1. Summary of Significant Accounting Practices

A. Accounting Practices

The accompanying financial statements of Narragansett Bay Insurance Company (the “Company” or “NBIC”) are presented on the basis of accounting practices prescribed or permitted by the Rhode Island Insurance Department.

The Rhode Island Insurance Department recognizes only statutory accounting practices prescribed or permitted by the State of Rhode Island for determining and reporting the financial condition and results of operations of an insurance company, and for determining its solvency under the Rhode Island Insurance Law. The National Association of Insurance Commissioners' (“NAIC”) *Accounting Practices and Procedures Manual* (“NAIC SAP”) has been adopted as a component of prescribed or permitted practices by the State of Rhode Island.

The Company, with the explicit permission of the Rhode Island Insurance Department, recorded an additional \$2.5 million capital contribution which the Company received from NBIC Financial Holdings, Inc. in the form of cash on April 2, 2013 in the December 31, 2012 statutory balance sheet as gross paid in and contributed surplus. In addition, \$2.5 million was recorded in the December 31, 2012 balance sheet as receivable from parent, subsidiaries and affiliates.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles (“SAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance assumed and contract terms for reinsurance ceded.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the company uses the following accounting policies:

- (1) Short-term investments are stated at amortized costs.
- (2) Bonds not backed by other loans are stated at amortized cost using the scientific interest method.
- (3) Unaffiliated common stocks are stated at market value.
- (4) Preferred stocks

- (5) Mortgage loans on real estate
N/A
- (6) Loan-backed securities are stated at amortized cost. The retrospective amortization adjustment method is used to value all loan-backed securities.
- (7) Investments in uncombined subsidiaries controlled and affiliated companies in which the Company had an interest of 20% or more are carried on the equity basis.
- (8) Investments in joint ventures, partnerships and limited liability companies
N/A
- (9) Derivatives
N/A
- (10) N/A
- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.
- (12) The Company has not modified its capitalization policy from the prior period.
- (13) Method used to estimate pharmaceutical rebate receivables

2. Accounting Changes and Corrections of Errors

In 2013 the Company determined the need to account for underwriting results relating to voluntary and involuntary pools on a gross basis whereby the participant's portion of premiums, losses and expenses, and other operations of the pools are recorded separately in the financial statements in compliance with SSAP No. 63.

Because of this change the Company recorded inception to date results for each pool for all applicable unsettled policy years reported for prior years. As a result, the Company is recording a 2013 positive surplus adjustment of \$357,000. No change or correction to net income is being recorded.

3. Business Combinations and Goodwill

The Company had no unamortized goodwill and did not participate in a business combination during the years ended December 31, 2014 and 2013.

(1) Prepayments assumptions for Mortgage-Backed Securities, Collateralized Mortgage Obligations and Other Structured Securities were generated using a purchased prepayment model. The prepayment model uses a number of factors to estimate prepayment activity including the time of year (seasonality), current levels or interest rates (refinancing incentive), economic activity (including housing turnover) and term and age of the underlying collateral (burnout, seasoning).

(4) The fair value and gross unrealized losses by length of time that individual security within the Company's portfolio had been in continuous unrealized loss position were as follows at December 31, 2014:

a. The aggregate amount of unrealized losses:

1. Less than 12 Months	\$	(34,686)
2. 12 Months or Longer	\$	(317,135)

b. The aggregate related fair value of securities with unrealized losses:

1. Less than 12 Months	\$	9,474,337
2. 12 Months or Longer	\$	17,957,283

(5) The Company routinely assesses whether declines in fair value of its investments represent impairments that are other than temporary. There are several factors that are considered in the assessment of a security, which include: (a) the time period during which there has been a significant decline below cost; (b) the extent of the decline below cost; (c) The Company's intent and ability to hold the security; (d) the potential for the security to recover in value; (e) an analysis of the financial condition of the issuer; and (f) an analysis of the collateral structure and credit support of the security, if applicable.

When the Company has determined that an other than temporary decline in the fair value of the security exists, the cost of the security is written down to its fair value and the unrealized loss at the time of the determination is charged to income through the recognition of a realized capital loss. There were no other than temporary charges recorded during the years ended December 31, 2014 and 2013.

H. Value of an Upstream Intermediate Entity
 N/A

- I. Investment in an SCA that exceeds 10% of admitted assets
- In accordance with NAIC SAP, NBIC has reported the investment in its 100% owned insurance subsidiary, PIC, at the statutory surplus value of that subsidiary. However, effective September 30, 2006, PIC, with the explicit permission of the Rhode Island Insurance Department, records its buildings and land at fair market value instead of at depreciated cost required by NAIC SAP. This permitted practice, however, does not extend to the value of PIC as recorded by NBIC. NBIC, therefore, continues to record its investment in PIC as an amount equal to PIC's surplus on an NAIC SAP basis.
