Interest income and accrued interest receivable are reversed when a loan is put on non-accrual status. Interest income on loans more than 90 days delinquent is recognized in the period the cash is collected. Interest income recognition is continued when the loan becomes less than 90 days delinquent and management determines it is probable that the loan will continue to perform.

B. Debt Restructuring - None

C. Reverse Mortgages - None

D. Asset-Backed Securities

(1) For fixed-rate agency mortgage-backed securities, Clearwater Analytics calculates prepayment speeds utilizing Mortgage Industry Advisory Corporation (MIAC) Mortgage Industry Medians (MIMs). MIMs are derived from a semi-monthly dealer-consensus survey of long-term prepayment projections. For other mortgage-backed, loan-backed, and structured securities, Clearwater utilizes prepayment assumptions from Moody's Analytics. Moody's applies a flat economic credit model and utilizes a vector of multiple monthly speeds as opposed to a single speed for more robust projections. In instances where Moody's projections are not available, Clearwater uses data from Reuters, which utilizes the median prepayment speed from contributors' models.

(2) Asset-backed securities with a recognized other-than-temporary impairment (OTTI) - None

(3) Securities held that were other-than-temporarily impaired due to the present value of cash flows expected to be collected was less than the amortized cost of securities - None

(4) All impaired securities for which an OTTI has not been recognized in earnings as a realized loss

All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

a. The aggregate amount of unrealized losses:	
1. Less than 12 months	$ 1,510,417
2. 12 months or longer	2,034,471
b. The aggregate related fair value of securities with unrealized losses:	
1. Less than 12 months	$ 33,012,849
2. 12 months or longer	11,812,012

(5) All asset-backed and structured securities in an unrealized loss position were reviewed to determine whether other-than-temporary impairments should be recognized. The Company asserts that it has the intent and ability to hold these securities long enough to allow the cost basis of these securities to be recovered. These conclusions are supported by an analysis of the underlying credit of each security. Unrealized losses are primarily attributable to higher interest rates and modestly wider spread levels. It is possible that the Company could recognize other-than-temporary impairments in the future on some of the securities, if future events, information and the passage of time cause it to conclude that declines in the value are other-than-temporary.

Level 3 assets and liabilities include financial instruments whose value is determined using internal models, as well as instruments for which the determination of fair value requires significant management judgment or estimation.
