1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying financial statements of Ascot Specialty Insurance Company (the "Company") have been prepared in conformity with accounting practices prescribed or permitted by the National Association of Insurance Commissioners ("NAIC") and the State of Rhode Island. The Company prepares its statutory financial statements in conformity with accounting practices prescribed or permitted by the State of Rhode Island. The State of Rhode Island requires insurance companies domiciled in the state of Rhode Island to prepare their statutory financial statements in accordance with the NAIC's Accounting Practices and Procedures Manual subject to any deviations prescribed or permitted by the State of Rhode Island Department of Business Regulation Insurance Division (the "Department"). The Company has no differences between accounting practices prescribed or permitted by the State of Rhode Island and the NAIC.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with NAIC SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of contingent revenues and expenses during the period, if any. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct and ceded business. Insurance Premiums billed and outstanding for 90 days or more from policy effective date are classified as non-admitted assets, charged against unassigned funds (surplus).

Expenses incurred in connection with acquiring new insurance business, including commissions, are charged to operations, as incurred. Expenses incurred are reduced for ceding allowances received or receivable to the extent such amounts do not exceed the costs incurred to acquire the related business. Excess ceding allowances are recorded as unearned income to be recognized as the related premiums are earned.

Net investment income consists primarily of interest income less investment related expense. Interest income is recognized on an accrual basis. Net realized capital gains (losses) are recognized on a specific identification basis when securities are sold, redeemed or otherwise disposed. Realized capital losses include write-downs for impairments considered to be other than temporary (OTTI). In addition, the Company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost, which approximates fair value.
- (2) Investment grade non-loan backed bonds are stated at amortized cost or fair value using the scientific interest method. The Company has no non-investment grade bonds with NAIC designations of 3 through 6.
- (3) The Company does not have common stock.
- (4) The Company does not have preferred stock.
- (5) The Company does not have mortgage loans.
- (6) The Company loan-backed securities are stated at book value and the adjustment methodology used for each type is retrospective.
- (7) The Company does not have any investments in subsidiary.
- (8) The Company does not have any interests in joint ventures, partnerships or limited liability companies.
- (9) The Company does not have any derivative instruments.
- (10) The Company does not anticipate investment income as a factor in any premium deficiency calculation.
- (11) Loss and loss adjustment expenses are charged to expense as incurred. The reserve for unpaid loss and loss adjustment expenses is based upon claim adjusters' evaluations and other actuarial estimates, including those for incurred but not reported losses (IBNR) and for reinsurance. Overall reserve levels are impacted primarily by the types and amounts of insurance coverage written, trends developing from newly reported claims and claims that have been paid and closed. The determination of estimates for losses and loss expenses and the establishment of the related reserves are periodically reviewed and updated during the year. Adjustments are made to reserves in the period that can be reasonably estimated to reflect evolving changes in loss development patterns and various other factors, such as social and economic trends and judicial interpretation of legal liability. While management believes that the amount carried as reserves for unpaid loss and loss adjustment expense is adequate, the ultimate liability may be in excess of or less than the amount provided.
- (12) The capitalization policy and resultant predefined thresholds have not changed from prior year. The Company has no capitalized assets.
- (13) The Company does not have any pharmaceutical rebate receivables.

D. Going Concern

Based upon its evaluation of relevant conditions and events, including participation in the Net Worth Maintenance Agreement discussed in footnote 10.E, management does not have substantial doubt about the Company's ability to continue as a going concern.

- D. On March 27, 2024, the Company loaned \$3,000,000 in cash to an affiliate, Ascot US Services Company LLC ("AUSC") through an Intercompany Revolving Loan Agreement effective March 15, 2024. Under the agreement, AUSC may borrow an amount not to exceed \$15,000,000. This agreement was approved by the Rhode Island Department of Business Regulation, Insurance Division, with terms that represent an arms-length transaction. The unpaid principal balance is recorded as an "other invested asset" in Schedule BA with transactions reported as admitted assets and in accordance with SSAP No. 25 "Accounting for and Disclosures about Transactions with Affiliates and Other Related Parties." For the period ended December 31, 2024, interest earned on the loan was \$160,390.

At December 31, 2024, the Company reported \$4,660,790 due from its affiliate AIC, and \$8,315,041 due to other affiliates. These amounts represent arms-length transactions and are recorded as admitted assets and liabilities, respectively in accordance with SSAP No. 25 "Accounting for and Disclosures about Transactions with Affiliates and Other Related Parties."

E. The Company is a party to an Intercompany Services and Cost Allocation Agreement ("Services Agreement") with its affiliate, Ascot US Services Company LLC ("AUSC"). Under this agreement, the Company incurs and pays for shared costs, primarily overhead allocations of operating expenses. Additionally, the Company is a party to an Underwriting Services Agreement with its affiliate, Ascot Underwriting Inc. ("AUI").

The Company has a "Net Worth Maintenance Agreement" with its ultimate parent Ascot Group Limited (AGL). This agreement states AGL agrees to cause the Company to maintain capital equivalent to at least 350% of authorized control level RBC at all times and if they were to fall below it, AGL will contribute liquid assets to ensure the Company has the ability to meet its financial obligations on a timely basis.

20. Fair Value Measurements

A. Fair Value Measurement

SSAP 100 establishes a fair value hierarchy which prioritizes and ranks the level of market price observability used in measuring investments at fair value. Market price observability is impacted by a number of factors, including the type of investment, the characteristics specific to the investment, and the state of the marketplace (including the existence and transparency of transactions between market participants). Investments with readily-available actively quoted prices or for which fair value can be measured from actively-quoted prices in an orderly market will generally have a higher degree of market price observability and a lesser degree of judgment used in measuring fair value.

Investments disclosed at fair value are classified and disclosed in one of the following categories based on inputs:

- Level 1 Fair value measurements that are quoted prices (unadjusted) in active markets that the Company has the ability to access for identical assets or liabilities. Market price data generally is obtained from exchange or dealer markets. The Company does not adjust the quoted price for such instruments.
- Level 2 Fair value measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset, either
 directly or indirectly. Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in
 markets that are not active, and inputs other than quoted prices that are observable for the asset, such as interest rates and yield curves that
 are observable at commonly quoted intervals.
- Level 3 Fair value measurements based on valuation techniques that use significant inputs that are unobservable. In certain cases, the
 inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the determination of which
 category within the fair value hierarchy is appropriate for any given investment is based on the lowest level of input that is significant to the
 fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety
 requires judgment, and considers factors specific to the investment.

The Company carries no assets or liabilities on its balance sheet measured at fair value.

GENERAL INTERROGATORIES

6.1	What provision has this reporting entity made to protect itself from an excessive loss in the event of a catastrophe under a workers' compensation contract issued without limit of loss? N/A – No worker's compensation policies issued					
6.2	Describe the method used to estimate this reporting entity's probable maximum insurance loss, and identify the type of insured exposures comprising that probable maximum loss, the locations of concentrations of those exposures and the external resources (such as consulting firms or computer software models), if any, used in the estimation process: The Company writes some catastrophe exposed business via binder business which is the basis for Its probable maximum insurance loss. Exposure is diversified countrywide with exposure concentrations associated with California and Pacific Northwest Earthquake exposures. To estimate PML, the Company licenses and uses one of the most well established third party catastrophe models and supplements this with a proprietary exposure driven tool to manage aggregate limits deployed. For liability concentrations we utilize a suite of over 30 realistic disaster scenarios to measure and manage clash exposure across the company and group. For cyber risk, we leverage both third party vendor models as well as RDSs to measure and manage our aggregate position for cyber tail risk.					
6.3	What provision has this reporting entity made (such as a catastrophic reinsurance program) to protect itself from an excessive loss arising from the types and concentrations of insured exposures comprising its probable maximum property insurance loss? The Company mitigates its risk of a property catastrophe loss through purchase of both quota share and per occurrence XOL reinsurance covering its inland marine and cargo portfolios.					
6.4	Does the reporting entity carry catastrophe reinsurance protection for at least one reinstatement, in an amount sufficient to cover its estimated probable maximum loss attributable to a single loss event or occurrence?	Yes	[X] [No []
6.5	If no, describe any arrangements or mechanisms employed by the reporting entity to supplement its catastrophe reinsurance program or to hedge its exposure to unreinsured catastrophic loss					
7.1	Has this reporting entity reinsured any risk with any other entity under a quota share reinsurance contract that includes a provision that would limit the reinsurer's losses below the stated quota share percentage (e.g., a deductible, a loss ratio corridor, a loss cap, an aggregate limit or any similar provisions)?	Yes	[X] [No []
7.2	If yes, indicate the number of reinsurance contracts containing such provisions.					18
7.3	If yes, does the amount of reinsurance credit taken reflect the reduction in quota share coverage caused by any applicable limiting provision(s)?	Yes	[X] [No []
8.1	Has this reporting entity reinsured any risk with any other entity and agreed to release such entity from liability, in whole or in part, from any loss that may occur on this risk, or portion thereof, reinsured?	Yes	[] [No [Х]
8.2	If yes, give full information					
9.1	Has the reporting entity ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates) for which during the period covered by the statement: (i) it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; (ii) it accounted for that contract as reinsurance and not as a deposit; and (iii) the contract(s) contain one or more of the following features or other features that would have similar results: (a) A contract term longer than two years and the contract is noncancellable by the reporting entity during the contract term; (b) A limited or conditional cancellation provision under which cancellation triggers an obligation by the reporting entity, or an affiliate of the reporting entity, to enter into a new reinsurance contract with the reinsurer, or an affiliate of the reinsurer; (c) Aggregate stop loss reinsurance coverage; (d) A unilateral right by either party (or both parties) to commute the reinsurance contract, whether conditional or not, except for such provisions which are only triggered by a decline in the credit status of the other party; (e) A provision permitting reporting of losses, or payment of losses, less frequently than on a quarterly basis (unless there is no activity during the period); or (f) Payment schedule, accumulating retentions from multiple years or any features inherently designed to delay timing of the reimbursement to the ceding entity.
