 - Level 1 Observable inputs in the form of quoted prices for identical instruments in active markets.

Reserves remaining for prior years are now \$155,312 as a result of re-estimation of unpaid claims and claim adjustment expenses on the dental line of insurance. Therefore, there has been a \$98,991 favorable prior-year development from December 31, 2024 to June 30, 2025.

This change is generally the result of ongoing analysis of recent loss development trends.
