  - Level 1 Observable inputs in the form of quoted prices for identical instruments in active markets.
  - Level 2 Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be derived from observable market data.
  - **Level 3** Little or no market data is available. Fair value is determined by using management's best estimates and assumptions.

The following table provides information as of September 30, 2025:
