STATEMENT AS OF MARCH 31, 2019 OF THE Ascot Specialty Insurance Company
NOTES TO FINANCIAL STATEMENTS

NOTE 1 Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying financial statements of Ascot Specialty Insurance Company (the "Company") have been prepared in conformity with accounting practices prescribed or permitted by the National Association of Insurance Commissioners ("NAIC") and the State of Rhode Island.

The Company prepares its statutory financial statements in conformity with accounting practices prescribed or permitted by the State of Rhode Island. The State of Rhode Island requires insurance companies domiciled in the state of Rhode Island to prepare their statutory financial statements in accordance with the NAIC's Accounting Practices and Procedures Manual subject to any deviations prescribed or permitted by the State of Rhode Island Department of Business Regulation Insurance Division (the "Department"). The Company has no differences between accounting practices prescribed or permitted by the State of Rhode Island and the NAIC.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with NAIC SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of contingent revenues and expenses during the period, if any. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct and ceded business.

Expenses incurred in connection with acquiring new insurance business, including commissions, are charged to operations, as incurred. Expenses incurred are reduced for ceding allowances received or receivable to the extent such amounts do not exceed the costs incurred to acquire the related business. Excess ceding allowances are recorded as unearned income to be recognized as the related premiums are earned.

In addition, the Company uses the following accounting policies:

1. Short-term investments are stated at amortized cost, which approximates fair value.
2. Investment grade bonds not backed by other loans are stated at amortized cost using the scientific interest method. The Company has no non-investment grade bonds.
3. The Company does not have common stock.
4. The Company does not have preferred stock.
5. The Company does not have mortgage loans.
6. The Company does not have loan-backed securities.
7. The Company does not have any investments in any subsidiaries or controlled or affiliated entities.
8. The Company does not have any interests in joint ventures, partnerships or limited liability companies.
9. The Company does not have any derivative instruments.
10. The Company does not anticipate investment income as a factor in any premium deficiency calculation.
11. Loss and loss adjustment expenses are charged to expense as incurred. The reserve for unpaid loss and loss adjustment expenses is based upon claim adjusters' evaluations and other estimates, including those for incurred but not reported losses (IBNR) and for reinsurance. Overall reserve levels are impacted primarily by the types and amounts of insurance coverage written, trends developing from newly reported claims and claims that have been paid and closed. The determination of estimates for losses and loss expenses and the establishment of the related reserves are periodically reviewed and updated during the year. Adjustments are made to reserves in the period they can be reasonably estimated to reflect evolving changes in loss development patterns and various other factors, such as social and economic trends and judicial interpretation of legal liability. While management believes that the amount carried as reserves for unpaid loss and loss adjustment expense is adequate, the ultimate liability may be in excess of or less than the amount provided.
12. The Company has a written capitalization policy for prepaid expenses and purchases of items such as electronic data processing equipment, software, furniture, other equipment and leasehold improvements. The predefined capitalization thresholds under this policy have not changed from those of the prior year.
13. The Company does not have any pharmaceutical rebate receivables.

D. Going Concern

Based upon its evaluation of relevant conditions and events, management does not have substantial doubt about the Company's ability to continue as a going concern.

NOTE 2 Accounting Changes and Corrections of Errors

There have been no material changes during the statement period.

NOTE 3 Business Combinations and Goodwill

A. Statutory Purchase Method

The Company did not enter into any statutory purchases during the year.

B. Statutory Merger

There were no statutory mergers during the three month period ended March 31, 2019.

C. Assumption Reinsurance

The Company has no assumption reinsurance.

D. Impairment Loss

The Company has no impairment loss relating to business combinations or goodwill.

NOTE 4 Discontinued Operations

Discontinued Operation Disposed of or Classified as Held for Sale

B. Fair Value Measurements

SSAP 100 establishes a fair value hierarchy which prioritizes and ranks the level of market price observability used in measuring investments at fair value. Market price observability is impacted by a number of factors, including the type of investment, the characteristics specific to the investment, and the state of the marketplace (including the existence and transparency of transactions between market participants). Investments with readily-available actively quoted prices or for which fair value can be measured from actively-quoted prices in an orderly market will generally have a higher degree of market price observability and a lesser degree of judgment used in measuring fair value.

Investments disclosed at fair value are classified and disclosed in one of the following categories based on inputs:

Level 1 - Fair value measurements that are quoted prices (unadjusted) in active markets that the Company has the ability to access for identical assets or liabilities. Market price data generally is obtained from exchange or dealer markets. The Company does not adjust the quoted price for such instruments.

Level 2 - Fair value measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset, either directly or indirectly. Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset, such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Fair value measurements based on valuation techniques that use significant inputs that are unobservable. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the determination of which category within the fair value hierarchy is appropriate for any given investment is based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the investment.

For the Company's investment portfolio, the Company obtains quoted prices in active markets, when available, for identical or similar assets at the balance sheet date. Market price data is generally obtained from dealer markets.
