NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of Farmers Casualty Insurance Company (“the Company”) are presented on the basis of accounting practices prescribed or permitted by the Insurance Department of the state of Rhode Island (“DOI”).

The Company recognizes only statutory accounting practices prescribed or permitted by the state of Rhode Island (the “State”) for determining and reporting the financial condition and results of operations of an insurance company, and for determining its solvency under the Rhode Island Insurance Law. The National Association of Insurance Commissioners (“NAIC”) Accounting Practices and Procedures Manual (the “Codification”), version effective January 1, 2001, and subsequently amended (“NAIC SAP”) has been adopted as a component of prescribed or permitted practices by the State. The Commissioner of Insurance has the right to permit other specific practices that deviate from prescribed practices. The Company did not utilize any permitted practices during the years presented.

A reconciliation of the Company’s net income and surplus between NAIC SAP and practices prescribed by the State of Rhode Island for year-to-date December 31, 2024, and the year ended December 31, 2023, is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with statutory accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are generally recognized as revenue on a pro rata basis over the policy term. The portion of the premiums written applicable to the unexpired terms of the policies is recorded as unearned premiums.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments include all investments whose maturities, at the time of acquisition, are greater than three months and less than one year and are stated at amortized cost, which approximates fair value.
- (2) Bonds not backed by other loans are generally carried at amortized cost or the lower of amortized cost or fair value depending on their NAIC designation. Bond premium or discount is amortized using the interest method.
- (3) The Company does not hold any common stocks in its portfolio.
- (4) The Company does not hold any preferred stocks in its portfolio.

The Company recognizes other-than-temporary impairment losses on investments when the decline in fair value specific to an issuer’s fundamental credit difficulties, or a non-interest related decline, is deemed to be other than temporary. There are a number of assumptions and estimates inherent in evaluating impairments specific to an issuer’s

NOTES TO FINANCIAL STATEMENTS

fundamental credit difficulties, or non-interest related decline, and determining if they are other than temporary, including: 1) the Company's ability and intent to retain the investment for a period of time sufficient to allow for an anticipated recovery in value; 2) the recoverability of principal and interest; 3) the length of time and extent to which the fair value has been less than amortized cost for bonds or cost for unaffiliated common and preferred stocks; 4) the financial condition, near-term and long-term prospects of the issue or issuer, including relevant industry conditions and trends, and implications of rating agency actions and offering prices; and 5) the specific reasons that a security is in a significant unrealized loss position, including market conditions which could affect access to liquidity. Interest rate related impairments are deemed other than temporary when the Company has the intent to sell an investment, at the reporting date, before recovery of the cost of the investment.

- (5) Mortgage loans on real estate are principally stated at amortized cost net of valuation allowances.
- (6) Mortgage-backed bonds and structured securities are stated at either amortized cost or the lower of amortized cost or market value. Premiums and discounts on mortgage-backed securities and structured securities are amortized using the retrospective method, except for interest-only mortgage-backed securities, which are amortized using the prospective method.

Loan-backed securities with evidence of deterioration of credit quality for which it is probable that the company will be unable to collect all contractually required payments receivable, are written down to the present value of expected cash flows to be received.
- (7) The Company accounts for investments in subsidiary, controlled and affiliated ("SCA") companies using the statutory equity of the investee if the entity is an insurance company. All noninsurance entities are valued at the U.S. Generally Accepted Accounting Principles ("GAAP") equity of the investee.
- (8) Investments in joint ventures, partnerships, and limited liability companies ("LLC") are carried at the underlying audited GAAP equity (or audited International Financial Reporting Standards ("IFRS") equity for certain partnership interests) of the respective entity's financial statements. Undistributed earnings of these entities are recognized in unrealized gains and losses. Such investments are nonadmitted if they do not have financial statement audits.
- (9) The Company did not utilize derivative instruments.
- (10) The Company considers anticipated investment income as a factor in the premium deficiency calculation.
- (11) The liability for unpaid reported losses is based on a case by case estimate (case reserves) for all lines and coverages within line of business, except for the non-injury automobile claims. For the non-injury automobile coverages, unpaid losses are based on average "statistical" reserves. There is an additional overall estimate (supplemental reserves for several specific coverages within lines of business) based on the Company's past experience; this is also known as an additional reserve on known claims. A provision is also made for losses incurred but not reported on the basis of estimates and past experience modified for current trends and estimates of expenses for investigating and settling claims, reduced for anticipated salvage and subrogation. The liability for unpaid losses on business assumed is based in part on reports received from ceding companies.

Management believes that the liability for unpaid losses and loss adjustment expenses is adequate to cover ultimate unpaid losses and loss adjustment expenses incurred. However, such liability is necessarily based on estimates, and the ultimate liability may vary significantly from such estimates. In accordance with industry practice, the Company regularly reviews its estimated liability, and any adjustments are reflected in the period in which they become known. In accordance with guidelines established by the NAIC, the liability for unpaid losses at December 31, 2024 is reported net of estimated salvage and subrogation recoverable.

(12) The Company did not modify its capitalization policy from the prior period.

(13) The Company does not have pharmaceutical rebate receivables.

D. Going Concern

Management does not have any substantial doubt about the Company's ability to continue as a going concern.

2. Accounting Changes and Correction of Errors

In 2022, the NAIC revised and added new guidance to SSAP No. 86 - ("Accounting for Derivative Instruments and Hedging Activities"), effective January 1, 2023, with early adoption permitted. This revised guidance expanded the last-of-layer method that permitted only one hedged layer to allow multiple hedged layers of a single closed portfolio. In addition, the modification specified how hedge basis adjustments should be considered when determining credit losses (impairment) for the assets included in the closed portfolio. The guidance clarified for effective hedging accounting to be based on the amortized cost approach, (if the hedged item is valued at amortized cost) and the derivative mirrors that measurement method, and for the basic adjustment for portfolio layer method hedge which is typically valued at fair value, to only occur at hedge termination or at designation, for statutory accounting. The adoption of these revisions had no material impact on the Company's 2024 and 2023 financial statements.

Parties to the agreement will renegotiate the terms of the agreement at least once every three (3) years.
