#### (B) Use of Estimates in the Preparation of the Financial Statements

(5 - 6 - 7 = 8)

XXX

XXX

XXX

The preparation of the financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Therefore there is no effect on the reported net income, statutory surplus and risk based capital from utilizing an accounting practice that differs from the NAIC statutory accounting practices and procedures.

#### (C) Accounting Policy

NAIC SAP

#### **Investment Income and Declines in Fair Value**

The Company periodically reviews its bonds to determine whether a decline in fair value below the amortized cost basis is other than temporary. The process for identifying declines in the fair value of investments that are other than temporary involves consideration of several factors. These factors include (1) the period in which there has been a significant decline in value; (2) an analysis of the liquidity, business prospects, and overall financial condition of the issuer; (3) the significance of the decline; and (4) our intent and ability to hold the investment for a sufficient period for the value to recover. When our analysis of the above factors results in the conclusion that declines in fair values are other than temporary, the cost of the securities is written down to fair value and is reflected as a realized loss.

#### **Bonds**

Bond investments are stated at amortized cost and consist of United States Treasury and government agency securities as well as "Investment Grade" corporate notes with fixed rates and maturities. Interest income is accrued as earned. The Company has both the intent and ability to hold all securities until maturity and, accordingly, has categorized all investments as "held-to-maturity" securities. As a result, unrealized gains and losses are excluded from net income.

#### **Claims and Claims Adjudication Expenses**

The estimated liability for claims incurred but unpaid is actuarially determined based on an analysis of historical claims experience, modified for changes in enrollment, inflation and benefit coverage. The estimated liability for accrued claims adjudication expense represents the anticipated cost of processing claims incurred but unpaid at the balance sheet date. The estimates for claims and claims adjudication expenses may be more or less than the amount ultimately paid when claims are settled. Such changes in estimates are reflected in current period operations.

Additionally, in accordance with NAIC guidelines, the following accounting policies are either utilized or are not applicable to the company.

- 1. Short term investments are stated at amortized cost.
- 2. Bonds are stated at amortized value using the constant yield / scientific method.
- 3. The company does not own common stocks; however, in accordance with NAIC guidelines, money market funds are now reported as Cash on Schedule E and the Balance Sheet, per the NAIC guidance.
- 4. The company does not own preferred stocks; hence this accounting policy is not applicable.
- 5. The company does not have mortgage loans; hence this accounting policy is not applicable.
- 6. Loan-backed securities are stated at amortized value using the constant yield / scientific method
- 7. Investments in subsidiaries, controlled and affiliated entities would be reported using the equity method.
- 8. The company does not have investments in joint ventures, partnerships and limited liability companies; hence this accounting policy is not applicable.
- 9. The company does not own derivatives; hence this accounting policy is not applicable.
- 10. The company does utilize anticipated investment income as a factor in the premium deficiency calculation.
- 11. The company methodologies for estimating the liabilities for losses and loss/claim adjustment expenses are actuarially derived as described above.
- 12. The capitalization policy and the predefined thresholds did not change from the prior period.
- 13. The company does not use pharmaceutical rebate receivables; hence this accounting policy is not applicable.

The Company is not utilizing tax planning strategies.

There are no temporary differences for which deferred tax liabilities are not recognized.

There was no valuation allowance adjustment to gross deferred tax assets as of March 31, 2020 and no net change in the total valuation allowance adjustments for the periods ended March 31, 2020 and December 31, 2019, respectively.

The realization of the deferred tax asset is dependent upon the Company's ability to generate sufficient taxable income in future periods. Based on historical results and the prospects for future current operations, management anticipates that it is more likely than not that future taxable income will be sufficient for the realization of the remaining deferred tax assets.

As of March 31, 2020 and December 31, 2019, there are no operating losses or tax credit carryforwards available for federal tax purposes.

The following are income taxes incurred in the current and prior years that will be available for recoupment in the event of future losses:

#### NOTE 10 - - INFORMATION CONCERNING PARENT, SUBSIDIARIES AND AFFILIATES

A. In December of 2018, a new entity within the Altus Group, First Circle Realty, Inc. was formed to purchase the land and building at 10 Orms Street in Providence. The purchase was capitalized with \$6,500,000 and recorded as an intercompany transfer from the ultimate parent Company, Delta Dental of Rhode Island.

Previously, in the fourth quarter of 2016, a new entity within the Altus Group, First Circle, Inc. was also established and was capitalized with \$10,000,000 in the first quarter of 2017. In March of 2019, additional capital in the amount of \$5,000,000 was transferred to this new company. These amounts were recorded as intercompany transfers, as these capitalizations were from the ultimate parent Company, Delta Dental of Rhode Island. First Circle, Inc., a for-profit subsidiary, remains in the development stage. The Company is a services company that connects consumers with dentists for services not payable by insurance, and assists dental offices in promoting and increasing the efficiency of their offerings of such services through its proprietary Chewsi technological, transactional, payment processing and marketing services platform.

- B. See section A above.
- C. See section A above.
- D. At March 31, 2020 and December 31, 2019 the Company has payables with/to the Altus Group, Inc. and other affiliates. Some of these balances resulted from the fact that Altus Dental Insurance Company maintained a sweep banking arrangement for the Altus Group and its subsidiaries. The remainder of these balances are related to allocated expenses.

Management's cash flow projections for The Altus Group, Inc. and its subsidiaries are made based on a number of factors, which affect the changes in the intercompany balances over the period of time being analyzed. The most significant factors include: the relative and absolute growth in enrollment levels for Altus Dental Insurance Company, Inc.; the amount and rate of increase in operating and administrative expenses; the level of success Altus Dental, Inc. experiences in developing and maintaining its dental network; and the level of resources required by Altus Dental, Inc. for recruitment and marketing functions. Management's current cash flow projections for the dental operations of The Altus Group, Inc. and its subsidiaries projects profitability going forward and that the intercompany advances will be reduced gradually over time.

- E. The company maintains no guarantees or undertakings in accordance with SSAP #5 - not applicable.
- F. Altus Dental Insurance Company and Delta Dental of RI (DDRI) are allocated expenses from Altus Systems, Inc., a subsidiary within the Altus Group. Altus Systems (AS) is the company that employs the operations staff necessary to administer the dental business of both DDRI and Altus Dental Insurance Company. As a for-profit company, AS "sells" its dental related services to its sister and ultimate parent company at a 2% markup over its costs (to satisfy IRS requirements); therefore AS generates net income on its dental operations. The allocations from Altus Systems are based on the Company's member enrollment levels as a percentage of total consolidated dental member enrollment.

The Parent Company's one dental insurance subsidiary, Altus Dental Insurance Company, is allocated expenses from three affiliated Companies, the ultimate Parent, Delta Dental of RI and two sister companies (Altus Systems, Inc. and Altus Dental, Inc.) within the Altus Group. The allocations from Delta and Altus Systems are based on the Company's member enrollment levels as a percentage of total consolidated dental member enrollment. Expenses from Altus Dental are based on the number of subscribers under contract by the Company. The main allocated expenses from each source are as follows:

- Expenses are allocated from Delta Dental (DDRI), for costs associated with a portion of consolidated expenses incurred by DDRI that should be spread between the two insurance companies. The main costs in this category would be rent, depreciation and payroll and fringe benefit costs for the various departments that service both insurance Companies, such as Underwriting and Finance.
- Altus Systems (AS) is the company that employs the operations staff necessary to administer the dental business of both DDRI and this Company, such as claims processing and customer service.
- Altus Dental incurs costs related to: (1) advertising, (2) recruiting and servicing the provider network, and (3) sales and marketing activities. These costs are then allocated to the Company based on the volume of subscriber dental contracts.

For the periods ended March 31, 2020 and December 31, 2019, after elimination of intercompany transactions, The Altus Group, Inc. generated income of \$1,598,188 and \$4,832,878, respectively.

Altus Dental Insurance Company, Inc. is allocated expenses from affiliated entities based on allocation methods, which are analyzed and updated by management on an annual basis. The resulting total expense allocations are disclosed on Schedule Y of the 2019 Annual Statement filing. Total expenses, including these allocated expenses, are disclosed in more descriptive detail in the year end Underwriting and Investment Exhibit Part 3 – Analysis of Expenses.

- G. Altus Dental Insurance Company, Inc. is a wholly owned subsidiary of The Altus Group, Inc. which itself is a wholly owned subsidiary of Delta Dental of Rhode Island. This group of affiliated for-profit entities was established in 1999 for the purpose of expanding the ultimate parent company's offering of prepaid dental care products to organizations based outside the State of Rhode Island.
- H. The consolidated holding company maintains no upstream intermediate entities. This type of structured entity is not applicable to the corporate structure of Delta Dental of Rhode Island and all subsidiaries.
- I. The Company has no ownership of SCA entities. The parent company, Delta Dental of Rhode Island, does have an SCA annual filing for its subsidiary, The Altus Group.
- J. SCA impairment is not applicable to the Delta Dental of Rhode Island and Altus Dental Insurance Company as all subsidiaries are healthy and profitable.
- K. Foreign Insurance Subsidiaries are not applicable to the operations of the Company.
- L. Investments in a downstream noninsurance holding Company are not applicable to the operations of the Company.
- M. The Company maintains no SCA investments, so the Balance Sheet valuation tables are not applicable.
- N. The NAIC guidance per this section relates to disclosing Insurance SCA investments where the statutory equity reflects a departure from the NAIC permitted or prescribed statutory accounting practices and procedures. This departure from NAIC entity valuation methodology is not applicable to the corporate structure of the Company, therefore the table disclosing an NAIC departure is not applicable.
- O. The company maintains no SCA investments, so there are no losses that would exceed its investment. No disclosure is needed.

#### NOTE 20 - - FAIR VALUE MEASUREMENTS

The use of different assumptions or valuation methodologies may have a material impact on the estimated fair value amounts.

The Company's valuation techniques are based on observable and unobservable pricing inputs. Observable inputs reflect market data obtained from independent sources based on trades of securities while unobservable inputs reflect the Company's market assumptions. These inputs are comprised of the following fair value hierarchy:

Level 1 – Observable inputs in the form of quoted prices for identical instruments in active markets.

Level 2 – Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active or other inputs that are observable or can be derived from observable market data for substantially the full term of the assets or liabilities.

Level 3 – One or more unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets and liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using internal models, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

The Company does not currently have any financial assets that are measured at Level 3 fair value on a recurring basis. The following table provides information about the Company's financial assets and liabilities measured at fair value on a recurring basis:

	П	Level 1	Level 2	Level 3	Total

Cash and Cash Equivalents – The carrying value of cash and cash equivalents are presented at cost, which approximates fair value.

Investments – Investment securities are reported at amortized cost. The Company obtains fair value measurements from independent pricing sources, which base their fair value measurements upon observable inputs such as reported trades of comparable securities, broker quotes, the U.S. Treasury yield curve, benchmark interest rates, credit information, and the securities' terms and conditions. These prices are deemed to be Level 2.

#### NOTE 22 - - EVENTS SUBSEQUENT

The Company has two events subsequent to March 31, 2020 that would warrant disclosure in these statutory 2020 financial statements and are listed below.

In December 2019, a novel strain of coronavirus (SARS-CoV-2), which causes COVID-19, was reported to have surfaced in China. In March 2020, the World Health Organization declared the outbreak of COVID-19 to be a pandemic, and the U.S. economy began to experience pronounced effects. On March 16, 2020, in response to the COVID-19 outbreak the American Dental Association recommended dental providers nationwide postpone elective surgeries and remain open only for emergency dental procedures through April 30, 2020. On March 23, 2020, the Governors of the State of Rhode Island and the Commonwealth of Massachusetts issued Stay at Home advisories, requiring that all employees who can work from home do so and also the closure of all non-essential businesses and operations. The extent of the impact of these events and the broader COVID-19 outbreak on our operational and financial performance will depend on certain developments, including the duration and spread of the outbreak, impact on our customers, employees and vendors, and performance of our investment portfolio, all of which are uncertain and cannot be predicted. Our investment portfolio which is comprised of bond and equity securities is subject to credit risks related to the underlying issuers of such securities as well as broader interest rate and market risks. At this point, the extent to which COVID-19 may impact our financial condition or results of operations is uncertain.

As of the date of this filing, in response to the COVID-19 pandemic, the Company is implementing an emergency interest-free Advance Claims Payment Program ("ACPP") that is available to its participating dentists across the Commonwealth of Massachusetts. The Company has committed to funding advance claims payments to its participating dentists that have

significant claims activity with the Company. The program is designed to provide up to approximately \$800,000 of financial relief to Massachusetts dentists impacted by economic disruptions related to COVID-19.

The Company evaluated events and transactions which occurred subsequent to December 31, 2019, but prior to April 30, 2020, the date the statutory financial statements were available to be issued.

The company expensed \$1,089,121 for the full 2020 ACA assessment in the quarter ended March 31, 2020. The company recorded \$1,089,121 as restricted reserves in the December 31, 2019 filing, based on actual 2019 premiums.

have triggered an RBC action level (YES/NO)?

The Company presently does not underwrite premiums that are subject to retrospective rating or are contingent premiums (based on actual claims incurred) for the periods ended March 31, 2020 and December 31, 2019. #### NOTE 25 - - CHANGE IN INCURRED CLAIMS AND CLAIMS ADJUSTMENT EXPENSES

Loss Reserves as of December 31, 2019 were \$1,747,320. As of March 31, 2020, \$1,340,024 has been paid for incurred claims and claim adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$256,598 as a result of re-estimation of unpaid claims and claim adjustment expenses on the dental line of insurance. Therefore, there has been a \$150,698 favorable prior-year development since December 31, 2019 to March 31, 2020. The decrease is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased, as additional information becomes known regarding individual claims. Included in this decrease, the Company experienced no unfavorable prior year claim development on retrospectively rated policies. However, the business to which it relates is subject to premium adjustments.

This liability reflects no reductions for salvage and subrogation recoveries, which are recorded in the year of receipt.
