of accounting practices prescribed or permitted by the Rhode Island Division of Insurance.

The state of Rhode Island requires insurance companies domiciled in the state of Rhode Island to prepare their statutory financial statements in accordance with the National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures Manual subject to any deviations prescribed or permitted by the Rhode Island Division of Insurance. B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Actual results could differ from these estimates.

C. Accounting Policy

Premium earned consists solely of premium assumed pursuant to an intercompany pooling agreement. Refer to footnote 26.

Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

Net investment income earned consists primarily of interest and dividends less investment related expenses. Interest is recognized on an accrual basis and dividends are recognized on an ex-dividend basis. Net realized capital gains (losses) are recognized on a specific identification basis when securities are sold, redeemed or otherwise disposed. Realized capital losses include writedowns for impairments considered to be other than temporary.

In addition, the Company utilizes the following accounting policies:

- (1)

Basis for Short-Term Investments

The Company has no short-term Investments.
- (2)

Basis for Bonds and Amortization Method

Non loan-backed bonds with NAIC designations 1 or 2 are stated at amortized cost using the interest method. Non loan-backed bonds with NAIC designations of 3 through 6 are stated at the lower of amortized value or fair value. See paragraph 6 for loan-backed and structured securities.
- (3)

Basis for Common Stocks

The Company has no common stock.
- (4)

Basis for Preferred Stocks

Preferred stocks are stated at cost.
- (5)

Basis for Mortgage Loans

The Company has no mortgage loans.
- (6)

Basis for Loan-Backed Securities and Adjustment Methodology

U.S. government agency loan-backed and structured securities are valued at amortized value. Other loan-backed and structured securities are valued at either amortized value or fair value, depending on many factors including: type of underlying collateral, whether modeled by NAIC vendor, whether rated (by either NAIC approved rating organization or NAIC Securities Valuation Office), and relationship of amortized value to par value and amortized value to fair value.
- (7)

Accounting Policies for Investments in Subsidiaries, Controlled and Affiliated Entities

The Company owns 25,000 shares of the 7% cumulative preferred stock (\$100 par value) outstanding of Affiliated FM Insurance Company (NAIC #10014), which is also fully owned by FMIC Holdings, Inc. The preferred stock is stated at cost.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 Summary of Significant Accounting Policies and Going Concern (continued from preceding page)

- (8)

Accounting Policies for Investments in Joint Ventures, Partnerships and Limited Liability Entities

The Company has no investments in joint ventures, partnerships and limited liability corporations.
- (9)

Accounting Policies for Derivatives

The Company has no derivatives.
- (10)

Anticipated Investment Income Used in Premium Deficiency Calculation

The Company does not currently have open insurance contracts and therefore does not assess the need for a premium deficiency reserve.
- (11)

Management's Policies and Methodologies for Estimating Liabilities for Losses and Loss/Claim Adjustment Expenses

Liabilities for unpaid losses and loss adjustment expenses (including Asbestos and Environmental reserves) are based on case estimates or reports from ceding companies. Estimates of incurred-but-not-reported (IBNR) reserves are based on historical experience and management analysis. Although the above-described amounts are based on estimates, management believes recorded liabilities for unpaid losses and loss adjustment expenses are reasonable to cover the ultimate settlement cost of losses incurred. These estimates are continually reviewed and adjustments to such estimates are reflected in current operations.
- (12)

Changes in the Capitalization Policy and Predefined Thresholds from Prior Period

The Company has not changed its capitalization policy from the prior period.
- (13)

Method Used to Estimate Pharmaceutical Rebate Receivables

The Company has no "pharmaceutical rebate receivables."

Description of Sources Used to Determine Prepayment Assumptions

Loan-backed bonds and structured securities are valued at amortized cost using the constant interest rate method, and using an effective yield based on current prepayment assumptions obtained from Bloomberg, rather than anticipated prepayments at the date of purchase. Prepayment assumptions are reviewed periodically and updated in response to changes in market interest rates.

NOTES TO FINANCIAL STATEMENTS

NOTE 5 Investments (continued from preceding page)

- (5) Information Investor Considered in Reaching Conclusion that Impairments are Not Other-Than-Temporary
- All loan-backed and structured securities in an unrealized loss position were reviewed to determine whether other-than-temporary impairments should be recognized. The Company asserts that it has the intent and ability to hold these securities long enough to allow the cost basis of these securities to be recovered. These conclusions are supported by a detailed analysis of the underlying credit and cash flows of each security. Unrealized losses are primarily attributable to credit spread widening and increased liquidity discounts. It is possible that the Company could recognize other-than-temporary impairments in the future on some of the securities, if future events, information and the passage of time causes it to conclude that declines in value are other-than temporary.

NOTE 20 Fair Value Measurements

A. Fair Value Measurements

(1) Fair Value Measurements at Reporting Date

The Company categorizes its invested assets that are measured at fair value into the three-level fair value hierarchy or designates certain invested assets as carried at net asset value (NAV). Item 4 provides a discussion of each of these categories.

Description for each class of asset or liability	(Level 1)	(Level 2)	(Level 3)	Net Asset Value (NAV)	Total
a. Assets at fair value					
Bonds	\$ -	\$ 240,270	\$ -	\$ -	\$ 240,270
Total assets at fair value/NAV	\$ -	\$ 240,270	\$ -	\$ -	\$ 240,270

Description for each class of asset or liability	(Level 1)	(Level 2)	(Level 3)	Net Asset Value (NAV)	Total
b. Liabilities at fair value	\$ -	\$ -	\$ -	\$ -	\$ -
Total liabilities at fair value	\$ -	\$ -	\$ -	\$ -	\$ -

(2) Fair Value Measurements in (Level 3) of the Fair Value hierarchy

The Company has no assets measured at fair value in the Level 3 category.

(3) Policies when Transfers Between Levels are Recognized

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred into or out of Level 3. The Company has no assets measured at fair value in the Level 3 category.

(4) Description of Valuation Techniques and Inputs Used in Fair Value Measurement

The valuation techniques required by the Fair Value Measurements guidance (SSAP 100R) are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect market assumptions.

These two types of inputs create the following fair value hierarchy:

- Level 1Quoted prices for identical instruments in active markets.
- Level 2Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.
- Level 3Significant inputs to the valuation model are unobservable.

The Company retains independent pricing vendors to assist in valuing invested assets when the prices are not available from the SVO.

When available, the Company uses quoted market prices to determine the fair value of investment securities, and they are included in Level 1.

When quoted market prices are unavailable, the Company uses quotes from independent pricing vendors based on recent trading activity and other relevant information, including market interest rate curves, referenced credit spreads and estimated prepayment rates, where applicable. These investments are included in Level 2 and are primarily comprised of fixed income securities which are NAIC rated 3 or below.

In infrequent circumstances, the pricing is not available from the pricing vendor and is based on significant unobservable inputs. In those circumstances, the investment security is classified in Level 3. There are no Level 3 investments at the reporting date.

(5) Derivative Fair Value Disclosures

Not Applicable.

B. Other Fair Value Disclosures

Not Applicable.

C. Aggregate fair value for all financial instruments and the level within the fair value hierarchy in which the fair value measurements in their entirety fall.

D. Not Practicable to Estimate Fair Value

Not Applicable.

E. NAV Practical Expedient Investments

The Company elects to use NAV for all money market mutual funds in lieu of fair value as NAV is more readily available. These funds are backed by high quality, very liquid short-term instruments and the probability is remote that the funds would be sold for a value other than NAV. The Company has no money market mutual funds at December 31, 2024.

NOTE 33 Asbestos/Environmental Reserves

A. Does the company have on the books, or has it ever written an insured for which you have identified a potential for the existence of a liability due to asbestos losses?

The Company has potential exposure involving asbestos, environmental impairment liability, and other types of tort-related claims, which applies only to the casualty and assumed reinsurance business now in runoff. Management has indicated that liabilities are recognized for known claims (including the cost of related litigation) when sufficient information has been developed to indicate the involvement of a specific insurance policy, and the Company's liabilities can be reasonably estimated. Additional reserves for such claims are established to cover further exposures on both known and unasserted claims based on facts currently known and the present state of the law and coverage litigation. The reserves for these types of claims are included in the foregoing loss and loss adjustment expense reserves and are subject to considerable uncertainty, due to the potential severity of the claims and the uncertain legal climate.

D. Does the company have on the books, or has it ever written an insured for which you have identified a potential for the existence of a liability due to environmental losses?

The Company has potential exposure involving asbestos, environmental impairment liability, and other types of tort-related claims, which applies only to the casualty and assumed reinsurance business now in runoff. Management has indicated that liabilities are recognized for known claims (including the cost of related litigation) when sufficient information has been developed to indicate the involvement of a specific insurance policy, and the Company's liabilities can be reasonably estimated. Additional reserves for such claims are established to cover further exposures on both known and unasserted claims based on facts currently known and the present state of the law and coverage litigation. The reserves for these types of claims are included in the foregoing loss and loss adjustment expense reserves and are subject to considerable uncertainty, due to the potential severity of the claims and the uncertain legal climate.

GENERAL INTERROGATORIES

PART 2 - PROPERTY AND CASUALTY INTERROGATORIES

6.1

What provision has this reporting entity made to protect itself from an excessive loss in the event of a catastrophe under a workers' compensation contract issued without limit of loss?
The Company does not issue Workers' Compensation contracts.

6.2

Describe the method used to estimate this reporting entity's probable maximum insurance loss, and identify the type of insured exposures comprising that probable maximum loss, the locations of concentrations of those exposures and the external resources (such as consulting firms or computer software models), if any, used in the estimation process:
The Company uses the AIR Touchstone 10.0 software to model our catastrophe exposure in hurricane and earthquake prone areas where we have concentrations of business, except for Puerto Rico hurricane, where Touchstone 7.0 is used.

6.3

What provision has this reporting entity made (such as a catastrophic reinsurance program) to protect itself from an excessive loss arising from the types and concentrations of insured exposures comprising its probable maximum property insurance loss?
In addition to controlling the Company's exposure by loss prevention engineering, deductibles, and limits of liability, we purchase risk and catastrophe reinsurance.

6.4

Does the reporting entity carry catastrophe reinsurance protection for at least one reinstatement, in an amount sufficient to cover its estimated probable maximum loss attributable to a single loss event or occurrence?

Yes ☐ No ☒

6.5

If no, describe any arrangements or mechanisms employed by the reporting entity to supplement its catastrophe reinsurance program or to hedge its exposure to uninsured catastrophic loss
There are certain parts of the Company's catastrophe program in the high excess layers for which a reinstatement clause is not applicable. These parts of the program cover events that management considered and evaluated as less likely to occur, and given the Company's strong surplus position and its ability to purchase additional reinsurance if an event occurs, it was determined that a reinstatement clause is not required for those parts of the program.
Additionally, the primary layers of the per risk and catastrophe programs include placements made with collateralized reinsurance companies. These companies do not provide reinstatement limits. The Company's strong surplus position and ability to purchase additional reinsurance have led management to conclude that collateralized reinsurance is appropriate in these primary layers.

7.1

Has this reporting entity reinsured any risk with any other entity under a quota share reinsurance contract that includes a provision that would limit the reinsurer's losses below the stated quota share percentage (e.g., a deductible, a loss ratio corridor, a loss cap, an aggregate limit or any similar provisions)?

Yes ☐ No ☒

7.2

If yes, indicate the number of reinsurance contracts containing such provisions.

0

7.3

If yes, does the amount of reinsurance credit taken reflect the reduction in quota share coverage caused by any applicable limiting provision(s)?

Yes ☐ No ☐

8.1

Has this reporting entity reinsured any risk with any other entity and agreed to release such entity from liability, in whole or in part, from any loss that may occur on this risk, or portion thereof, reinsured?

Yes ☐ No ☒

8.2

If yes, give full information

9.1

Has the reporting entity ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates) for which during the period covered by the statement: (i) it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; (ii) it accounted for that contract as reinsurance and not as a deposit; and (iii) the contract(s) contain one or more of the following features or other features that would have similar results:
(a) A contract term longer than two years and the contract is noncancellable by the reporting entity during the contract term;
(b) A limited or conditional cancellation provision under which cancellation triggers an obligation by the reporting entity, or an affiliate of the reporting entity, to enter into a new reinsurance contract with the reinsurer, or an affiliate of the reinsurer;
(c) Aggregate stop loss reinsurance coverage;
(d) A unilateral right by either party (or both parties) to commute the reinsurance contract, whether conditional or not, except for such provisions which are only triggered by a decline in the credit status of the other party;
(e) A provision permitting reporting of losses, or payment of losses, less frequently than on a quarterly basis (unless there is no activity during the period); or
(f) Payment schedule, accumulating retentions from multiple years or any features inherently designed to delay timing of the reimbursement to the ceding entity.

Yes ☐ No ☒

9.2

Has the reporting entity during the period covered by the statement ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates), for which, during the period covered by the statement, it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; excluding cessions to approved pooling arrangements or to captive insurance companies that are directly or indirectly controlling, controlled by, or under common control with (i) one or more unaffiliated policyholders of the reporting entity, or (ii) an association of which one or more unaffiliated policyholders of the reporting entity is a member where:
(a) The written premium ceded to the reinsurer by the reporting entity or its affiliates represents fifty percent (50%) or more of the entire direct and assumed premium written by the reinsurer based on its most recently available financial statement; or
(b) Twenty-five percent (25%) or more of the written premium ceded to the reinsurer has been retroceded back to the reporting entity or its affiliates in a separate reinsurance contract.

Yes ☐ No ☒

9.3

(c) A brief discussion of management's principle objectives in entering into the reinsurance contract including the economic purpose to be achieved.

9.4

(a) Accounted for that contract as reinsurance (either prospective or retroactive) under statutory accounting principles ("SAP") and as a deposit under generally accepted accounting principles ("GAAP"); or
(b) Accounted for that contract as reinsurance under GAAP and as a deposit under SAP?

Yes ☐ No ☒

9.5

If yes to 9.4, explain in the Reinsurance Summary Supplemental Filing for General Interrogatory 9 (Section D) why the contract(s) is treated differently for GAAP and SAP.

9.6

The reporting entity is exempt from the Reinsurance Attestation Supplement under one or more of the following criteria:
(a) The entity does not utilize reinsurance; or,
(b) The entity only engages in a 100% quota share contract with an affiliate and the affiliated or lead company has filed an attestation supplement; or
(c) The entity has no external cessions and only participates in an intercompany pool and the affiliated or lead company has filed an attestation supplement.

Yes ☐ No ☒
Yes ☐ No ☒

10.

Yes ☒ No ☐ N/A ☐
