NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND GOING CONCERN

A. Accounting Practices

The financial statements of Farmers Group Property and Casualty Insurance Company (“The Company”) are presented on the basis of accounting practices prescribed or permitted by the Insurance Department of the State of Rhode Island (“DOI”).

The Company recognizes only statutory accounting practices prescribed or permitted by the State of Rhode Island (the “State”) for determining and reporting the financial condition and results of operations of an insurance company, and for determining its solvency under the Rhode Island Insurance Law. The National Association of Insurance Commissioners (“NAIC”) Accounting Practices and Procedures Manual (the “Codification”), version effective January 1, 2001 and subsequently amended (“NAIC SAP”) has been adopted as a component of prescribed or permitted practices by the State. The Commissioner of Insurance has the right to permit other specific practices that deviate from prescribed practices. The Company did not utilize any permitted practices during the years presented.

A reconciliation of the Company’s net income and surplus between NAIC SAP and practices prescribed by the State of Rhode Island for year-to-date December 31, 2025, and the year ended December 31, 2024 is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with statutory accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are generally recognized as revenue on a pro rata basis over the policy term. The portion of the premiums written applicable to the unexpired terms of the policies is recorded as unearned premiums.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments include all investments whose maturities, at the time of acquisition, are greater than three months and less than one year and are stated at amortized cost, which approximates fair value.

NOTES TO FINANCIAL STATEMENTS

- (2) Issuer Credit Obligations are generally carried at amortized cost or the lower of amortized cost or fair value depending on their NAIC designation. Bond premium or discount is amortized using the effective interest method.
- (3) The Company does not hold any common stocks in its portfolio.
- (4) The Company does not hold any preferred stock in its portfolio.

The Company recognizes other-than-temporary impairment losses on investments when the decline in fair value specific to an issuer's fundamental credit difficulties, or a non-interest related decline, is deemed to be other-than-temporary. There are a number of assumptions and estimates inherent in evaluating impairments specific to an issuer's fundamental credit difficulties, or non-interest related decline, and determining if they are other-than-temporary, including: 1) The Company's ability and intent to retain the investment for a period of time sufficient to allow for an anticipated recovery in value; 2) the recoverability of principal and interest; 3) the length of time and extent to which the fair value has been less than amortized cost for bonds or cost for unaffiliated common and preferred stocks; 4) the financial condition, near-term and long-term prospects of the issue or issuer, including relevant industry conditions and trends, and implications of rating agency actions and offering prices; and 5) the specific reasons that a security is in a significant unrealized loss position, including market conditions which could affect access to liquidity. Interest rate related impairments are deemed other-than-temporary when the Company has the intent to sell an investment, at the reporting date, before recovery of the cost of the investment.

- (5) Mortgage loans on real estate are principally stated at amortized cost, net of valuation allowances.
- (6) Asset-backed securities are stated at either amortized cost or the lower of amortized cost or market value. Premiums and discounts on asset-backed securities are amortized using the prospective method.

Asset-backed securities with evidence of deterioration of credit quality for which it is probable that the company will be unable to collect all contractually required payments receivable, are written down to the present value of expected cash flows to be received.

- (7) The Company accounts for investments in subsidiary, controlled and affiliated ("SCA") companies using the statutory equity of the investee if the entity is an insurance company. All noninsurance entities are valued at the U.S. Generally Accepted Accounting Principles ("GAAP") equity of the investee.
- (8) The Company has no investments in joint ventures, partnerships or limited liability companies.
- (9) Investments in derivative instruments, including warrants, are carried at fair value with the corresponding unrealized gain or loss flowing through unassigned funds. Realized gain or loss is reported in the net realized capital gain or loss line of the statement of operations. The Company does not have any investments in derivatives as of December 31, 2025 and 2024.
- (10) The Company utilizes anticipated investment income in the calculation of premium deficiency reserves, in accordance with SSAP No. 53, Property-Casualty Contracts - Premiums. The Company evaluates the need for a premium deficiency reserve on a line of business level for all books. At December 31, 2025 and 2024, the Company had not established any premium deficiency reserves based on this calculation.

- (11) The liability for unpaid reported losses is based on a case by case estimate (case reserves) for all lines and coverages within line of business, except for the non-injury automobile claims. For the non-injury automobile coverages, unpaid losses are based on average "statistical" reserves. There is an additional overall estimate (supplemental reserves for several specific coverages within lines of business) based on the Company's past experience; this is also known as an additional reserve on known claims. A provision is also made for losses incurred but not reported on the basis of estimates and past experience modified for current trends and estimates of expenses for investigating and settling claims, reduced for anticipated salvage and subrogation. The liability for unpaid losses on business assumed is based in part on reports received from ceding companies.

Management believes that the liability for unpaid losses and loss adjustment expenses is adequate to cover ultimate unpaid losses and loss adjustment expenses incurred. However, such liability is necessarily based on estimates, and the ultimate liability may vary significantly from such estimates. In accordance with industry practice, the Company regularly reviews its estimated liability, and any adjustments are reflected in the period in which they become known. In accordance with guidelines established by the NAIC, the liability for unpaid losses at December 31, 2025 is reported net of estimated salvage and subrogation recoverable.

The Company currently has asbestos and environmental impairment liability ("EIL") loss reserves relating to the business written prior to 1990. The reserves related to these exposures are handled by a third party and the Company does not expect any adverse results from the asbestos and EIL due to a corresponding excess of loss contract.

- (12) The Company did not modify its capitalization policy from the prior period.

NOTES TO FINANCIAL STATEMENTS

(13) Not applicable, as the Company does not write any medical insurance with prescription drug coverage.

D. Going Concern

Management does not have any substantial doubt about the Company's ability to continue as a going concern.

2. ACCOUNTING CHANGES AND CORRECTION OF ERRORS

Effective January 1, 2025, the Company adopted the NAIC's Principle-Based Bond Definition (PBBB) in accordance with statutory guidance. The PBBB framework, implemented through revisions to SSAP No. 26R – Bonds and SSAP No. 43R – Asset-Backed Securities, establishes principles-based criteria for bonds. A bond under this guidance shall be defined as any security representing a creditor relationship, includes a fixed payment schedule, and qualifies as either an issuer credit obligation or an asset-backed security.

Securities that exhibit equity like features or essentially represent ownership interests will follow the guidance in SSAP No. 21R, Other Admitted Assets, and Schedule BA.

Following a comprehensive review of its investment portfolio, the Company determined that all its bonds adhere to the definitions of a bond under the PBBB guidance. The adoption of these revisions had no material impact on the Company's 2025 statutory financial statements.

The NAIC superseded SSAP No. 94R – Transferable and Non-Transferable State Tax Credits effective January 1, 2025, and revised and added new guidance to SSAP No. 94 – State and Federal Tax Credits which was effective the same date. The revised guidance clarified statutory accounting principles for state and federal tax credits that are purchased by the reporting entity and directed that transferable state tax credits should be recognized in the period they are allocated or purchased, and that they must be recorded at face value upon receipt. The tax credit should be reported as a tax credit receivable. Tax credits acquired at a discount must defer the gain as a miscellaneous liability which is deferred until the value of the tax credits utilized exceeds the initial acquisition cost. The adoption of these revisions had no impact on the Company's statutory financial statements.

The loans, executed on an as-needed basis, mature in ninety (90) days and cannot exceed in the cumulative aggregate three percent (3%) of a borrower's or lender's admitted assets. 20. FAIR VALUE MEASUREMENTS

A. Inputs Used For Assets Measured At Fair Value

(1) Fair Value Measurements at Reporting Date

The Company has categorized its assets that are measured at fair value into the three-level fair value hierarchy as reflected in the table below.

Level 1 - are liquid investments traded in active markets and valued based on unadjusted quoted prices. Assets in this category are preferred and common stock securities.

Level 2 - The securities that fall into this category are bonds, preferred stocks, common stocks and call options which are not exchange traded. These securities are valued based upon models with observable inputs - for example market interest rates, credit spreads etc. They may have been determined by independent pricing services using observable inputs.

Level 3 - are investments valued based upon models with "significant" non-observable inputs (assumptions). Such assumptions can be about loss severities, prepayment speed, interest rate volatilities, earnings forecast, comparables sales etc.

The Company has no assets that are measured at fair value as of December 31, 2025.

(2) Fair Value Measurements in (Level 3) of the Fair Value hierarchy

None.

(3) Policy on Transfers In and Out of Level 3

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an investment to be transferred in or out of Level 3.

(4) Inputs and Techniques Used for Level 2 and Level 3 Fair Values

Bonds and/or Debt Securities are carried at fair value categorized as Level 2 were valued using a market approach. These valuations were determined to be Level 2 valuations as quoted markets prices for similar instruments in an active market were utilized. This was accomplished by the use of matrix pricing. Matrix pricing takes quoted prices of bonds with similar features that are inputs into the analysis included duration, credit quality, tax status and call and sinking fund features.

Bonds and/or Common stocks are carried at fair value categorized as Level 3 were valued using unobservable inputs. These unobservable inputs reflect our own assumptions about the criteria that market participants would use in pricing these assets (including assumptions about risk). These assumptions were based on the best information available in the circumstances.

33. ASBESTOS/ENVIRONMENTAL RESERVES

The Company currently has assumed and ceded Asbestos and Environmental Impairment Liability (“EIL”) loss reserves relating to a 100% quota share (“Reinsurance Agreement”) and Excess of Loss Agreement with TIG (see Note 23). The net known unpaid losses and loss adjustment expenses and related reinsurance recoverable related to asbestos and EIL was \$0 at December 31, 2025 and 2024. The Company is 100% reinsured with respect to these reserves and does not expect any adverse results due to the Excess of Loss Agreement with TIG. The Excess of Loss Agreement was triggered in November 2016 as a result of the extinguishment of the funds held balance on the Reinsurance Treaty resulting in the net reserves being ceded to TIG by the Company. The Company remains contingently liable for all risks reinsured in the event the reinsurers are unable to meet their obligation under the agreements..

- A.** Does the Company have on the books, or has it ever written an insured for which you have identified a potential for the existence of, a liability due to asbestos losses? Yes (X) No ()

The Company has identified a potential for the existence of a liability due to asbestos losses. The Company's exposure to asbestos losses arises from the sale of general liability insurance prior to 1990. The Company relies on TIG to estimate the full impact of the asbestos exposure by establishing full case basis reserves on all known losses.
