ANNUAL STATEMENT FOR THE YEAR 2024 OF THE FACTORY MUTUAL INSURANCE COMPANY

NOTES TO FINANCIAL STATEMENTS

NOTE 1 Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying financial statements of Factory Mutual Insurance Company ("Company") have been prepared on the basis of accounting practices prescribed or permitted by the Rhode Island Division of Insurance.

The state of Rhode Island requires insurance companies domiciled in the state of Rhode Island to prepare their statutory financial statements in accordance with the National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures Manual subject to any deviations prescribed or permitted by the Rhode Island Division of Insurance. The Company has no state prescribed or permitted practices.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses. Actual results could differ from those estimates.

C. Accounting Policy

Premium is earned over the terms of the related policies and reinsurance contracts. Unearned Premium is established to cover the unexpired portion of premium written. Such reserves are computed by pro rata methods for direct, assumed and ceded business.

Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

Net investment income earned consists primarily of interest, dividends and rent income less investment related expenses. Interest is recognized on an accrual basis and dividends are recognized on an ex-dividend basis. Net realized capital gains (losses) are recognized on a specific identification basis when securities are sold, redeemed or otherwise disposed. Realized capital losses include writedowns for impairments considered to be other than temporary.

In addition, the Company utilizes the following accounting policies:

- (1) Basis for Short-Term Investments
- Short-term debt securities are stated at amortized cost using the interest method.
- (2) Basis for Bonds and Amortization Method
- Non loan-backed bonds with NAIC designations 1 or 2 are stated at amortized cost using the interest method. Non loan-backed bonds with NAIC designations of 3 through 6 are stated at the lower of amortized value or fair value. See paragraph 6 for loan-backed and structured securities.
- (3) Basis for Common Stocks
- Common stocks, except investments in stocks of subsidiaries, are stated at fair value.
- (4) Basis for Preferred Stocks
- Perpetual preferred stocks are carried at fair value.
- (5) Basis for Mortgage Loans
- Mortgage loans are carried at book value/recorded investment value.
- (6) Basis for Loan-Backed Securities and Adjustment Methodology
- U.S. government agency loan-backed and structured securities are valued at amortized value. Other loan-backed and structured securities are valued at either amortized value or fair value, depending on many factors including: the type of underlying collateral, whether modeled by NAIC vendor, whether rated (by either NAIC approved rating organization or NAIC Securities Valuation Office), and relationship of amortized value to par value and amortized value to fair value.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 Summary of Significant Accounting Policies and Going Concern (continued from preceding page)

- (7)

Accounting Policies for Investments in Subsidiaries, Controlled and Affiliated Entities

U.S. insurance subsidiaries (Affiliated FM Insurance Company, NAIC #10014, and Appalachian Insurance Company, NAIC #10316) are stated at statutory equity value in accordance with SSAP 97 paragraph 8(b)i. Foreign insurance companies (FM Insurance Europe S.A., and Risk Engineering Insurance Company Limited) are stated at the audited foreign basis equity converted to U.S statutory equity value in accordance with SSAP 97 paragraph 8(b)iv. Non-insurance subsidiaries (FMRE Holdings LLC) are stated at audited GAAP equity in accordance with SSAP 97 paragraph 8(b)iii.
- (8)

Accounting Policies for Investments in Joint Ventures, Partnerships and Limited Liability Entities

Investments in joint ventures, partnerships and limited liability corporations are stated at the underlying audited GAAP equity value.
- (9)

Accounting Policies for Derivatives

The Company began to use derivatives during 2022 with the intent to manage certain economic risks inherent to the investment portfolios. The positions are marked to fair value at the end of each reporting period and the related unrealized gain or loss is included in net unrealized capital gain or loss in policyholder's surplus. The fair value of derivative assets is reported on line 7 of the Statement of Assets.
- (10)

Anticipated Investment Income Used in Premium Deficiency Calculation

The Company anticipates investment income when evaluating the need for premium deficiency reserves.
- (11)

Management's Policies and Methodologies for Estimating Liabilities for Losses and Loss/Claim Adjustment Expenses

Liabilities for unpaid losses and loss adjustment expenses (including Asbestos and Environmental reserves) are based on case estimates or reports from ceding companies. Estimates of incurred-but-not-reported (IBNR) reserves are based on historical experience and management analysis. Although the above-described amounts are based on estimates, management believes recorded liabilities for unpaid losses and loss adjustment expenses are reasonable to cover the ultimate settlement cost of losses incurred. These estimates are continually reviewed and adjustments to such estimates are reflected in current operations.
- (12)

Changes in the Capitalization Policy and Predefined Thresholds from Prior Period

The Company has not changed its capitalization policy from the prior period.
- (13)

Method Used to Estimate Pharmaceutical Rebate Receivables

The Company has no "pharmaceutical rebate receivables".

D. Going Concern

Based upon its evaluation of relevant conditions and events, management has concluded that the Company will continue as a going concern.

NOTES TO FINANCIAL STATEMENTS

NOTE 5 Investments (continued from preceding page)

(5) Information Investor Considered in Reaching Conclusion that Impairments are Not Other-Than-Temporary

All loan-backed and structured securities in an unrealized loss position were reviewed to determine whether other-than-temporary impairments should be recognized. The Company asserts that it has the intent and ability to hold these securities long enough to allow the cost basis of these securities to be recovered. These conclusions are supported by a detailed analysis of the underlying credit and cash flows of each security. Unrealized losses are primarily attributable to credit spread widening and increased liquidity discounts. It is possible that the Company could recognize other-than-temporary impairments in the future on some of the securities, if future events, information and the passage of time causes it to conclude that declines in value are other-than temporary.

NOTE 8 Derivative Instruments

A. Derivatives under SSAP No. 86—Derivatives

(1) A discussion of the market risk, credit risk and cash requirements of the derivative.

Derivatives are financial contracts, the value of which is derived from underlying interest rates, foreign exchange rates, credit, equity price movements, indices or other market risks arising from on-balance sheet financial instruments and selected anticipated transactions. The Company's principal derivative exposures to market risk are interest rate risk, foreign exchange (FX) risk, and equity market risk. Interest rate risk pertains to the change in fair value of the derivative instruments as a result of changes in market interest rates. Similarly, the Company's equity index options may fluctuate in value based on movements in equity indices. The Company's FX forward contracts may fluctuate based on changes in foreign exchange rates between the US dollar and other major currencies. The Company may be exposed to credit-related losses in the event of nonperformance by counterparties to the derivative financial instruments. The current credit exposure of the Company's derivative contracts is limited to the fair value in excess of the collateral pledged at the reporting date. The Company manages its credit risk by entering into transactions with creditworthy counterparties, entering into master netting agreements that provide for a netting of payments and receipts with a single counterparty, and monitoring its derivative credit exposure as part of its overall risk management program. The Company has cash of \$50,473,356 pledged as collateral to facilitate derivatives trading.

(2) A description of the reporting entity's objectives for using derivatives, i.e., hedging, income generation or replication, as well as a description of the context needed to understand those objectives and its strategies for achieving those objectives, including the identification of the category, e.g., fair value hedges, cash flow hedges, or foreign currency hedges, and for all objectives, the type of instrument(s) used.

The Company maintains derivative contracts to manage certain economic risks inherent to the investment portfolios. The Company does not designate any derivative contracts as effective hedging relationships under SSAP 86; the derivatives are classified as other hedging relationships.

The Company uses exchange-traded equity market futures primarily to economically mitigate emerging market equity market risk of the Company's emerging market equities portfolio. The Company utilizes exchange-traded futures in other hedging relationships. Under exchange-traded futures, the Company agrees to purchase a specified number of contracts with other parties and to post variation margin on a daily basis in an amount equal to the difference in the daily fair values of those contracts. The parties with whom the Company enters into exchange-traded futures and options are regulated futures commissions merchants who are members of a trading exchange. FX forward contracts are OTC contracts utilized to mitigate foreign exchange risks of future cash flows. Equity index options are contractual agreements whereby the holder has the right, but not the obligation, to buy or sell an underlying equity market index on or before a specified future date at a specified price. The Company utilizes equity index options and FX forwards in other hedging relationships.

(3) A description of the accounting policies for recognizing (or reasons for not recognizing) and measuring the derivatives used, and when recognized and where those instruments and related gains and losses are reported.

The positions are marked to fair value at the end of each reporting period. The related unrealized gain or loss flows through policyholders' surplus on the statements of changes in policyholders' surplus and the realized gains or losses flow through realized capital gains/loss in the statements of operations. Derivatives Assets are shown on Line 7 on the Assets page.

NOTES TO FINANCIAL STATEMENTS

NOTE 9 Income Taxes (continued from preceding page)

C. Current and Deferred Income Taxes

The Inflation Reduction Act (Act) was enacted on August 16, 2022, and included a new corporate alternative minimum tax (CAMT). The IRA and the CAMT are effective for tax years beginning after 2023. Factory Mutual Insurance Company will recognize the effect of the CAMT as appropriate. For the tax year ending December 31, 2024, the Company did not recognize a CAMT liability.

The Company invests in partnerships which make equity investments in projects eligible to receive historic, energy, low-income housing and new market tax credits, collectively referred to as investment tax credits. The investments are accounted for under the equity method and reported within other invested assets. The tax credits, when realized, are recognized as a reduction of tax expense under the flow-through method, at which time the corresponding equity investment is written-down to reflect the remaining value of the future benefits to be realized. For the years ended December 31, 2024 and 2023 the Company recognized investment tax credits of \$135,819,258 and \$114,117,563 respectively. The equity investment write-down is reflected within net realized capital gains, in the Statement of Income. There are no investment tax credit carryforwards at December 31, 2024 or 2023.

L. Investment in Downstream Noninsurance Holding Company

The Company utilizes the look-through approach for the valuation of a downstream non-insurance holding company (FMIC Holdings, Inc.) instead of obtaining audited financial statements of the downstream non-insurance holding company, and therefore makes the following disclosures:

- The carrying value of the downstream non-insurance company is \$5,715,849,480.
- The financial statements of the downstream non-insurance company are not audited.
- The reporting entity has limited the value of its investment in the downstream non-insurance holding company to the value contained in the audited financial statements of applicable SCA entities owned by the downstream non-insurance holding company, and valued in accordance with SSAP 97.
- All liabilities, commitments, contingencies, guarantees or obligations of the downstream non-insurance holding company, which are required to be recorded as liabilities, commitments, contingencies, guarantees or obligations under applicable accounting guidance, are reflected in the reporting entity's determination of the carrying value of the investment in the downstream non-insurance holding company, if not already recorded in the financial statements of the downstream non-insurance holding company.

N. Investment in Insurance SCAs

(1) Accounting Practice that Differs from NAIC Statutory Accounting Practices and Procedures

The Company's reported insurance SCA investments include one insurance company that has a permitted practice. Specifically, Affiliated FM Insurance Company (NAIC # 10014), applies paragraph 5(a) of SSAP 23, rather than paragraph 5(b) of SSAP 23, with respect to the methodology applied in translating its Canadian branch to USD. This is consistent with the methodology used in prior years, and a permitted practice has been approved by the State of Rhode Island. The total adjustment to convert Affiliated FM Insurance Company's balance sheet to USD is \$82,593,402 which appears on line 17 - "Net adjustment in assets and liabilities due to foreign exchange rates", on page 3 - "Liabilities" of its 2024 annual statement. There is no net impact on surplus for this practice, and the effect on 2024 net income would be a decrease to net income in the amount of \$12,990,883 (which would be offset by a corresponding increase to surplus).

NOTES TO FINANCIAL STATEMENTS

NOTE 10 Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties (continued from preceding page)

(2) Monetary Effect on Net Income and Surplus

SCA Entity (Investments in Insurance SCA Entities)	Monetary Effect on NAIC SAP		Amount of Investment	
	Net Income Increase/ (Decrease)	Surplus Increase/ (Decrease)	Per Audited Statutory Equity	If the Insurance SCA Had Completed Statutory Financial Statements *

* Per AP&P Manual (without permitted or prescribed practices)

(3) RBC Regulatory Event Because of Prescribed or Permitted Practice

Since there is no impact on surplus from this permitted practice, there is no effect on risk-based capital that would have triggered a regulatory event. There is no difference in the amount of the Company's investment in Affiliated FM Insurance Company from applying the permitted practice, rather than applying NAIC statutory accounting principles.

NOTE 12 Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement Benefit Plans

A. Defined Benefit Plan

(1) Change in benefit obligation

The Company sponsors certain noncontributory retirement income plans. For the vast majority of employees, the benefits are generally based on years of service and the average of the highest consecutive 60 months of the employee's compensation within the 120 months prior to retirement. The Company's funding policy is to maintain a sufficiently funded level to ensure benefit security and to vary contribution levels as appropriate to business conditions. The Company also has supplemental retirement plans that are noncontributory defined benefit plans covering certain employees.

The Company provides healthcare and life insurance benefits for certain retired employees and their dependents. Employees hired on or after January 1, 2000, and employees that were active employees on January 1, 2000 and had not reached the age of 30 as of January 1, 2000, are not eligible for retiree medical benefits. Eligibility of other employees hired prior to January 1, 2000, and retiring subsequent to that date depends on whether they meet certain age and service requirements at retirement. The plan is generally contributory, with retiree contributions adjusted annually. Certain retirees transitioned to the individual Medicare market effective January 1, 2014 and January 1, 2019. Certain other retirees transitioned on January 1, 2020. Retirees and dependents enrolled in the individual Medicare market participate in a Retiree Health Reimbursement Account.

(16) Reasons for Significant Gains/Losses Related to Changes in Defined Benefit Obligation and any Other Significant Change in the Benefit Obligations or Plan Assets Not Otherwise Apparent

The decrease in obligations for both pension and postretirement benefits during the year is primarily due to a increase in discount rates used to measure the obligations. The increase in the fair value of plan assets during the year is primarily due to investment returns as a result of strong market

(17) Accumulated Postretirement and Pension Benefit Obligation and Fair Value of Plan Assets for Defined Postretirement and Pension Benefit Plans

B. Investment Policies and Strategies

Description of Investment Policies

The investment asset allocation policies of the pension and postretirement plans specify the broad asset classes used by the pension plans for investment purposes and the general principles used in managing the plans' assets. The strategic asset allocation framework includes the asset classes that may be used and the ranges for each of the asset classes and sub-classes. The overriding objective for managing pension investments is to optimize plan surplus and long-term total return of plan assets within constraints established to control risk and volatility. The strategic asset allocations and ranges are segregated across five primary asset categories. The broad asset categories are equities, fixed income, alternatives, multi-asset, and cash and cash equivalents. The equities allocation includes U.S. and international equities. The fixed income allocation includes long duration and opportunistic fixed income. The alternatives asset allocation includes absolute return and private investments. The current approved ranges for the five asset categories in the U.S. pension fund, which is also the largest of the retirement plans, are as follows:

Asset Class	Range
Equities	35-65%
Fixed Income	25-60%
Alternatives	0-20%
Multi-Assets	0-20%
Cash and Cash Equivalents	0-20%

Portfolio construction is based on prudent investment principles, including diversification across asset classes and external funds managers, and liability risk management with long term considerations. Institutional investment firms are employed to manage the investments, and generally perform ongoing analysis of the fundamental, technical, and valuation factors underlying the securities owned.

The equities allocation includes separately managed accounts with individual common stocks, and equity commingled and mutual funds with active and passive implementations. Diversification is emphasized through measured allocations across different styles and capitalization ranges, and the inclusion of U.S. and international equities. Investment returns are benchmarked and monitored against standard indices, including the Russell U.S. indices and MSCI global stock indices.

The fixed income allocation consists of long duration and opportunistic fixed income strategies, held in separately managed accounts, commingled trusts, and mutual funds. Debt securities are actively managed by institutional investment managers and teams, using best practice investment disciplines. The majority of the fixed income portfolio provides a high-quality long duration complement to the total pension investment portfolio.

NOTES TO FINANCIAL STATEMENTS

NOTE 12 Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement Benefit Plans (continued from preceding page)

The alternatives allocation includes private equity; private credit; real assets, including real estate and infrastructure; and absolute return liquid alternatives strategies.

The multi-asset allocation incorporates diversified strategies across various asset classes and includes global tactical asset allocation and a dynamic pension management strategy with a focus on asset liability management.

The cash and cash equivalent category includes short-term investments, defined as debt securities with a maturity of less than one year, held primarily for liquidity purposes and secondarily to reduce the duration of fixed income securities when warranted by interest rate levels. Capital preservation is the primary consideration of investments in this asset class; therefore, only the highest quality investments are used. This allocation primarily includes money market funds, commercial paper carrying the highest quality ratings, and cash.

The defined benefit pension plan asset allocation and the target asset allocation, presented as a percentage of total plan assets, were as follows:

Asset Category	Percentage of Plan Assets	
	2024	Target Allocation
Equity Securities	51%	49%
Debt Securities	32%	39%
Alternatives	17%	10%
Cash	0%	2%
Total	100%	100%

The defined benefit postretirement plan asset allocation and the target asset allocation, presented as a percentage of total plan assets, were as follows:

Asset Category	Percentage of Plan Assets	
	2024	Target Allocation
Equity Securities	85%	90%
Debt Securities	0%	0%
Alternatives	0%	0%
Cash	15%	10%

Pension assets as of December 31, 2024, include \$516,900,000 of partnerships and hedge funds measured under the equity method using net asset value (NAV), \$6,302,000 of receivables for securities sold, and (\$32,100,000) of payables for securities purchased.

(2) Valuation Technique(s) and Inputs Used to Measure Fair Value

The valuation techniques required by the Fair Value Measurements guidance (SSAP 100) are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect market assumptions. These two types of inputs create the following fair value hierarchy:

- Level 1
- Quoted prices for identical instruments in active markets.
- Level 2
- Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.
- Level 3
- Significant inputs to the valuation model are unobservable.

When available, the Company uses quoted market prices to determine the fair value of investment securities, and they are included in Level 1.

When quoted market prices are unavailable, the Company uses quotes from independent pricing vendors based on recent trading activity and other relevant information, including market interest rate curves, referenced credit spreads and estimated prepayment rates, where applicable. These investments are included in Level 2 and are primarily comprised of fixed income securities.

When pricing is not available from a pricing vendor it is based on significant unobservable inputs. In those circumstances, the investment security is classified in Level 3. These investments are primarily comprised of private equity funds and partnerships.

D. Rate of Return Assumptions

Expected rate of return assumptions are created based on an analysis of the long-term behavior and performance expectations of asset classes. As part of the process to develop long-term assumptions, historical relationships across asset classes and risk-free rates are considered together with historical returns and forward-looking assessments. The long-term expected rate of return is adjusted based on structural moves, if any, in underlying market conditions, or material changes to the strategic asset allocation mix. The expected return for the plan blends return assumptions for the strategic asset allocation mix, including equities, fixed income, alternatives, and multi-assets, along with a nominal allocation to cash and cash equivalents.

NOTE 14 Liabilities, Contingencies and Assessments (continued from preceding page)

(2) Detail of other contingent commitments

The Company is the owner of all the issued and outstanding common stock of FM Insurance Company Limited ("FMI"), and there is a Performance Guarantee agreement with FMI whereby the Company guarantees the full performance by FMI of its lawful obligations with respect to contracts of insurance and reinsurance issued by FMI.

The Company is the owner of all the issued and outstanding common stock of FM Insurance Europe S.A. ("FMIE"), and there is a Performance Guarantee agreement with FMIE whereby the Company guarantees the full performance by FMIE of its lawful obligations with respect to contracts of insurance and reinsurance issued by FMIE.

The Company is the owner of all the issued and outstanding common stock of FMIC Holdings, Inc., the owner of all the issued and outstanding common stock of Affiliated FM Insurance Company ("AFM"), and there is a Performance Guarantee agreement with AFM whereby the Company guarantees the full performance by AFM of its lawful obligations with respect to contracts of insurance and reinsurance issued by AFM.

The Company is the owner of FMRE Holdings LLC, which owns FM Asia Holdings Pte. Ltd., and there is a Performance Guarantee agreement with FM Asia Holdings Pte. Ltd. whereby the Company guarantees the obligations of FM Asia Holdings Pte. Ltd. to Singapore Science Park Ltd., the landlord in a real estate project in Singapore for which FM Asia Holdings Pte. Ltd. is the tenant.

There are no current or anticipated amounts payable under these agreements, nor are there any amounts anticipated to be payable. Should any amounts ever become payable, the Company would be required to contribute sufficient cash to these companies to enable them to fulfill their contractual obligations. There are no applicable carrying values with respect to these agreements, and due to their nature the likelihood of potential future payments is remote and not quantifiable or determinable.

(3) Guarantee Obligations

Not Applicable.

B. Assessments

(1) Nature of Any Assets That Could Have a Material Financial Effect

The Company is subject to guaranty fund and other assessments by the states in which it writes business. Insurance company insolvencies in states where the Company writes business may result in guaranty fund assessments on future premium.

The Company has accrued a liability for guaranty fund and other assessments of \$537,442 and a related premium tax benefit asset of \$5,638,599.

The amount recorded represents management's best estimates based on information received from the states in which the company writes business. The liability is included in the taxes, licenses and fees liability and will be paid in the next year. The asset is included in the guaranty funds receivable asset and is expected to be realized over the five to ten years following payment.

At times, the Company has the ability to recover a portion of the accrued assessment liability through policyholder surcharges. As of December 31, 2024, the asset related to policyholder surcharges, which appears within Page 2 line 25, is \$0.

(2)	a. Assets recognized from paid and accrued premium tax offsets and policy surcharges prior year-end	\$	4,811,610
	b. Decreases current period	\$	537,455
	c. Increases current period	\$	1,364,444

G. All Other Contingencies

At December 31, 2024 and 2023 the Company had admitted premium receivable assets of \$1,389,148,003 and \$1,407,026,439, respectively, in premium receivable due from policyholders, agents and ceding insurers. The Company routinely assesses the collectability of these receivables. Based upon Company experience, any uncollectible premium receivables as of December 31, 2024 are not expected to exceed the nonadmitted amount totaling \$82,781,654, and therefore, no additional provision for uncollectible amounts has been recorded. The potential for any additional loss is not believed to be material to the Company's financial condition.

Lawsuits arise against the Company in the normal course of business. Contingent liabilities arising from litigation, income taxes and other matters are not considered material in relation to the financial position of the Company. The Company has no asset that is considered impaired.

(2) The nature and terms, including, at a minimum, a discussion of (i) the credit and market risk of those instruments, (ii) the cash requirements of those instruments, and (iii) the related accounting policy pursuant to the requirements of APB Opinion No. 22, Disclosure of Accounting Policies.

The Company's principal derivative exposures to market risk are interest rate risk, foreign exchange (FX) risk, and equity market risk. Interest rate risk pertains to the change in fair value of the derivative instruments as a result of changes in market interest rates. Similarly, the Company's equity index options may fluctuate in value based on movements in equity indices. The Company's FX forward contracts may fluctuate based on changes in foreign exchange rates between the US dollar and other major currencies. The Company may be exposed to credit-related losses in the event of nonperformance by counterparties to the derivative financial instruments. The current credit exposure of the Company's derivative contracts is limited to the fair value in excess of the collateral pledged at the reporting date. The Company manages its credit risk by entering into transactions with creditworthy counterparties, entering into master netting agreements that provide for a netting of payments and receipts with a single counterparty, and monitoring its derivative credit exposure as part of its overall risk management program. The Company has cash of \$50,473,356 pledged as collateral to facilitate derivatives trading.

The Company uses exchange-traded equity market futures primarily to economically mitigate emerging market equity market risk of the Company's emerging market equities portfolio. The Company utilizes exchange-traded futures in other hedging relationships. Under exchange-traded futures, the Company agrees to purchase a specified number of contracts with other parties and to post variation margin on a daily basis in an amount equal to the difference in the daily fair values of those contracts. The parties with whom the Company enters into exchange-traded futures and options are regulated futures commissions merchants who are members of a trading exchange. FX forward contracts are OTC contracts utilized to mitigate foreign exchange risks of future cash flows. Equity index options are contractual agreements whereby the holder has the right, but not the obligation, to buy or sell an underlying equity market index on or before a specified future date at a specified price. The Company utilizes equity index options and FX forwards in other hedging relationships.

(3) The amount of accounting loss the entity would incur if any party to the financial instrument failed completely to perform according to the terms of the contract and the collateral or other security, if any, for the amount due proved to be of no value to the entity.

The Company is exposed to credit-related losses in the event of nonperformance by counterparties to financial instruments, however, because exchange-traded futures are executed through a regulated exchange and positions are marked to market on a daily basis, the exposure is minimal.

NOTES TO FINANCIAL STATEMENTS

NOTE 16 Information About Financial Instruments With Off-Balance Sheet Risk and Financial Instruments With Concentrations of Credit Risk (continued from preceding page)

(4) The entity’s policy of requiring collateral or other security to support financial instruments subject to credit risk, information about the entity’s access to that collateral or other security, and the nature and a brief description of the collateral or other security supporting those financial instruments.

The Company is required to put up collateral for any futures contracts that are entered into. The amount of collateral that is required is determined by the exchange on which it is traded. The Company currently puts up U.S. Treasuries to satisfy the collateral requirement. The Company does not currently participate in any contracts that would require collecting collateral from a counterparty, as exchange-traded futures collateral requirements are managed by the futures commissions merchants.

Purchased equity options do not require collateral as the maximum loss is the premium paid to enter the contract.

NOTES TO FINANCIAL STATEMENTS

NOTE 20 Fair Value Measurements (continued from preceding page)

(3) Policies when Transfers Between Levels are Recognized

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred into or out of Level 3. Changes between level 2 and level 3 were driven by the observability of pricing inputs and the Company recognizes the transfers at the end of the reporting period.

(4) Description of Valuation Techniques and Inputs Used in Fair Value Measurement

The valuation techniques required by the Fair Value Measurements guidance (SSAP 100R) are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect market assumptions.

These two types of inputs create the following fair value hierarchy:

- Level 1 Quoted prices for identical instruments in active markets.
- Level 2 Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.
- Level 3 Significant inputs to the valuation model are unobservable.

The Company retains independent pricing vendors to assist in valuing invested assets when the prices are not available from the SVO.

When available, the Company uses quoted market prices to determine the fair value of investment securities, and they are included in Level 1.

When quoted market prices are unavailable, the Company uses quotes from independent pricing vendors based on recent trading activity and other relevant information, including market interest rate curves, referenced credit spreads and estimated prepayment rates, where applicable. These investments are included in Level 2 and are primarily comprised of fixed income securities which are NAIC rated 3 or below.

For certain level 3 securities, valuations are developed using discounted cash flow models that require the use of unobservable inputs, where the significant unobservable input is discount rate. These valuations are determined by independent third-party valuation vendors and are reviewed to ensure reasonableness. In the event independent third-party valuation is not available, values are derived using internal management estimates.

(5) Fair Value of Derivatives

Description for each class of asset or liability	(Level 1)	(Level 2)	(Level 3)	Net Asset Value (NAV)	Total

Total Derivative Liabilities	\$ 6,040,030	\$ 12,089	\$ -	\$ -	\$ 6,052,119

Equity options are exchange-traded and classified as Level 1. The Company's OTC FX Forward portfolio is classified as Level 2. Variation margin for futures is carried in receivables or payables.

B. Other Fair Value Reporting Disclosures

Not Applicable.

C. Aggregate fair value for all financial instruments and the level within the fair value hierarchy in which the fair value measurements in their entirety fall.

F. Subprime Mortgage Related Risk Exposure

(1) Description of the Subprime-Mortgage-Related Exposure and Related Risk Management Policies

The Company defines its exposure to subprime mortgage related risk by considering securities with a weighted average FICO/Credit score of less than 660 to be subprime. The company monitors the underlying collateral performance of these securities via monthly trustee reports, Bloomberg performance data and Rating Agency performance reports. The company has minimal exposure to subprime securities and has no plans to increase its holding in subprime securities at this time. This exposure will not materially affect the Company's unrealized losses or anticipated cash flows.

(2) Direct exposure through investments in subprime mortgage loans.

Not Applicable.

(3) Direct exposure through other investments.

NOTE 26 Intercompany Pooling Arrangements

A. Identification of the Lead Entity and all Affiliated Entities Participating in the Intercompany Pool

Lead Entity and all Affiliated Entities	NAIC Company Code	Pooling Percentage
Factory Mutual Insurance Company (lead insurer)	21482	87.0%
Affiliated FM Insurance Company	10014	12.0%
Appalachian Insurance Company	10316	1.0%

B. Description of Lines and Types of Business Subject to the Pooling Agreement

The parties agreed to pool net premium earned, net losses and loss adjustment expenses incurred, and other underwriting expenses incurred. Each company agreed to cede and/or assume from the others that amount of net premium earned, reported in the NAIC Annual Statement, Page 4, Line 1, less that amount of dividends to policyholders reported on Page 4, Line 17, net losses and loss adjustment expenses incurred included in the NAIC Annual Statement, Page 4 Lines 2 and 3 and other underwriting expenses incurred reported in the NAIC Annual Statement, Page 4, Line 4, required to bring its share to the agreed upon percentage of the total. Also, premium and losses that are assumed and ceded pursuant to reinsurance treaties between Factory Mutual Insurance Company (Asia Pacific branches) and Affiliated FM Insurance Company, and pursuant to an intercompany reinsurance agreement between the Canadian branches of Factory Mutual Insurance Company and Affiliated FM Insurance Company, are excluded from the intercompany pooling agreement.

The pooling activity is recorded and settled as current accident and occurrence year transactions for Schedule P reporting purposes. The pooling results are considered as written and earned in the current accident year. The pooling results of losses and loss adjustment expenses paid and incurred are reflected in the current occurrence year.

C. Description of Cessions to Non-Affiliated Reinsurance Subject to Pooling Agreement

Reinsurance may be externally ceded on a facultative and/or treaty basis by any pool participant prior to pooling.

D. Identification of all Pool Members that are Parties to Reinsurance Agreements with Non-Affiliated Reinsurers

Each pool participant has a contractual right of direct recovery from its own external reinsurers.

E. Explanation of Discrepancies Between Entries of Pooled Business

There are no discrepancies between the assumed and ceded reinsurance schedules of the pool participants.

F. Description of Intercompany Sharing

Each pool participant establishes its respective provision for reinsurance in Schedule F and the write-off of uncollectible reinsurance for its own facultative and treaty cessions.

G. Amounts Due To / From Lead Entity and Pool Participants as of December 31:

NOTES TO FINANCIAL STATEMENTS

NOTE 33 Asbestos/Environmental Reserves

A. Does the company have on the books, or has it ever written an insured for which you have identified a potential for the existence of a liability due to asbestos losses?

The Company has potential exposure involving asbestos, environmental impairment liability, and other types of tort-related claims, which applies only to the casualty and assumed reinsurance business now in runoff. Management has indicated that liabilities are recognized for known claims (including the cost of related litigation) when sufficient information has been developed to indicate the involvement of a specific insurance policy, and the Company's liabilities can be reasonably estimated. Additional reserves for such claims are established to cover further exposures on both known and unasserted claims based on facts currently known and the present state of the law and coverage litigation. The reserves for these types of claims are included in the foregoing loss and loss adjustment expense reserves and are subject to considerable uncertainty, due to the potential severity of the claims and the uncertain legal climate.

ANNUAL STATEMENT FOR THE YEAR 2024 OF THE FACTORY MUTUAL INSURANCE COMPANY

GENERAL INTERROGATORIES

31. Provide the following information for all short-term and long-term bonds and all preferred stocks. Do not substitute amortized value or statement value for fair value.

	1	2	3
	Statement (Admitted) Value	Fair Value	Excess of Statement over Fair Value (-), or Fair Value over Statement (+)
31.1 Bonds	7,386,596,998	7,305,868,555	(80,728,443)
31.2 Preferred stocks	851,613,640	851,691,483	77,843
31.3 Totals	8,238,210,638	8,157,560,038	(80,650,600)

31.4 Describe the sources or methods utilized in determining the fair values:
Bonds and preferred stocks are priced by the SVO when available. When SVO pricing is not available, the securities are priced by our external pricing source, Interactive Data Pricing and Reference Data LLC. Level 3 securities are priced by an external pricing source. In the event independent third party valuation is not available, values are derived using internal management estimates.

32.1 Was the rate used to calculate fair value determined by a broker or custodian for any of the securities in Schedule D? Yes [] No [X]

32.2 If the answer to 32.1 is yes, does the reporting entity have a copy of the broker's or custodian's pricing policy (hard copy or electronic copy) for all brokers or custodians used as a pricing source? Yes [] No []

32.3 If the answer to 32.2 is no, describe the reporting entity's process for determining a reliable pricing source for purposes of disclosure of fair value for Schedule D:
.....

33.1 Have all the filing requirements of the Purposes and Procedures Manual of the NAIC Investment Analysis Office been followed? Yes [X] No []

33.2 If no, list exceptions:
.....

34. By self-designating 5GI securities, the reporting entity is certifying the following elements of each self-designated 5GI security:
a. Documentation necessary to permit a full credit analysis of the security does not exist or an NAIC CRP credit rating for an FE or PL security is not available.
b. Issuer or obligor is current on all contracted interest and principal payments.
c. The insurer has an actual expectation of ultimate payment of all contracted interest and principal.
Has the reporting entity self-designated 5GI securities? Yes [X] No []

35. By self-designating PLGI securities, the reporting entity is certifying its compliance with the requirements as specified in the Purposes and Procedures Manual of the NAIC Investment Analysis Office (P&P Manual) for private letter rating (PLR) securities and the following elements of each self-designated PLGI security:
a. The security was either:
i. issued prior to January 1, 2018 (which is exempt from PLR filing requirements pursuant to the P&P Manual), or
ii. issued from January 1, 2018 to December 31, 2021 and subject to a confidentiality agreement executed prior to January 1, 2022 which confidentiality agreement remains in force, for which an insurance company cannot provide a copy of a private letter rating rationale report to the SVO due to confidentiality or other contractual reasons ("waived submission PLR securities").
b. The reporting entity is holding capital commensurate with the NAIC Designation and NAIC Designation Category reported for the security.
c. The NAIC Designation and NAIC Designation Category were derived from the credit rating assigned by an NAIC CRP in its legal capacity as a NRSRO which is shown on a current private letter rating, dated during the financial statement year, held by the insurer and available for examination by state insurance regulators.
d. Other than for waived submission PLR securities, defined above, on or after January 1, 2024 for any PLR securities issued on or after January 1, 2022, if the reporting entity is not permitted to share this private credit rating or the private rating letter rationale report of the PL security with the SVO, it certifies that it is reporting it as an NAIC 5.B GI and may not assign any other self-designation.
Has the reporting entity self-designated PLGI to securities, all of which meet the above requirement and as specified in the P&P Manual? Yes [] No [X]

36. By assigning FE to a Schedule BA non-registered private fund, the reporting entity is certifying the following elements of each self-designated FE fund:
a. The shares were purchased prior to January 1, 2019.
b. The reporting entity is holding capital commensurate with the NAIC Designation reported for the security.
c. The security had a public credit rating(s) with annual surveillance assigned by an NAIC CRP in its legal capacity as an NRSRO prior to January 1, 2019.
d. The fund only or predominantly holds bonds in its portfolio.
e. The current reported NAIC Designation was derived from the public credit rating(s) with annual surveillance assigned by an NAIC CRP in its legal capacity as an NRSRO.
f. The public credit rating(s) with annual surveillance assigned by an NAIC CRP has not lapsed.
Has the reporting entity assigned FE to Schedule BA non-registered private funds that complied with the above criteria? Yes [] No [X]

37. By rolling/renewing short-term or cash equivalent investments with continued reporting on Schedule DA, Part 1 or Schedule E Part 2 (identified through a code (%) in those investment schedules), the reporting entity is certifying to the following:
a. The investment is a liquid asset that can be terminated by the reporting entity on the current maturity date.
b. If the investment is with a nonrelated party or nonaffiliate, then it reflects an arms-length transaction with renewal completed at the discretion of all involved parties.
c. If the investment is with a related party or affiliate, then the reporting entity has completed robust re-underwriting of the transaction for which documentation is available for regulator review.
d. Short-term and cash equivalent investments that have been renewed/rolled from the prior period that do not meet the criteria in 37.a - 37.c are reported as long-term investments.
Has the reporting entity rolled/renewed short-term or cash equivalent investments in accordance with these criteria? Yes [X] No [] N/A []

ANNUAL STATEMENT FOR THE YEAR 2024 OF THE FACTORY MUTUAL INSURANCE COMPANY

GENERAL INTERROGATORIES

PART 2 - PROPERTY AND CASUALTY INTERROGATORIES

6.1

What provision has this reporting entity made to protect itself from an excessive loss in the event of a catastrophe under a workers' compensation contract issued without limit of loss?
The Company does not issue Workers' Compensation contracts.

6.2

Describe the method used to estimate this reporting entity's probable maximum insurance loss, and identify the type of insured exposures comprising that probable maximum loss, the locations of concentrations of those exposures and the external resources (such as consulting firms or computer software models), if any, used in the estimation process:
The Company uses the AIR Touchstone 10.0 software to model our catastrophe exposure in hurricane and earthquake prone areas where we have concentrations of business, except for Puerto Rico hurricane, where Touchstone 7.0 is used.

6.3

What provision has this reporting entity made (such as a catastrophic reinsurance program) to protect itself from an excessive loss arising from the types and concentrations of insured exposures comprising its probable maximum property insurance loss?
In addition to controlling the Company's exposure by loss prevention engineering, deductibles, and limits of liability, we purchase risk and catastrophe reinsurance.

6.4

Does the reporting entity carry catastrophe reinsurance protection for at least one reinstatement, in an amount sufficient to cover its estimated probable maximum loss attributable to a single loss event or occurrence?

Yes ☐ No ☒

6.5

If no, describe any arrangements or mechanisms employed by the reporting entity to supplement its catastrophe reinsurance program or to hedge its exposure to uninsured catastrophic loss
There are certain parts of the Company's catastrophe program in the high excess layers for which a reinstatement clause is not applicable. These parts of the program cover events that management considered and evaluated as less likely to occur, and given the Company's strong surplus position and its ability to purchase additional reinsurance if an event occurs, it was determined that a reinstatement clause is not required for those parts of the program.
Additionally, the primary layers of the per risk and catastrophe programs include placements made with collateralized reinsurance companies. These companies do not provide reinstatement limits. The Company's strong surplus position and ability to purchase additional reinsurance have led management to conclude that collateralized reinsurance is appropriate in these primary layers.

7.1

Has this reporting entity reinsured any risk with any other entity under a quota share reinsurance contract that includes a provision that would limit the reinsurer's losses below the stated quota share percentage (e.g., a deductible, a loss ratio corridor, a loss cap, an aggregate limit or any similar provisions)?

Yes ☐ No ☒

7.2

If yes, indicate the number of reinsurance contracts containing such provisions.

0

7.3

If yes, does the amount of reinsurance credit taken reflect the reduction in quota share coverage caused by any applicable limiting provision(s)?

Yes ☐ No ☐

8.1

Has this reporting entity reinsured any risk with any other entity and agreed to release such entity from liability, in whole or in part, from any loss that may occur on this risk, or portion thereof, reinsured?

Yes ☐ No ☒

8.2

If yes, give full information

9.1

Has the reporting entity ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates) for which during the period covered by the statement: (i) it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; (ii) it accounted for that contract as reinsurance and not as a deposit; and (iii) the contract(s) contain one or more of the following features or other features that would have similar results:
(a) A contract term longer than two years and the contract is noncancellable by the reporting entity during the contract term;
(b) A limited or conditional cancellation provision under which cancellation triggers an obligation by the reporting entity, or an affiliate of the reporting entity, to enter into a new reinsurance contract with the reinsurer, or an affiliate of the reinsurer;
(c) Aggregate stop loss reinsurance coverage;
(d) A unilateral right by either party (or both parties) to commute the reinsurance contract, whether conditional or not, except for such provisions which are only triggered by a decline in the credit status of the other party;
(e) A provision permitting reporting of losses, or payment of losses, less frequently than on a quarterly basis (unless there is no activity during the period); or
(f) Payment schedule, accumulating retentions from multiple years or any features inherently designed to delay timing of the reimbursement to the ceding entity.

Yes ☐ No ☒

9.2

Has the reporting entity during the period covered by the statement ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates), for which, during the period covered by the statement, it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; excluding cessions to approved pooling arrangements or to captive insurance companies that are directly or indirectly controlling, controlled by, or under common control with (i) one or more unaffiliated policyholders of the reporting entity, or (ii) an association of which one or more unaffiliated policyholders of the reporting entity is a member where:
(a) The written premium ceded to the reinsurer by the reporting entity or its affiliates represents fifty percent (50%) or more of the entire direct and assumed premium written by the reinsurer based on its most recently available financial statement; or
(b) Twenty-five percent (25%) or more of the written premium ceded to the reinsurer has been retroceded back to the reporting entity or its affiliates in a separate reinsurance contract.

Yes ☐ No ☒

9.3

If yes to 9.1 or 9.2, please provide the following information in the Reinsurance Summary Supplemental Filing for General Interrogatory 9:
(a) The aggregate financial statement impact gross of all such ceded reinsurance contracts on the balance sheet and statement of income;
(b) A summary of the reinsurance contract terms and indicate whether it applies to the contracts meeting the criteria in 9.1 or 9.2; and
(c) A brief discussion of management's principle objectives in entering into the reinsurance contract including the economic purpose to be achieved.

9.4

Except for transactions meeting the requirements of paragraph 36 of SSAP No. 62R - Property and Casualty Reinsurance, has the reporting entity ceded any risk under any reinsurance contract (or multiple contracts with the same reinsurer or its affiliates) during the period covered by the financial statement, and either:
(a) Accounted for that contract as reinsurance (either prospective or retroactive) under statutory accounting principles ("SAP") and as a deposit under generally accepted accounting principles ("GAAP"); or
(b) Accounted for that contract as reinsurance under GAAP and as a deposit under SAP?

Yes ☐ No ☒

9.5

If yes to 9.4, explain in the Reinsurance Summary Supplemental Filing for General Interrogatory 9 (Section D) why the contract(s) is treated differently for GAAP and SAP.

9.6

The reporting entity is exempt from the Reinsurance Attestation Supplement under one or more of the following criteria:
(a) The entity does not utilize reinsurance; or,
(b) The entity only engages in a 100% quota share contract with an affiliate and the affiliated or lead company has filed an attestation supplement; or
(c) The entity has no external cessions and only participates in an intercompany pool and the affiliated or lead company has filed an attestation supplement.

Yes ☐ No ☒
Yes ☐ No ☒
Yes ☐ No ☒

10.

If the reporting entity has assumed risks from another entity, there should be charged on account of such reinsurances a reserve equal to that which the original entity would have been required to charge had it retained the risks. Has this been done?

Yes ☒ No ☐ N/A ☐
