**NOTES TO FINANCIAL STATEMENTS****Note 1 – Summary of Significant Accounting Policies and Going Concern****A. Accounting Practices**

Medical Malpractice Joint Underwriting Association of Rhode Island ("the MMJUA") is a joint underwriting association created by the state of Rhode Island. The MMJUA was originally created in accordance with RI Gen. Law 42-35-3 by the adoption of Regulation 230-RICR-20-10-1 (formerly Insurance Regulation 21) by the Department of Business Regulation (the "Department") effective June 16, 1975. Subsequently, legislation was enacted which authorized the Department to promulgate regulations relating to medical malpractice insurance and validated Regulation 230-RICR-20-10-1. It was the intent of the Department that the MMJUA provides a continuing stable facility for medical malpractice insurance. Under the original plan of operation (approved June 25, 1975) and as amended and approved by the department on November 10, 2003, the MMJUA was created to provide medical malpractice insurance for physicians, hospitals and other health care providers, on a self-supporting basis.

The MMJUA is authorized to issue medical malpractice policies on a "claims made" or "occurrence" basis with limits not to exceed \$1,000,000 for each medical incident under one policy and in the aggregate of \$3,000,000 under one policy in any one year. The MMJUA is also authorized to underwrite incidental coverage's for any health care provider that is also covered by the MMJUA's medical malpractice, with limits of \$1,000,000 per incident and \$1,000,000 aggregate under a one year policy. Additionally, the MMJUA is authorized to provide Commercial General Liability coverage to the health care providers with limits of \$1,000,000 per incident and \$2,000,000 aggregate under a one year policy. All policies are on an annual basis and shall be subject to the Group Retrospective Rating Plan and Stabilization Reserve Fund as authorized by Regulation 230-RICR-20-10-1.

The Group Retrospective Rating Plan and stabilization reserve fund are described under Note 24.

The Department requires insurance companies domiciled in the State of Rhode Island to prepare their statutory financial statements in accordance with the NAIC Accounting Practices and Procedures Manual and subject to Rhode Island Department of Business Regulation Gen. Law 42-35-3.

**B. Use of Estimates in the Preparation of the Financial Statement**

Actual results could differ from those estimates.

## NOTES TO FINANCIAL STATEMENTS

---

- (9) Accounting Policies for Derivatives  
The MMJUA does not invest in derivative instruments.
- (10) Anticipated Investment Income Used in Premium Deficiency Calculation  
The MMJUA does not have a premium deficiency reserve.

The reserves for unpaid losses and loss adjustment expenses are estimated using individual case basis valuations and statistical analyses. Those estimates are subject to the effects of trends in loss severity and frequency.

SSAP No. 101 requires that a valuation allowance be established to reduce gross deferred tax assets if, based on the weight of available evidence, it is more likely than not that some portion or all of the deferred tax asset will not be realized. Valuation allowances on the gross deferred tax asset are evaluated based on management's assessment of the recoverability. Management determined that a valuation allowance was not necessary as management anticipates that it is more likely than not that the Company will be able to recover all of their deferred tax assets.

The MMJUA is contingently liable under certain structured settlement agreements. These unassigned annuity agreements were purchased for 31 claimants. In many of these cases, these structured settlements require payments in 2015 and beyond. The contingent liability reserve is verified with the annuity carriers and updated annually. The MMJUA currently has one annuity with Executive Life Insurance of New York (ELNY) purchased prior to 1985 where ELNY has been in rehabilitation since 1991. On September 1, 2011, the Superintendent of Insurance for the State of New York petitioned the Supreme Court of Nassau County, New York, for an Approval of Restructuring Agreement for ELNY. Based on this petition, an Order to show cause hearing was held on March 15, 2012 as to why orders should not be made declaring ELNY to be insolvent, and converting the rehabilitation proceeding to a liquidation proceeding. On April 16, 2012, a move to liquidation was approved. It has been determined that the MMJUA will be liable for 60.4% of this annuity value. The MMJUA obtained quotes on purchasing a replacement annuity with qualified assignment and release, however, in evaluating the cost of such an annuity, the MMJUA determined that it was financially prudent to retain the liability at this time and consider looking at alternatives in the future. During 2013, the MMJUA booked its liability for the annuity, amounting to \$4,613,681. All annuities purchased after 1985 included a uniform qualified assignment and release from all future obligations. (See Note 27)

**Note 20 – Fair Value Measurements**

## A. Fair Value Measurements

## (1) Fair Value Measurements at Reporting Date

The Company has categorized its assets and liabilities that are measured at fair value into the three-level fair value hierarchy as reflected in the table below. The three-level fair value hierarchy is based on the degree of subjective inherent in the valuation method by which fair value was determined. The three levels are defined as follows.

Level 1- Quoted Prices in Active Markets for Identical Assets and Liabilities: This category, for items measured at fair value on a recurring basis, includes exchange-traded preferred and common stocks. It also includes derivative liabilities for written call options on common stock which are also exchange traded. The estimated fair value of the equity securities and derivatives within this category are based on quoted prices in active markets and are thus classified as Level 1.

Level 2 - Significant Other Observable Inputs: This category for items measured at fair value on a recurring basis includes bonds, preferred stocks and common stocks which are not exchange-traded. The estimated fair values of some of these items were determined by independent pricing services using observable inputs. Others were based on quotes from markets which were not considered actively traded.

Level 3 - Significant Unobservable Inputs: The Company has no assets or liabilities measured at fair value in this category.

There were no assets measured at fair value at December 31, 2024.

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred between Levels 1 and 2. This policy also applies to transfers into or out of Level 3 as stated in paragraph 3 below.

## (2) Fair Value Measurements in (Level 3) of the Fair Value Hierarchy

The Company has no assets or liabilities measured at fair value in the Level 3 category.

## (3) Policies when Transfers Between Levels are Recognized

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred into or out of Level 3. During the current year, no transfers into or out of Level 3 were required.

## (4) Description of Valuation Techniques and Inputs Used in Fair Value Measurement

The Company measures items at Level 2 on a recurring basis. The estimated fair values of some of these items were determined by independent pricing services using observable inputs. Others were based on quotes from markets which were not considered actively traded.

**Note 24 – Retrospectively Rated Contracts and Contracts Subject to Redetermination**

Pursuant to section 6 of regulation 21, all policies issued by the MMJUA are subject to a non-profit Group Retrospective Rating Plan ("GRRP"). The GRRP document was submitted and approved by the Director of the Department of Business Regulation. Under the plan of the GRRP, the final premium for policy holders of the MMJUA, as a group, will be equal to the administrative expenses, loss and loss adjustment expenses and taxes, plus a reasonable allowance for contingencies and servicing. Policy holders shall be given full credit for all investment income, net of expenses and a reasonable management fee on policyholder supplied funds. Section 2 of the GRRP document state that the MMJUA shall return to its policy holders insured during each annual rating period any excess premiums computed to be due for such annual rating period. Such premium returns shall be made through the stabilization reserve fund ten years after the expiration of each annual rating period or when all reported claims for annual rating period are closed, whichever is later.

Section 7 of the regulation creates a stabilization reserve fund ("SRF"). All funds in the SRF are to be held in trust and used to replenish the underwriting fund, if and when necessary, at the sole discretion of the director. All investment income of the SRF, less all expenses of administering the SRF, are to be credited annually to the underwriting fund of the MMJUA.

Any funds left in the SRF after all retrospective premium charges have been paid to the underwriting fund are to be returned to the policyholders under procedures authorized by the director. Section 4 of the GRRP document requires the SRF funds on policies which have been terminated at the insured's request or otherwise shall be held in trust for ten years from the date of termination and shall be distributed at that time or when all reported claims against the policyholder are closed, whichever is later.
