Approved Hemp Cultivars for Performance Based Sampling

Issued pursuant to 230-RICR-80-10-1

Rhode Island Industrial Hemp Program

Effective Date: 1/30/2025

On 8/14/2024, updates to Rhode Island's Industrial Hemp Program regulations came into effect and, as a result, introduced the opportunity for Grower licensees to reduce their sampling burden under the performance-based sampling program. The following list contains varieties of hemp grown for fiber and grain production that qualify for performance-based sampling.

The purpose of this guidance document is to provide an overview of these updated conditions for current and future licensees. This is *not* a substitution for licensees thoroughly reviewing and understanding the regulations which are [available here](#).

Approved Fiber and Grain Hemp Varietals		
Variety/Strain	Type of Hemp	County of Origin
862MC	Fiber	Australia
887MC	Fiber	Australia
Altair	Grain/Fiber	Canada
Anka	Grain/Fiber	Canada
Canda	Grain	Canada
Carmenecta	Grain/Fiber	Italy
CFX-1	Grain	Canada
CFX-2	Grain	Canada
CHG	Fiber	Australia
CHY	Fiber	Australian
CRS-1	Grain	Canada
Delores	Grain	Canada
Deni	Fiber	USA
Enectarol	Grain/Fiber	Italy
Fedora 17	Grain/Fiber	Switzerland
Felina 32	Grain	Germany
Ferimon 12	Grain/Fiber	Europe
Fibranova	Fiber	Italy
Fibror 79	Fiber	France
Finola	Grain	Canada
Futura 75	Fiber	Italy/Germany
Futura 83	Grain/Fiber	France
Georgina	Grain	Canada
Grandi	Grain	Canada
Helena	Fiber	Serbia

Henola	Grain	USA
Hlesia	Grain/Fiber	Ukraine
Hliana	Grain/Fiber	Ukraine
Joey	Grain	USA
Katani	Grain	Canada
Laura Secord	Fiber	Canada
Orion 33	Grain/Fiber	France
Picolo	Grain	Canada
PR13	Fiber	Australia
Santhica 27	Fiber	France
Santhica 70	Grain/Fiber	France
SS Beta	Fiber	China
USO 31	Grain	Italy/Lithuania
Vega	Grain	USA
X-59	Grain	Canada
Zolotonosha	Grain	Ukraine
