B. Uses of Estimates in the Preparation of the Financial Statements.

The preparation of financial statements in accordance with statutory accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The primary use of estimates are related to the Company’s reserve for claims unpaid. Actual results could differ significantly from those estimates.
