1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying financial statements of Slide Specialty Insurance Company (the “Company” or “SSIC”) are presented on the basis of accounting practices prescribed or permitted by the state of Rhode Island Insurance Department.

The Rhode Island Insurance Department recognizes only statutory accounting practices prescribed or permitted by the State of Rhode Island for determining and reporting the financial condition and results of operations of an insurance company, and for determining its solvency under the Rhode Island Insurance Law. The National Association of Insurance Commissioners’ (“NAIC”) *Accounting Practices and Procedures Manual* (“NAIC SAP”) has been adopted as a component of prescribed or permitted practices by the State of Rhode Island.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles (“SAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports from ceding companies for reinsurance assumed and contract terms for reinsurance ceded. However, there were no written nor earned premiums in 2026 or 2025.

In addition, the company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost.
- (2) Bonds not backed by other loans are stated at amortized cost using the scientific interest method.
- (3) Unaffiliated common stocks are stated at market value.
- (4) Preferred Stocks, depending on type, are stated at cost or market.
- (5) Mortgage loans - Not Applicable
- (6) Loan-backed securities are stated at amortized cost. The retrospective amortization adjustment method is used to value all loan-backed securities.

- (8) Investments in joint ventures, partnerships and limited liability companies - Not Applicable
- (9) Derivatives - Not Applicable
- (10) Investment income as a factor in the premium deficiency calculation - Not Applicable
- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported Such liabilities are necessarily based on assumptions and estimates and, while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates, and for establishing the resulting liability, are continually reviewed and any adjustments are reflected in the period determined.
- (12) Changes in capitalization policy - No Significant Changes
- (13) Pharmaceutical rebate receivables - Not Applicable
