## A) Accounting Practices

The accompanying financial statements of the Company are presented on the basis of accounting practices prescribed or permitted by the State of Rhode Island Department of Business Regulation Insurance Division. The National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures Manual (NAIC SAP) has been adopted as prescribed or permitted practices by the State of Rhode Island Department of Business Regulation Insurance Division.

The Company, with the explicit permission of the State of Rhode Island Department of Business Regulation Insurance Division, records its' investment in an unaudited wholly owned subsidiary as an admitted asset. ## B) Use of Estimates in Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

## C) Accounting Policies

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by semi-monthly pro-rata methods for direct and ceded business.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition the Company uses the following accounting policies:

- Short-term investments are stated at amortized cost.
- Bonds not backed by other loans are stated at either amortized cost using the interest method or the lower of amortized cost or fair market value.
- Unaffiliated common stocks are stated at fair market value.
- Unaffiliated preferred stocks are stated at fair market value.
- The Company does not hold mortgage loans.
- Loan-backed securities, including Mortgage-Backed Securities and Asset-Backed Securities, are stated at either amortized cost or the lower of amortized cost or fair value, using the interest method. Prepayment assumptions are reviewed on a periodic basis. If changes in prepayments are deemed necessary, securities are revalued based upon the new prepayment assumptions. The retrospective adjustment method is used to revalue all securities except for interest only securities, securities where the yield had become negative or securities where an other than temporary impairment was recognized as adopted under SSAP No. 43R, that are valued using the prospective method.
- Common stocks of uncombined subsidiaries and affiliates in which the Company has an interest of 20% or more are carried on the equity basis.
- Real estate is stated at cost less accumulated depreciation.
- The Company does not hold derivative instruments.
- The Company does utilize anticipated investment income as a factor in premium deficiency calculations.
- Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessary based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.
- The Company has not modified its capitalization policy from the prior period.

## D) Going Concern

Management has determined there is no substantial doubt about the entity's ability to continue as a going concern.

The valuation allowance adjustment to gross deferred tax assets as of December 31, 2020 and December 31, 2019 was \$2,172,028 and \$0, respectively. The net change in the total valuation allowance adjustments for the periods ended December 31, 2020 and 2019 was an increase of \$2,172,028 and flat at \$0, respectively. The valuation allowance adjustment at 2020 relates to entities significant pre-tax book and taxable loss for the year ending December 31, 2020 along with the entities projected future pre-tax book income losses.

The realization of the deferred tax asset is dependent upon the Company's ability to generate sufficient taxable income in future periods. Based on historical results and the prospects for future current operations, management anticipates that it is more likely than not that future taxable income will be sufficient for the realization the remaining deferred tax assets.

The change in the net deferred income taxes is comprised of the following (this analysis is exclusive of the nonadmitted DTAs as the Change in Nonadmitted Assets is reported separately from the Change in Net Deferred Income Taxes in the surplus section of the Annual Statement);
