NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Accounting Practices

The statutory basis financial statements of the Company are presented on the basis of accounting practices prescribed and permitted by the Department.

The Department recognizes only statutory accounting practices, prescribed and permitted by the State of Rhode Island, for determining and reporting the financial condition and results of operations of an HMO, for determining its solvency under Rhode Island Insurance Law. The State prescribes the use of the National Association of Insurance Commissioners' ("NAIC") Accounting Practices and Procedures manual ("NAIC SAP") in effect for the accounting periods covered in the statutory basis financial statements.

No significant differences exist between the practices prescribed and permitted by the State of Rhode Island and those prescribed and permitted by the NAIC SAP which materially affect the statutory basis net (loss) income and capital and surplus, as illustrated in the table below:

Net (Loss) Income	State of Domicile	March 31, 2016	December 31, 2015
(1) Company State basis(2) State prescribed practices that increase/(decrease) NAIC SAP:(3) State permitted practices that increase/(decrease) NAIC SAP:	Rhode Island Rhode Island Rhode Island	\$ (5,561,916) - -	\$ 27,515,049

D. Loan-Backed Securities

- (1) Loan-backed securities are valued using the retrospective adjustment methodology. Prepayment assumptions for the determination of the amortized cost of loan-backed securities are based on a three-month constant prepayment rate history obtained from external data source vendors.
- (2) The Company did not recognize any other-than-temporary impairments ("OTTI") on loan-backed securities as of March 31, 2016.
- (3) As of March 31, 2016, the Company did not have any loan-backed securities with an OTTI to report by CUSIP.
- (4) The following table illustrates the fair value, gross unrealized losses, and length of time that the loan-backed securities have been in a continuous unrealized loss position as of March 31, 2016 and December 31, 2015:

	Ма	ırch 31, 2016
The aggregate amount of unrealized losses: 1. Less than 12 months 2. 12 Months or longer	\$	(49,327) (224)
The aggregate related fair value of securities with unrealized losses: 1. Less than 12 months 2. 12 Months or longer		11,324,914 119,215
	Dece	ember 31, 2015
The aggregate amount of unrealized losses:		
1. Less than 12 months	\$	(179,843)
2. 12 Months or longer		(386)
The aggregate related fair value of securities with unrealized losses:		
1. Less than 12 months		33,040,853
2. 12 Months or longer		157,890

(5) The Company believes that it will collect all principal and interest due on all investments that have an amortized cost in excess of fair value. The unrealized losses as of March 31, 2016 were primarily caused by interest rate increases and not by unfavorable changes in the credit ratings associated with these securities.

The provision for federal income taxes incurred/benefit is different from that which would be obtained by applying the statutory federal income tax rate of 35% to net loss before federal income taxes, and net realized capital gains primarily as a result of the annual health insurer fee under Section 9010 of the Patient Protection and Affordable Care Act which is non-deductible for tax purposes. The Company is required to expense 100% of the estimated annual fee on January 1, 2016. The Company's health insurer fee impact is \$14,041,147 in 2016, which will be paid in September 2016.

- (1-3) No significant change.

19. DIRECT PREMIUM WRITTEN/PRODUCED BY MANAGING GENERAL AGENTS/THIRD-PARTY ADMINISTRATORS

No significant change.

20. FAIR VALUE MEASUREMENT

The NAIC SAP defines fair value, establishes a framework for measuring fair value, and outlines the disclosure requirements related to fair value measurements. The fair value hierarchy is as follows:

Level 1 — Quoted (unadjusted) prices for identical assets in active markets.

Level 2 — Other observable inputs, either directly or indirectly, including:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in nonactive markets (few transactions, limited information, noncurrent prices, high variability over time, etc.);
- Inputs other than quoted prices that are observable for the asset (interest rates, yield curves, volatilities, default rates, etc.);
- Inputs that are derived principally from or corroborated by other observable market data.

Level 3 — Unobservable inputs that cannot be corroborated by observable market data.

The estimated fair values of bonds, short-term investments and common stocks are based on quoted market prices, where available. The Company obtains one price for each security primarily from a thirdparty pricing service ("pricing service"), which generally uses quoted prices or other observable inputs for the determination of fair value. The pricing service normally derives the security prices through recently reported trades for identical or similar securities, making adjustments through the reporting date based upon available observable market information. For securities not actively traded, the pricing service may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include, but are not limited to, non-binding broker quotes, benchmark yields, credit spreads, default rates and prepayment speeds. As the Company is responsible for the determination of fair value, it performs quarterly analyses on the prices received from the pricing service to determine whether the prices are reasonable estimates of fair value. Specifically, the Company compares the prices received from the pricing service to a secondary pricing source; prices reported by its custodian, its investment consultant and third-party investment advisors. Additionally, the Company compares changes in the reported market values and returns to relevant market indices to test the reasonableness of the reported prices. The Company's internal price verification procedures and review of fair value methodology documentation provided by independent pricing services have not historically resulted in an adjustment in the prices obtained from the pricing service.

In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest-level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability.

E. Risk-Sharing Provisions of the Affordable Care Act

(1) The Company has accident and health insurance premiums in 2016 subject to the risk-sharing provisions of the Affordable Care Act ("ACA").

The ACA imposed fees and premium stabilization provisions on health insurance issuers offering comprehensive commercial health insurance. The three premium stabilization programs are commonly referred to as the 3Rs – risk adjustment, reinsurance, and risk corridors.

Risk Adjustment – The permanent risk adjustment program, designed to mitigate the potential impact of adverse selection and provide stability for health insurance issuers, applies to all nongrandfathered not subject to transitional relief in the individual and small group markets both inside and outside of the insurance exchanges. Premium adjustments pursuant to the risk adjustment program are accounted for as premium subject to redetermination and user fees are accounted for as assessments.

Reinsurance – The transitional reinsurance program was designed to protect issuers in the individual market from an expected increase in large claims due to the elimination of preexisting condition limitations. The transitional reinsurance program is effective from 2014 through 2016 and applies to all issuers of major medical commercial products and third party administrators. Contributions attributable to enrollees in ACA compliant individual plans, including program administrative costs, are accounted for as ceded premium and payments received are accounted for as ceded benefit recoveries. The portion of the individual contributions earmarked for the U.S. Treasury is accounted for as an assessment. Contributions made for enrollees in fully insured plans other than ACA compliant individual plans, including program administrative costs and payments to the U.S. Treasury, are treated as assessments.

Risk Corridors – The temporary risk corridors program, designed to provide some aggregate protection against variability for issuers in the individual and small group markets during the period 2014 through 2016, applies to Qualified Health Plans in the individual and small group markets both inside and outside of the insurance exchanges. Premium adjustments pursuant to the risk corridors program are accounted for as premium adjustments for retrospectively rated contracts.

25. CHANGE IN INCURRED CLAIMS AND CLAIMS ADJUSTMENT EXPENSES

Changes in estimates related to the prior year incurred claims are included in total hospital and medical expenses in the current year in the statutory basis statements of operations. The following tables disclose paid claims, incurred claims, and the balance in the claims unpaid, accrued medical incentive pool and bonus amounts, aggregate health claim reserves, health care receivable (excluding provider loans and advances not yet expensed) and reinsurance recoverables at March 31, 2016 and December 31, 2015:

The liabilities for claims unpaid, accrued medical incentive pool and bonus amounts, aggregate health claim reserves, net of health care receivable and reinsurance recoverables as of December 31, 2015 was \$107,990,858. As of March 31, 2016, \$52,612,985 has been paid for incurred claims attributable to insured events of prior years. Reserves remaining for prior years, net of healthcare receivable and reinsurance recoverables are now \$54,577,150 as a result of re-estimation of unpaid claims. Therefore, there has been \$800,723 favorable prior year development since December 31, 2015 to March 31, 2016. The primary drivers consist of favorable development as a result of a change in the provision for adverse deviations in experience of \$3,172,976 and a favorable development of \$1,044,389 in retroactivity for inpatient, outpatient, physician, and pharmacy claims, favorable development related to Stop Loss of \$1,417,516 and \$765,595 of other favorable development; partially offset by an unfavorable development of \$3,713,093 in risk share reserves, \$1,427,245 in capitations, \$165,687 in reinsurance, \$156,740 in Medicare Part D and \$115,633 in provider settlement s. At December 31, 2015, the Company recorded \$4,792,227 favorable prior year development related to a change in the provision for adverse deviations in experience of \$2,890,040, favorable development of \$2,580,270 in retroactivity for inpatient, outpatient, physician, and pharmacy claims; partially offset by unfavorable development of \$488,048 in reinsurance and unfavorable development of \$136,311 in pharmacy rebates. Original estimates are increased or decreased, as additional information becomes known regarding individual claims, including the medical loss ratio rebate accruals. Included in this favorabledevelopment is the impact related to retrospectively rated policies, which also has a corresponding impact on medical loss ratio rebates. As a result of the prior year effects, on a regular basis, the Company adjusts revenue and the corresponding liability and/or receivable related to

retrospectively rated policies and the impact of the change is included as a component of change in unearned premium reserves and reserve for rate credits in the statutory basis statements of operations.

The Company incurred claims adjustment expenses of \$8,752,668 and \$33,925,904 for the three months ended March 31, 2016 and the year ended December 31, 2015, respectively. These costs are included in the management service fees paid by the Company to UHS as a part of its management agreement. The following tables disclose paid claims adjustment expense ("CAE"), incurred CAE, and the balance in the unpaid claim adjustment expenses reserve for the three months ended March 31, 2016 and the year ended December 31, 2015:
